- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.

- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- *Finalized DEQ outreach at homes with water lead levels above 150 ppb.*
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.

- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
  - 80 Complexes
  - 4170 Units
  - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
  - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Daily Summary

Capt. Kelenske,

Below is a summary of events for today. The Sit Rep has been reviewed by Peter Manning and is attached.

Update 2/19/16 – 46th Day (45th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program, Hazard Mitigation Grant Program, and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
- EMHSD was granted an extension today from FEMA for the above programs under the Emergency Declaration appeal. The extension deadline is March 4, 2016.

Attached:

1. Sit Rep #45.
2. Maps: Residential Water Sampling Results for lead and copper.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 7 American Red Cross Teams scheduled for Saturday, February 20, 2016.

Items to Note

- A meeting with MDHHS-HS, EMHSD and FEMA took place to discuss a long-term recovery plan. DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines. A tracking system for the point of distribution locations that will offer real-time reporting.

- MDHHS-CH requested that MDEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer.
- MDEQ deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
- Letter to city of Flint outlining the needs to satisfy EPA item 62 is drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature.

Unified Coordination Group (UCG):

- The CDC/ATSDR Field Team has reported hearing health complaints at many home visits. The UCG Science Group has been called together to discuss next steps to document and address these health concerns.
- CDC/ATSDR Field team and Regional staff participated in a meeting with EPA and MDHHS to discuss some preliminary EPA sampling data.
- UCG Daily Sit Rep available in MI CIMS.
- EPA issued news release highlighting the effectiveness of lead-removal filters.

Local EOC:

- Transition to the new National Guard units completed today.
- Water crisis march, involving Rev. Jesse Jackson, Rainbow PUSH Coalition, Michigan Legislative Black Caucus, and Concerned Pastors for Social Action was attended by approximately 350 protestors. No incidents related to the march reported.
- Coordinating with Flint Community Schools and Head Start program for identification of populations without supplies.
- Discussed potential future donations with Good360 nonprofit.
- City of Flint Water Distribution Supervisor visited EOC to discuss identification of lead lines with MDEQ staff.
- 16 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

Here is the string of emails.

faucet was collected by Lt. Russo/Roach, I checked with Mark Durno to see if EPA could test it, Mark said no problem and it was taken to the EPA command post.

In a follow up discussion here at the UCG, I was told that the faucet had typical build up that needed to be cleaned out.

Mark Russo, I can call and tell him there is not enough material in his faucet to test.

Scott, can DEQ arrange for a water sample to be collected following proper procedures? Timeframe? When I call him back I would like to give him an update on both the faucet and water testing.

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at
Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised has galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

/ provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

also added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

Disabled, can't drive
Black stuff coming out of faucet
Needs a pitcher filter, regular filter won't attach to his faucet
says:
says he just got water two days ago
He thinks it is racial because no white people are getting help
His water has NOT been tested

FEMA

Flint Water Crisis FEMA-3375-EM-MI

Long Term Distribution Concept Proposal Overview

The State of Michigan is requesting the establishment of a FEMA $78 million Indefinite Delivery Indefinite Quantity (IDIQ) commodities contract with a period of performance ending January 15, 2017. The principal objective of the IDIQ contract is to support a just-in-time delivery strategy of filters, filter cartridges, and bottled water in order to provide the impacted community of Flint, MI with safe and clean drinking water.

Background:

On January 16, 2016 the President signed an Emergency Declaration for Genesee County to provide Direct Federal Assistance under Category B, emergency protective measures. The emergency assistance is to provide water, water filter, water filter cartridges, water test kits, and other related necessary related items for a period of no more than 90 days.

On October 28, 2015 the City of Flint began adding additional phosphates to the Flint water supply. The additional phosphates will gradually build and maintain scale on the pipes and reduce lead intrusion into the water system. It is undetermined how long this process will take to build an adequate scaling to reduce the lead levels to an acceptable rate. Additionally, pregnant woman and children under 6 years of age are advised to continue to drink only bottled water. Based on this information, the need for safe and clean drinking water supplied by filtered and bottled water will likely extend beyond the 90 day period indicated in the Emergency Declaration. To address the long term needs of the community, the State of Michigan has developed a resources distribution strategy to support the survivors in Flint, MI for a period of 12 months.

State Course of Action:

The State of Michigan long term resources distribution strategy centers on providing the community with bottled water, faucet filters, and faucet filter cartridges at 9 FEMA compliant Points of Distribution (PODs) placed in each of the political wards located in Flint, MI. One centralized warehouse will serve as the distribution center to supply the PODs and 9 Rapid Response Teams (RRT) with commodities.

The long term staffing of the water resources distribution effort will be supported through a National Dislocated Worker Grant funded by the U.S Department of Labor and administered by the State of Michigan. The project's primary goal will be to: 1) develop 400 temporary jobs that benefit the residents of Flint affected by the Flint Water Crisis by employing workers on projects that provide emergency water, water filters, lead testing kits and replacement cartridges, 2) provide support services to the persons placed into the temporary jobs, 3) provide support for temporary job through warehousing water and other commodities, and recycling the bottles and

filters as needed during the crisis. While the overriding emphasis will be to support the local recovery effort through temporary jobs for humanitarian purposes, there will also be a range of broader workface services directly connected to the temporary jobs programs to assist participants the workers in finding permanent employment. The state will use National Guard personnel until workforce can be brought on line.

Execution Process:

- Establish a contract utilizing to support state commodity distribution needs until January 15, 2017. The cost of this contract is estimated to be $78 million. The contract cost is based on meeting the need of the community if all donated resources ceased immediately. Using the current burn rates of the commodities as follows:
  - $67,698,751 – Water
  - $5,087,271 - Filters
  - $5,838,164 - Cartridges

    $78,624,186 Total

  *It is important to note that of the 371,869 liters of water that is consumed daily 315,987 (85%) liters comes from donated sources. However, the state, also assumes that in time "donations fatigue" will decrease the donated source of water.
- The contract amount will be fully funded within the 90 day emergency declaration period based on the sustained burn rate for bottled water, faucet filters, and filter replacement cartridges.
- The contract shall define the vendors, delivery through an IDIQ contract vehicle.
- Two FEMA representative(s) will remain on site in Flint until the conclusion of the contract or until resources are no longer needed. The FEMA representative shall provide oversight to confirm the receipt and delivery of all items purchased with DFA funds and to effect proper transfer to the state.
- The contract will be deobligated prior to the period of performance date if the Flint water supply is deemed safe by the State of Michigan and water resources defined in the emergency declaration are no longer needed.

Program Benefits:

- The proposed model does not require excessive warehousing space to store an unrealistic amount of bottled water, filters, and filter cartridges.
  a. The State is currently utilizing a 70,000 sqft. and a 54,000 sqft. facility for all State led distribution efforts.
  b. A 4,000,000 sqft. warehouse is required to store a 12 month supply of bottled water alone.
- Potential realized savings in the millions to the State and FEMA through the execution of just-in-time shipments as opposed to bulk ordering to meet the immediate needs of the community.
  a. All unused funds will be deobligated if the Flint water system is deemed safe prior to January 15, 2017.
- Manufacturers are unable to produce a 12 month supply of filters and cartridges to meet the demand of the community by April 15, 2016.

a. Filter manufacturers are constrained by production capacity, and the availability of raw resources to provide the required amount of filters and replacement cartridges within time period indicated in the emergency declaration.

- Supports the resource needs of the community and requires a small FEMA footprint to execute.
- Adheres to the 90 day limitation of funding, but still addresses the ongoing needs of the impacted community.

The State of Michigan requested support model offers an efficient, financially responsible, and survivor centric strategy that supports ongoing efforts to provide safe and clean drinking water to the residents of Flint until January 15, 2017. Additional details regarding the State Long Term Distribution Strategy can be found in Attachment #1.

TDN Water Crisis Response

1. Individual Response:

a. **Reliable, credible information:** *track & post updated water information to* all staff, partners & customers (lobby, staff meetings, e-mails, newsletters)

b. **All TDN Programs:** water issue conversations with all inquiries, outreach to TDN program participants (NFT, Ramps, Technology, Employment, Youth) and all TDN customers (including non-Flint residents)

c. **TDN Customers**: Staff & volunteer outbound calls (water, filter & testing)

2. Community Response:

a. **Promote Accessible Communications (print, electronic & meetings):**
   - Deaf: Closed Captioning, sign language certified interpreters
   - Blind/Visually Impaired: Text, Braille & Large Print, Contrast
   - Cognitive/LD: simple language

b. **Continued Spotlight on Vulnerable Populations**:
   - Advocate for response to vulnerable populations with functional limitations (seniors, disability, literacy, etc.)
   - Create a TDN emergency water response team
   - Respond to requests: FEMA, Homeland Security, ACL, Congress, State

c. **Organize the Disability Community Response (be at every table):**
   - Disability representation at all community meetings
   - Recruit and host all disability organizations/agencies to develop a *collective message on accessibility and accommodations*

d. **Promote long term, sustainable services-opportunities-hope**:
   - Early detection, services and accommodations benefit everyone in Flint (not victims, labeled as lead heads .... Life, jobs, careers, independence). Keep hope alive and overcome distrust of leaders

Flint Water Crisis

Community Partners Working Together

Flint
MI

Websites:

Flint Water Information:

http://www.michigan.gov/flintwater

Volunteer Support:

http://www.flintvolunteer.com

Catholic Charities

- Distributing water daily at its Center for Hope and North End Soup Kitchen.
- We continue to serve meals and provide personal hygiene items daily as well.
- Catholic Charities is also serving as a main donation drop-off point for all donations coming into the city and is working with the Red Cross and United Way to provide daily volunteering opportunities.

Catholic Charities

Food Bank of Eastern Michigan

- Has 145 partner agencies and program sites in Flint engaged in mission with church pantries, soup kitchens, shelters, community centers and programs for children that include Head Start and after-school meals along with weekend meals with the backpack program
- Started distributing water in September and as of February 16th, has distributed over 3.57 million bottles of water
- Working with 40 sites per week for water distributions
- Averaging 37 semi-trailers of water per week – 54,432 cases per week distributed
- Moving into Mobile Nutrition Deliveries that will deliver over 100 truckloads of vitamin-rich foods to Flint neighborhoods

FOOD BANK of Eastern Michigan

Mass Transit Authority

- Transportation of volunteers to distribution sites
- Water distribution
- Filter distribution
- Storage of Emergency vehicle

MTA

University of Michigan Flint

- Along with the Computer Science Department and a colleague from the Flint & Genesee Chamber of Commerce, Outreach is working on a mobile app for Android for services related to the crisis, such as water and water filter distribution, recycling locations, blood testing locations, etc.
- Outreach is working with student groups on campus to organize a recycling challenge with the local higher education institutions
- The chancellor appointed Outreach to handle request from campus/community.
- Course work is being done around the water crisis, some of which is being coordinated by University Outreach, including work with our Communications Department faculty and students and the JIC regarding crisis communications
- Outreach is aligning volunteer programs to deal with the water crisis. For example, Service Saturdays.

THE UNIVERSITY OF MICHIGAN FLINT

United Way of Genesee County

- Supporting United Way Grantees as they provide relief to the community
- Funding and serving as the liaison for the 211 call center
- Partnering with the Red Cross to operate the Community Volunteer Reception Center
- Purchasing and distributing emergency and recovery response items
- Leading and supporting the water recovery workgroups
- Responsible for NCCC activities
- Supporting the EOC

United Way

United Way of Genesee County

American Red Cross

- Over the past several weeks the Red Cross mobilized 40 mobile distribution routes comprised of Red Cross Emergency Response Vehicles and box trucks.
- Distributing water, water filters, testing kits and educational materials
- Participating and supporting the Community Partner Recovery Group
- Collaboration with USPHS and Genesee Health Systems to facilitate Red Cross Psychological First Aid training for community leaders
- Consultation regarding availability of additional training: Force Health Protection' and 'Coping in Today's World' to address ongoing community needs
- Participation in the Community Resilience Group
- Supporting the Community Volunteer Reception Center
- Placing volunteers on water relief activities

American Red Cross

Islamic Relief

- Continues to deliver to the Flint Public Housing complexes, as well as several Section 8/subsidized housing complexes.
- In addition, we are working out a strategy to hire up to 20 local residents to continue distributing to these locations on our behalf.
- Supplied a total of 216,000 bottles of water during the month of February

ISLAMIC RELIEF

Islamic Relief USA

WORKING TOGETHER FOR A BETTER WORLD.

Lions Club International

- We are supplying Water and Filters at this time

LIONS INTERNATIONAL

- Adventist Community Services (ACS) is the humanitarian agency of the Seventh-day Adventist Church in the United States and Bermuda. ACS includes: Disaster Response (ACS DR), Adventist Care Network (ACCN), Youth Empowered to Serve, Tutoring and Mentoring, Elder Care, and Community Development/ Inner City
- ACS DR responds to the needs of people in time of disaster through the volunteer network by working in warehouses, donation centers, and distribution centers by managing and volunteering.
- ACS-DR cooperates in this program, giving their time, talents, money and goods to the survivors in cooperation with the appropriate government and other voluntary agencies.

---

www.childrenshealthfund.org

Mission: Children's Health Fund delivers high-quality health care to America's most disadvantaged children.

- Children's Health Fund has recently partnered with Dr. Mona Hanna-Attisha and Hurley Medical Center.
- We brought a fully equipped mobile medical clinic to Flint the week of 2/9/2016, to be used locally as long as needed.
- We met with multiple community and health care leaders over the week. The plan is to work with Dr. Mona and other community groups to determine how the mobile clinic can best support the community goals of ensuring all children are connected with medical homes and getting the information, screening (not just lead), and wraparound services that they need. This will be a community-driven, collaborative, integrated initiative designed to support the local health care infrastructure in the goal of reaching and providing high quality services to the kids of Flint and their families.
- We continue to meet with community representatives to determine if there are other ways we can be of support.

Mott Children's Health Center

- Dr. Reynolds, President of Mott Children's Health Center, was appointed to the Governor's Flint water advisory taskforce and the Interagency Coordinating Committee
- Supporting Tamara Sampson is a member of Flint Resilience committee for stress management
- We have been coordinating with the United Way, Genesee County Health Department, Red Cross, MTA, Flint Schools, GCARD, MDHHS, Greater Flint Health Coalition, , City of Flint etc. since September in developing a response plan and determining funding streams and distribution processes for filters and bottled water.
- Also determining the best way to respond and coordinate the response to the current crisis.
- We have developed a protocol which assists our patients, who have lead exposure concerns, to internal lead education resources and to community lead assistance/education resources.

Communication Access Center

- Advocating to community partners the necessity of making sure Deaf, Deaf, Blind and Hard of Hearing individuals are not forgotten. Raising awareness!
- Provide information and methods to help community partners work with deaf individuals more efficiently and effectively.
- Providing accessible information, water and filters to Deaf and Hard of Hearing individuals who come to our agency and other places where deaf people meet.
- Hosting our first information session to the Deaf Community at the Flint Association for the Deaf on Friday, Feb 19th from 2:30 to 4 p.m. Sign Language Interpreters will be provided.
- Attended PFA training with three members of our organization

COMMUNICATION CAC ACCESS CENTER
FOR THE DEAF AND HARD OF HEARING

Community Foundation of Greater Flint

- Established Flint Child Health and Development Fund ... a charitable fund that will provide flexible resources for the long-term needs of Flint's children and families.
- 20 years of resident engagement work through our Neighborhoods Small Grants program. Upcoming Flint Neighborhood Summit on Saturday, April 9.
- Access to healthy food initiative, our regional food navigator is working with five action teams with a focus on getting healthy food in the bodies of Flint's children.

community foundation℠
Greater Flint

Family Service Agency of Mid Michigan

Building tomorrow by strengthening our families and communities today

---

- Providing our participants in the Senior Community Service Employment Program (SCSEP) with information regarding lead testing and water distribution sites
- Working on proto-type for window placards to be placed in window if delivery is needed (avoiding duplication of effort)
- Targeting individuals in our program who can offer needed manpower for the HUBs or distribution sites.

AARP®
Real Possibilities

Arab Community Center for Economic and Social Services

- Organized a bus and van with over 65 Volunteers
- We distributed water to over 800 homes
- We focused on section 8 housing: Evergreen Regency townhomes and Rollingwood Manor
- We partnered with Islamic relief and Michigan Muslim Community

ACCESS
assisting. improving. empowering.

Genesee County Hispanic/Latino Collaborative

- water distribution/water deliveries
- Baby supplies
- Community meeting
- Insurance enrollment
- Flu shot

HISPANIC LATINO COLLABORATIVE
GENESEE COUNTY, MI
PROMOTING AMERICA BY ENHANCING OUR CULTURES

2nd Chance Church

- Passed out an average of 60 pallets of water per week since January 19th
- Pastor Aldridge and the Church receives 40 pallets per week from the food bank. We have received water from
- Raleigh and Greensboro N.C.(1500 cases), with another truck due on Feb 28, 2016. Water has come in from Memphis,
- Cleveland, Columbus, Indianapolis, Detroit, Battle Creek, Ann Arbor and Sterling Heights .
- Our main distribution days are Tuesdays and Thursdays from 9:30a.m. thru 3:00 p.m. We sometimes do Saturdays on a limited basis. We have
- Joined the Resource Group and would like to become a Hub in the 3rd ward.

2nd Chance Church
Pastor Derrick A. Aldridge, Founder

University of Michigan Flint

- Hosting the Flint Water Crisis Course open to all Community members
- Engaging in evaluation and assessment activities to determine needs for long-term action
- Faculty and Student led Health Education and volunteer services

M FLINT
CAMPUS
WATER INFO

Michigan Area of the United Methodist Church

- We have launched Eight neighborhood "Water Crisis" Resource Centers located in each of the United Methodist Churches throughout the City of Flint. Each of these Resource Centers is equipped to provide free Water Filtration Systems, Replacement Filters and Zero-Water Filtration Pitchers to our community.
- We are providing water testing kits issued by the City of Flint/State of Michigan to promote residential water testing.
- *All Churches are distributing water to the community.*
- We are providing safe water literature, healthy dietary information, Lead FAQ Info and how-to-contact info to the public.
- We are actively engaging with our community agencies (Partners) and other ecumenical churches and associations to share resources and coordinate efforts.

The United Methodist Church
MICHIGAN AREA

Our agency Valley Area Agency on Aging provides services for the elderly and disabled to allow them to remain independent in their homes. We have been working multiple entry points to ensure that senior needs are being met.

- We service over 2000 homebound seniors in Genesee County through various programs
- Called every participant enrolled in any of our programs to check on their wellness and access to water.
- Delivered water and filters to many homebound participants dating back to 2015
- Follow up calls to all participants to ensure they received a delivery of water and filters
- Keeping website and social media up to date with educational information and POD locations
- Advocating on a State and Federal Level for additional funding for the community

Valley Area Agency On Aging
Answers, Action & Advocacy

Region 3 Healthcare Coalition:

- Region 3 Healthcare Coalition has partnered with Genesee Health System to provide two Psychological First Aid courses held in Flint.
- The first was held on February 11th at Mott College. The second is being held on February 24th also at Mott College.
- It is anticipated that about 40 local Flint are service providers will have attended the sessions. Funding from Region 3 HCC was provided by a federal award from the Assistant Secretary of Preparedness Response, of US Department of Health and Human Services.

REGION 3 HEALTHCARE COALITION

Michigan Coalition for Immigrant & Refugee Rights

- The more than 40 member organizations of the Michigan Coalition for Immigrant and Refugee Rights (list at MCIRR.org) advocated with the state to ensure that immigrants would have access to information and services.
- In response to our advocacy the state eliminated the requirement that people present photo ID to access water and filters. This helped not only immigrants who are not eligible for state ID, but also many other Flint residents without ID. The state also increased efforts to disseminate information in languages other than English.
- The Michigan Immigrant Rights Center, together with the ACLU of Michigan, continues to advocate for access to health coverage for residents of Flint who are noncitizens. The state has indicated that it will use the Medicaid program, but many noncitizens, both documented and undocumented, would not be eligible for care through that program and will need alternative services.

MCIRR
Michigan Coalition for Immigrant and Refugee Rights

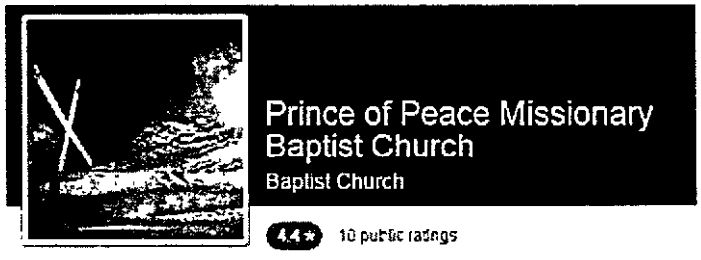
Greater Flint Health Coalition:

- Coordinating joint response efforts relative to the medical / health response areas with local healthcare provider institutions, physicians, insurers, and non-profits, as well as state and federal agencies.
- Expanding the Genesee Children's Healthcare Access Program (CHAP) to ensure all children have access to a medical home ("primary care physician") as well as linkages to supportive services including transportation, patient navigation, parent education, case management, and nutrition.
- Collaborating locally with Genesee Health System, Mott Children's Health Center, health systems, state and federal agencies to pursue a federal waiver to expand Medicaid eligibility and provide targeted case management services to all residents 21 and under
- Developing strategies and infrastructure to create a longitudinal health record for all children in partnership with the area healthcare providers and Great Lakes Health Connect, a long-term partner in Flint and the largest health information exchange (HIE) in Michigan
- Leading the ongoing development of response strategies with a number of community partners in the areas of education, nutrition, and health/medical as well as the "physical health" point of recovery group

GREATER Flint HEALTH COALITION

Prince of Peace Missionary Baptist Church

- Distributing water daily from 10:00-2:00
- Delivering water to senior citizens
- Assisting churches with water distribution
- Looking into shower filters



Mormon Helping Hands

- About (200) of us "Mormon Helping Hands" passed out a semi load of water to several streets in the city of Flint last Saturday, Feb 13.

THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

MORMON HELPING HANDS

Universal Kidney Foundation

Supporting Flint through the water crisis by providing the following:

- Health and nutrition education
- Providing water and water filters to homebound individuals with kidney disease or kidney related diseases (also to anyone homebound that contacts us)
- Provision of multiple resources to homebound individuals or connecting them with community partners (currently providing)
- In the very near future (awaiting approval) we will be providing lead testing at all of the city of Flint fire stations for adults and children
- Transportation for testing
- Technology to track any individuals blood levels after they have been tested regularly with UKF

Metro Community Development

- Water storage for distribution at Oak Business Center
- Housing Counseling and Foreclosure Counseling for families.
- Under our Building Neighborhood Capacity Program (BNCP) we have staff helping residents in Ward 1 and Ward 3 in connecting them with resources such as access to water and filters, plumbers to change faucets, ask a lawyer forum on housing law and family law issues in partnership with Legal Services of Eastern Michigan.
- Partnered for set up of SBA to assist small businesses with loans, specifically for working capital at Oak Business Center.
- We are working with MEDC to provide business loans in the City.
- We are currently working on seeking resources through Federal Home Loan Bank, beginning in April, to assist with replacement of plumbing in homes for homeowners.
- Coordinating with homeless provider organizations for any assistance.

Flint Community School

- Bottled water distribution to all Flint Community Schools.
- Distribution of Zero Water pitcher filters & replacement filters to Flint Community Schools, local charter and non-public schools, and GISD Head Start.
- Water testing and fixture replacement collaboration with DLARA and MDEQ.
- Development of lead awareness curriculum for District students.
- Lead awareness initiatives for District parents, teachers and staff.
- School nutrition program enhancements (e.g. USDA's school breakfast and lunch program menus and "Fresh Fruit and Vegetable" program)

National Association of Social Workers

- Members of the NASW-Michigan members started a group called "Crossing Water."
- We have volunteer crews of social workers who have partnered with a canvassing operation to identify immediate needs in the most distressed neighborhoods.
- Our volunteer crews are dispatched whenever the canvassers identify immediate needs (water, filters, filter installation, mental health referrals, baby formula, baby wipes, plumbing issues, etc.).
- Every week we meet more people who have needs that are not being met, not because the local agencies aren't trying, but because this is an overwhelming issue of great magnitude.
- We are targeting families with young children, pregnant mothers, elderly, homebound, undocumented citizens, low-income residents.
- Our goal since we got involved has been to identify gaps and fill them. When we can't address a concern immediately we provide education and refer out.
- On the policy level we have been in support of legislation directing funding at Flint.
- We are also in the process of drafting a list of recommendations, from a social work lens, to use to lobby policymakers to provide additional resources.
- Being a statewide member agency, our goal is to provide support where needed. We are not all residents of Flint, but we have members and clients in Flint. We have a mission of social justice and stand in solidarity with partner agencies and residents of Flint.

NASW
National Association of Social Workers

Advocacy

The Flint & Genesee Chamber of Commerce

- Participating in and promoting the Flint Small Business Assistance Forum on Feb. 18. The forum will provide access to programs and services that can help Flint businesses recover from the water emergency.
- *Distributing free bottled water to businesses on Tuesdays and* Thursdays, from 9-11 a.m., at the Genesee Packaging facility at 1611 James P. Cole Blvd., Flint.
- Connecting businesses impacted by the water crisis to key resources, such as the SBA Economic Injury Disaster Loan program and Business Recovery Center.
- Providing up-to-date information and working to develop consistent communitywide messaging, communications and marketing to shift public sentiment.

GENESEE
FLINT

Chamber of Commerce

The Salvation Army

- Referring volunteers from our volunteer data base to help distribute water, filters and test kits via the Volunteer Reception Center;
- Supported feeding of general volunteers at the EOC site seven days a week. We are currently feeding between 50-60 persons on a daily basis.
- We are supporting food supplies for the Southern Baptist Disaster Services for their breakfast and supper in addition to lunches that are served via EOC.
- Our Adult Rehabilitation Center is distributing water via the Flint Area Family Thrift Stores;
- Our Social Service Staff continue to help people with water bills with past due notices .

Michigan State University Extension

- Food preservation classes and Serv-Safe classes.
- Presentation on gardening concerns and lead soils at Carriage Town Ministries this week. Providing presentations on Gardening and Flint water for the Master Gardeners so they are able to answer questions for the public. In addition, I am working on a presentation on reducing Risks while gardening in high lead soils, to be shared to all Master Gardener coordinators statewide.
- MSU Extension has launched the Fight Lead Exposure website, http://msue.msu.edu/lead, as an informational resource hub for people to learn about lead, including the risks and what to do if they, a young child or a loved one has been exposed to lead.
- *Edible flint,* a local nonprofit organization housed with MSU Extension and focused on supporting Flint residents in growing and accessing healthy food, is expanding its soil testing program (includes screening for lead) to include all food gardens within the City of Flint, offering hose end filters for irrigation, and adding additional lead fighting veggies to its Garden Starter kits to reassure Flint's gardeners that urban gardens are safe. http://www.edibleflint.org/ ; 810-244-8530.
- MSUE offers nutrition education series for the community for free. This is something we have done for decades but have adjusted to focus on key nutrients- iron, calcium, vitamin C. We are partnering to do food demonstrations at the Flint Farmers' Market, focusing on these ingredients.
- We are in the process of hiring 3 new staff to expand our outreach and capacity to deliver more cooking demonstrations throughout Flint. One of these positions will focus on working with child care providers to improve their environment related to nutrition and physical activity.

http://msue.anr.msu.edu/uploads/resources/pdfs/MSUE_Fight_Lead_With_Nutrition_WEB.pdf

Disability Network of Michigan

- Providing reliable, credible information: track & post updated water information to all staff, partners & customers (lobby, staff meetings, e-mails, newsletters, website & social media)
- All TDN Programs: water issue conversations with all inquiries, outreach to TDN program participants (NFT, Ramps, Technology, Employment, Youth) and all TDN customers (including non-Flint residents)
- TDN Customers: Staff & volunteer outbound calls (water, filter & testing)
- Promote Accessible Communications (print, electronic & meetings):
  Deaf: Closed Captioning, sign language certified interpreters
  Blind/Visually Impaired: Text, Braille & Large Print, Contrast Cognitive/LD: simple language
- Continued Spotlight on Vulnerable Populations:
  Advocate for response to vulnerable populations with functional limitations
  Seniors, disability, literacy, etc.
  Create a TDN emergency water response team
- Respond to requests: FEMA, Homeland Security, ACL, Congress, State
- Organize the Disability Community Response (be at every table):
  Disability representation at all community meetings
  Recruit and host all disability organizations/agencies to develop a collective message
  Promote long term, sustainable services-opportunities-hope:

Our focus continues to be on:

- *Immediate Accessible Emergency Response Actions – accessible communications, water distribution, transportation, filters and testing.*
- Preparation and Planning for Long Term Solutions – engagement, leadership, accessible communications, water resources, education, unique mental & physical health needs, accessible infrastructure and economic development.
- Changing the Fear/Stigma of Disability - from pity and victim to engagement and access for all.
- Promoting a Hopeful Future for Flint Citizens with Disabilities

---

Genesee Health System

- Organizing PFA trainings for the community
- Providing water crisis counseling sites
- Convening the BH work groups and engaging community partners.

Unitarian Universalist Congregation of Flint

- UUCF congregation approved a multi point **Resolution Calling for Redress of Grievances** pertaining to water crisis.
- UUCF partners with community organizations for water distribution, canvassing, protest rallies and related activities during this crisis.
- UUCF sanctions ministerial time and work on Flint wide community engagement during this water and infrastructure crisis.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	*02/16/2016 08 00 00*
Operational Period End:	02/23/2016 08 00 00
Situation Report No	45
SEOC Status:	Full
SEOC Hours of Operation Begin	02/19/2016 08 00 00
SEOC Hours of Operation End:	02/19/2016 20 00 00

Executive Summary

SEOC Update.
Accomplished today (February 19, 2016)

The SEOC continues to provide
- Situational awareness
- Common operating picture/objectives.
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures.
- Resources
- Public information control.

Logistics
- Fielded resource requests.
- *Fielded Rapid Response requests.*
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Reviewed potential warehouses
- Compile SEOC positions list.
- Distribute SEOC staffing list for Feb. 22-28

JIC
- Created a media monitoring report and looked for misinformation Found an article where Genesee County Sheriff Robert Pickell states that he doesn't trust the lead water testing being conducted in the city of Flint. The Flint JIC brought this to the Genesee County JIC liaison's attention
- Issued a news release about the postponement of the recycling event on Saturday, Feb. 20, with MSU student athletes.
- *Created a news release to remind Flint residents to replace their filter cartridges The intention is to issue the news release today*
- Continued working on printing of information for FOIA request.
- Updated talking points for Captain Kelenske for the Feb 20 Tele Town Hall with Lt. Gov Brian Calley

Recovery Branch
- Attended UCG briefing, SEOC state agency briefing meetings, and distribution process meetings.
- Confirmed current iPads for Southern Baptist and the PODS
- Cleared remaining no filter/no contact homes.
- Team priority list for today Began visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Team priority list for tomorrow Continue visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges
- *7 American Red Cross teams scheduled for Saturday, February 20, 2016*

o Total homes visited
- 27,157 (round 3 total).
- 433 (today).

o Water
- 196,176 liters or 16,348 cases (round 3 total)
- 3,600 liters or 300 cases (today)

o Faucet filters
- 7,932 (round 3 total).
- 15 (today)

o Replacement cartridges
- *7,339 (round 3 total)*
- 216 (today).

o Water test kits.
- 3,101 (round 3 total)
- 50 (today).

Planning Section:
- Developed and approved Sit Rep #45
- Updated burn rates and projection costs, per request.
- Updated Flint Water Timeline.
- Participated in daily UCG, state agency, and distribution process meetings
- Developed daily Governor's Report.

Operations Section
• Participated in Unified Coordination Group briefing
• Facilitated SEOC agency briefings.
• Participated in distribution process meeting.

• Warehouse numbers as of 1800
❑ Water (liters)
• 725,800 liters or 60,483 cases
❑ Filters (faucet)
• 69,282.
❑ Replacement cartridges
• 426,442
❑ Test kits (prepped)
• 33,996.

• PODs (number as of 1700 2/19)
❑ Water
• 82,404 liters or 6,867 cases.
❑ Filters (faucet).
• 150
❑ Replacement cartridges
• 461.
❑ Test kits.
• 178.

Finance Section
• Review state agency costs and updated reports
• Worked with State Planner on cost analysis worksheet for appeal letter

GIS branch updates
• Developed map of residential water test results by city block.
• Update water test results from February 18, 2016.
• Prepared for a presentation to the Governor on Monday February 22.
• Updated data sets accessible by Governor and his staff through ArcGIS Online.
• Prepare documents for FOIA request.

DTMB
• Attended a meeting with DHHS-HS, EMHSD and FEMA to discuss a long-term recovery plan DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines A tracking system for the point of distribution locations that will offer real-time reporting
• Printed 250 water response team credentials Will be delivered to Local EOC on Monday
• Provided warehouse security quotes for armed and unarmed guards to logistics.
• Issued two (2) iPads for DEQ SEOC representatives to monitor Sentinel team activities

DHHS-CH·
• The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD
• The CHECC continues to provide representation to the UCG to facilitate communication with federal partners
• Provided the weekly report compiled by the MDHHS/CDC Medical Epidemiologist on rashes reported and follow-up information collected to SEOC Operations Chief
• Forwarded requested documents that have been translated from LARA to the CHECC, to fulfill the request received from the GCHD
• Requested that DEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer
• The request for 200 copies of the Pregnancy Flyer was cancelled for the time being, due to the need for the flyers to arrive in time for a clinic that is being held on Sunday (2/21)

DEQ
• Collector App for Sentinel B sampling data collection created and deployed to field teams with training manuals
• Transportation for field teams secured
• Better coordination achieved among the information call-in lines· PEAS, EAC, and 2-1-1.
• Reports and data summarization for 15 pre-sampled schools completed, ready for posting
• Continue to monitor progress of Sentinel Sampling and support as necessary
• Deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
• Work to complete Residential Flushing Guidance Document.
• Work with MSHDA to develop best plan to deal with multi-family structures.
• Met with ROWE Professional Services Co ROWE developed a plan for hydro-boring five sites to determine make up of service line from the main to shutoff valve.
• Letter to city of Flint outlining the needs to satisfy EPA item 62 is drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature
• Residential Flushing Guide completed and awaiting approval.

State VAL
• Worked with the State Planner and the Assistant Division Commander on extension and appeal.
• Finalized FOIA submittal
• Followed up with FEMA and Alafia Foundation for TSA donation logistics
• Working with MDHHS on representatives to attend the Community Partners Mental and Physical Health work groups.

Unified Coordination Group (UCG)
• The CDC/ATSDR Field Team has reported hearing health complaints at many home visits. The UCG Science Group has been called together to discuss next steps to document and address these health concerns

• CDC/ATSDR Field team and Regional staff participated in a meeting with EPA and MDHHS to discuss some preliminary EPA sampling data
• UCG Daily Sit Rep available in MI CIMS
• EPA issued news release highlighting the effectiveness of lead-removal filters

Local EOC
• Transition to the new National Guard unit completed today
• Water crisis march, involving Rev Jesse Jackson, Rainbow PUSH Coalition, Michigan Legislative Black Caucus, and Concerned Pastors for Social Action was attended by approximately 350 protestors No incidents related to the march reported
• *Coordinating with Flint Community Schools and Head Start program for identification of populations without supplies*
• Discussed potential future donations with Good360 nonprofit.
• City of Flint Water Distribution Supervisor visited EOC to discuss identification of lead lines with MDEQ staff
• 16 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels
• Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

Injuries
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1 Ensure all households within impacted community have required resources and are included in DEQ water sampling plan
12 Approve and begin implementation of a comprehensive long term recovery and transition plan
11 Ensure accurate tracking and accounting of all donations and expenditures
2 Ensure accurate tracking and accounting of all commodities
3 Continue to improve and maintain public information processes and strategies with all partner agencies
6 Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWCC, and the US Department of Health and Human Services Unified Coordination Group (UGC)
9 Continue to enhance situational awareness and common operating picture of all activities
7 Gather, analyze, and disseminate GIS data to develop products for future planning

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a m. to 8 p m. on Feb 19

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services, State, and Treasury. The Genesee County Sheriff's Office was also present.

Tasks accomplished
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from contractors looking to help with replacing lead service lines to media inquiries about lead-level testing in schools and pipes sitting outside of the Flint Water Treatment Plant Questions were routed from WDIV-TV 4 in Detroit and WJBK-TV 2 in Detroit
- Created a media monitoring report and looked for misinformation. Found an article where Genesee County Sheriff Robert Pickell states that he doesn't trust the lead water testing being conducted in the city of Flint. The Flint JIC brought this to the Genesee County JIC liaison's attention.
- Issued a news release about the postponement of the recycling event on Saturday, Feb. 20, with MSU student athletes.
- Created a news release to remind Flint residents to replace their filter cartridges. The intention is to issue the news release today
- Updated community outreach spreadsheet to include parent-teacher organizations and other local events
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www michigan gov/flintwater
- Issued and scheduled social media posts for distribution
- Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
- Follow-up with United Way 2-1-1 about outstanding rumors and questions.
- Updated talking points for Captain Kelenske for the Feb 20 TeleTown Hall with Lt. Gov Brian Calley.

Agriculture and Rural Development (MDARD)

Summary of activities from MDARD at the SEOC on 2/19/16.

1. MDARD's field activities through 10.00 am on 2/19/16 included.
- 44 water assessments were completed
- 44 In-Use samples were collected
- 1 sampling appointment has been scheduled.
- 12 water results received

Of 159 newly identified establishments, MDARD has approximately 12 establishments left to conduct initial assessments next week.

2 An additional 8 assessments and 8 in-use samples were collected by 16.00 today. A full cumulative report will be provided on 2/22/16.

3. MDARD prepared a response to the question of whether it is safe to consume home canned food that used unfiltered water. In summary, the response informs that foods must be prepared and processed using potable water. Unless it can be tested, which has a high cost to benefit, it should be disposed Follow the adage "When in doubt, throw it out". The full response was approved by the JIC

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Friday, 2/19/16 We plan to deploy 5 teams tomorrow as well

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday. Today the VRC processed and placed 129 event-based volunteers.

Volunteers assembled more than 6,500 bottle recycling kits today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD The CHECC continues to provide representation to the UCG to facilitate communication with federal partners,

Provided the weekly report compiled by the MDHHS/CDC Medical Epidemiologist on rashes reported and follow-up information collected to SEOC Operations Chief.

Forwarded requested documents that have been translated from LARA to the CHECC, to fulfill the request received from the GCHD.

Requested that DEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer, in the event that the direction shifts to providing shower filters to the public

The request for 200 copies of the Pregnancy Flyer in Spanish to be printed by DTMB for the GCHD was cancelled for the time being, due to the need for the flyers to arrive in time for a clinic that is being held on Sunday (2/21) Instead, the GCHD will be printing the pregnancy flyers themselves. Pregnancy flyers in Spanish, Hmong, Chinese, Arabic, and English are all available on the Flint Water website. The translated parent letters were also provided to the GCHD today as well

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow MDOT is dedicating 2 employees to the effort DTMB continues to dedicate 2 trucks with drivers

Safety concerns continue to be addressed at Warehouse 1

Adjustments have been made to testing delivery rotation, to include additional tests at the EOC

Adjustments made to rotation of re-palleted water from warehouse 2 to warehouse 1.

Equipment and personnel analysis for permanent staffing structure for warehouse operations has been completed and submitted

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level PODs remained well supplied throughout day and will continue to be well supplied moving forward

MDOC continue to staff the SEOC from 0800-2000, 7 days/week Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

224 DEQ and 41 MDARD test kits (265 total) were delivered from Flint to Lansing today.

Education (MDE)

MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today

- Collector App for Sentinel B sampling data collection created and deployed to field teams with training manuals
- Transportation for field teams secured
- Better coordination achieved among the information call-in lines. PEAS, EAC, and 2-1-1.
- Reports and data summarization for 15 pre-sampled schools completed, ready for posting
- Continue to monitor progress of Sentinel Sampling and support as necessary.
- Deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
- Work to complete Residential Flushing Guidance Document
- Work with MSHDA to develop best plan to deal with multi-family structures.
- Met with ROWE Professional Services Co ROWE developed a plan for hydro-boring five sites to determine make up of service line from the main to shutoff valve
-Letter to city of Flint outlining the needs to satisfy EPA item 62 drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature.
-Residential Flushing Guide completed and awaiting approval

Human Services (MDHS)

MDHHS beginning discussions with MDE on summer resources for school children

Working on additional mobile food pantry locations

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse. Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters LARA will coordinate this training with Amway and the Local 370 plumbers

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1 DTG: 1912452016

2 UNIT Points of Distribution (PODs), NG TF FLINT

3 POC Capt Bechtel, Jennifer E (' Email. ng mi.flint.eoc@gmail com

4 PRESENT LOCATION Genesee County Local EOC, 1101 Beach St , Flint, MI, 48502

5 SITUATION OVERVIEW NG Task Force Flint has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs) Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS Currently NG Task Force Flint has Soldiers on ground supporting the mission

7. OPERATIONS. Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs

a Signs have been printed off for the POD Buildings Received approval from Purchasing Office to laminate signs.

1) TF Flint member 2Lt Benke is picking up signs from Calix Martinez (City of Flint Plans and Marketing office) and will have the signs laminated today To be distributed 20Feb16

b VIP anticipated at POD 5 on Monday, February 22nd Additional details unavailable

c. Local news stations reported this morning that MSU Alumni would be at the PODs to help distribute water on Saturday. This is an error as the MSU Alumni are planned to only be working from the old Kroger location on Pierson Rd

8. PERSONNEL: Soldiers are currently assigned to the POD operations) Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9 INTELLIGENCE / FORCE PROTECTION Mile-long national march up to the water plant organized in part by Rev Jesse Jackson takes place in Flint on Friday, 2/19/16 starting at 11 a m

10. LOGISTICS In support of TF Flint

a The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse Warehouse drivers will distribute evenly to the PODS on Monday.

b Recycling trailers are being assessed by Schupan on frequency of pickup

c Mile Long March today will have road closures that may require alternate routes for water delivery to PODs

11 COMMUNICATIONS.
a. POD 8 computer unusable by ANG members EOC working on acquiring replacement computer.
b Replacement laptops delivered to PODs yesterday won't allow changes to wireless settings, due to lack of admin rights. 125 IN laptops have been left behind for immediate use in daily reporting. Resolution in process
P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs
E: Runner

12. NARRATIVE N/A

13. COMMANDER'S EVALUATION:
• RIP/TOA activities complete and all PODs are running entirely under new NCOICs
• OUT (last 24 hours)
Bottled water-4,912 Water (Gallons)-900 Lead Testing Kits-235
Pitcher (23 cup)-0 Brita Faucet Filter-33 Brita Replacement Cartridge-117
Pur Filter-73 Pur Replacement Filter-241

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include.
Chief Gary Hagler, F/Lt Jennifer Wolf, F/Lt. Steven B Burton

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co EOC for water and filter follow-up

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is
Kathryn C Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ All e-mails to MSP-EOC-MDSP@michigan gov are being forwarded to the Operations Lt The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates

Attended a meeting with DHHS-HS, EMHSD and FEMA to discuss a long-term recovery plan DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines and a tracking system to be used at the point of distribution locations that will offer real-time reporting
Printed 250 water response team credentials. Will be delivered to Local EOC on Monday
Provided warehouse security quotes for armed and unarmed guards
Issued two (2) iPads for DEQ SEOC representatives to monitor Sentinel team activities

Transportation (MDOT)

Providing 2 staff to warehouse #2 (Pierson Rd)

Providing 2 portable light tower generators to Fire Station #5 on Western Rd

Providing (3' x 5') standard signs *Fire Stations/PODs (2 each site)*
Providing 100 grabber traffic cones (narrow reflective cones) at Fire Station #3 Martin Luther King Rd & Fire Station #6 Pierson Rd. (50 each site)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions

Incident Related Images

SEOC Report for: February 19, 2016

***Full Days Since Emergency Declaration:* 45**

Items to Note

• An access and functional needs list of Flint residences was finalized yesterday after coordination with other state agencies. This list of 1325 residences was provided to American Red Cross for their teams to use as their priority to visit each of these residents to ensure they are receiving the resources they need.

• "Flint Water Crisis- Community Partners Working Together" met yesterday. There are six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination. State representation on Education, Physical Health, and Emotional & Behavioral Health sub-committees would be welcomed. The Flint Library will host an informational meeting on March 10 and requested state attendance on a water resource panel.

OG,
We will announce it at the next five meetings to be advised that the Monday morning meeting (time) has changed. I would prefer not to do a smart message, seems a bit much, likely to create unnecessary confusion and will not reach all the parties involved. Is the smart message the Captains orders?
Thanks much
Gabe

Subject: Monday 9:30 Briefing

Captain Kelenske would like you to adjust the time of the morning briefing from 9:30 a.m. to 10:00 a.m., on Monday February 22.

Please send a smart message indicating the time change to 10:00 a.m. for Monday February 22, but ONLY for this coming Monday, this is NOT a regular schedule change.

This information should be included in the afternoon brief, as well as weekend briefs to assure everyone is aware of the time change for Monday.

I have also requested a list of each SEOC position that includes a brief description of the function of those positions.

I will also need a list of state agencies who have a representative seated/active in the SEOC.

I need this information by 3:00 today. Please let me know if you have questions.

> Hi Chris,
> I was cc on the emails yesterday regarding the survey results from the Head start Families. We sent out 1,100 simple surveys to the families of our 4 year old children on Thursday, on Monday we received 655 back. However since Monday, we have had 3 parent educational meetings on the water situation (assisting parents in understanding, proper nutrition, educational info, etc.) and we have received many, many more. Our initial number show there are 142 homes with no filters, we have address name, contact information etc.
> Right now we are doing the following for the initial 142 families and all subsequent survey responses indicating NO filter :
> 1. Our Health Technicians are making a Personal calls to parents or personal contacts when picking up child to ask which method would work best for them to receive a filter, cartridge, water etc.
>
> A. Have product delivered by MSP
> B. Pick up the Filter at the school
> C. School staff will deliver and install the filter using Family Engagement Coordinators
> D. Or Send the filter or cartridge home with the child in backpack.
>
> Yesterday we sent the same survey home with all of our Great Start Readiness (GSRP) preschool Students, (about 2,000) and will follow the same process with the responses.
> We feel very confident we can meet the needs of most families if we can access the filters/cartridges. I will also send you a list of families that will welcome the (MSP) to deliver the needed product.
>
> If you have any time to let me know how to access products, and set the ISD up as a Bulk

recipient, we will assure that we only use what is needed and distribute directly to the families in need.
Please do not hesitate if you feel our systems and resources can be beneficial.

Subject: RE: FLINT ISD taskers and email intro

If possible, I would like the list of addresses as we still have five teams in the field going to homes missed. Since the survey we may have gotten to some of those areas. We just found some mobile home parks that were missed and have since visited them which could have been some of the 142.

Let me know if we can get the addresses. I will give Dr. Hagel a call on the bulk recipient idea.

Chris

Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

Subject: additional enlisted staffing in the SEOC

For those that are involved in the staffing of the SEOC:

Sgt. Schroeder advised that he is willing to work in the SEOC as needed, he also advised that **Sgt. Dave Eddy** was interested in familiarizing himself with SEOC operations and would welcome a chance to come in and assist. D/Sgt. Eddy is currently at the MIOC, and he is also the Command Master Chief within the National Guard (air guard).

D/Sgt. Eddy has shown an interest in EMHSD and may be a good candidate for future consideration within the division.

Thanks,
Gabe

FYI only. I send this report out also but wanted you to see the comments from Nat.

Also NOTE: Monday the Governor will be at the SEOC. Still getting info on this but I also heard there could be media. Not sure if you want to be there but will keep you posted on time.

Subject: Data report

Governor,

Attached is the daily report. (Note, the last page is just a sample layout for the sentinel site water test results when they come in.)

A couple of items of interest from today:

1) Ben and I met with DHHS, DEQ, and SEOCGIS today to discuss your spreadsheet. The tentative protocol is that DHHS will transmit its updated, de-duplicated data to the SEOC weekly, while DEQ will submit its data in real time to the SEOC using the GIS collector app. SEOCGIS will merge the data as it comes in and map it. DEQ is updating the collector app that it is using for the sentinel sites to include your additional fields and my hope is that we can test the integration next week when DHHS submits its first round of EBL investigation data to the SEOC.

2) Ben and I test drove the web-based GIS application today and it is very cool. For Monday, I have asked SEOCGIS to give you an overview of the application and the data you can access through it. As I write this, I have the sentinel site map application open on my iPad with a live ticker showing me the number of new participating locations visited today (115) and new lead service lines found (6). If I click any icon on the map, it pulls up a report of the site visit, complete with pictures of the pipes. Takes about 6-10 seconds between when a field team clicks submit on their iPad and when the map location and report show up on the screen.

I don't know if you've had a chance to try out the mobile app version that Ben sent a link to last week. It's pretty neat, but the web-based version adds dashboard capability, which makes it a much more useful tool.

Subject: RE: List of those on on the Flint Water System

Sir,

We can currently provide this list with property owner and tax payer for single tenant properties (residential, commercial, and industrial). However, multi-tenant remains a challenge as there currently is a single file that contains all of the unit level information.

That said, we had a meeting with ESRI (mapping vendor) yesterday and specifically discussed this issue. As part of this we developed a strategy for building this list per your guidance. The key note that was discussed with ESRI is that Computer Aided Dispatch (CAD) systems are most often used nationally by local jurisdictions when they do similar work to pull master lists from.

As such, we began coordination yesterday with state CAD administrators to try and get the data from them. However, they noted that the information they have is dated and we would need to go direct with Genesee County for this information. We plan to attempt to go direct with them today. That said, the state administrators also noted that the county CAD does not appear to be comprehensive based on the dated information they have.

Knowing CAD would also potentially be an incomplete list, we believe the solution that needs to be executed is to use "address standardization" tools to combine all of our known lists together. Currently, DTMB/CSS has a tool they use for this in house and we have begun coordination to pass them information and build the dataset. DTMB/CSS already has the ability to pull from common state addressing sources (secretary of state, licensing sources, etc.). However, we would need to provide our field team activity, CAD Data, and potentially a master list from postal service to DTMB/CSS to really flesh things out.

I write all of this detail to highlight that the building of this list may take more time than we are being allotted, although, it is achievable. Especially, when you consider that we have significant labor to do still to fulfill the FOIA request (approximately 10-20 staff hours). With the FOIA, I would anticipate we could complete this by the middle of next week to have something for you.

As an alternative (not knowing the intended use of the master list), ESRI also noted that many large municipalities use crowd sourcing apps when they are facing incomplete lists to address citizen issues until a list can be built. We can built a crowd sourcing app very quickly based on mission need. Example may include a website citizens can go to, to notify the state that they need a replacement cartridge, or where they could submit photos of their water meters for plumbers to evaluate if they are led based on appearance.

Subject: List of those on on the Flint Water System
Importance: High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

LIMITED DISTRIBUTION

NOTE: Added Ari Adler and Kevin Weise to the distribution.

Update 2/18/16 – 45th Day (44th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - **Flint data for the appeal was received today.** Data will be analyzed and incorporated into the appeal letter.
    - Appeal EXTENSION letter drafted and will be sent to FEMA Friday morning. MI is asking for a 30 day extension due to not having the data from Flint but we will not wait the 30 days (if granted)to submit the letter for appeal. FEMA Region V is aware of our forthcoming request.

Attached:

1. Sit Rep #44.
2. Maps: Residential Water Sampling Results for lead and copper.
3. Governor's Report 2/17/16.

Key items for tomorrow to note are:

- Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.
- 17 Sentinel teams will continue tomorrow, Saturday and Sunday in order to reach the targets of 402 sites and 60 lead lines.
    - Summary of combined sentinel groups to date:
        - 356 residents enrolled
        - 16 lead service lines identified

Items to Note

- US Department of Health and Human Services visited Fire Station #5 POD today. Per Lt. Roach the visit went very well.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams visited the final three mobile home parks that were identified as missed and an additional 34 homes.
- United States Secretary of Health and Human Services Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).
- MDHHS-CH Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
- TIA is planning on submitting a Dept of Labor grant by the end of next week for 15 million dollars over 2 years. Once submitted this may get turned around within 48 hours.
- Monday, EMHSD and TIA personnel will meet with Seeds of Traverse City and Michigan Works to further progress on a jobs program.
- Long term distribution plan meeting between EMHSD, DMVA, and DOC occurred to put more detail to the next phase of commodity distribution.

Unified Coordination Group (UCG):

- EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
- CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
- UCG Daily Sit Rep available in MI CIMS.

Local EOC:

- National Guard completing transition to new unit on 02/18/2016.
- US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
- IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
- IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
- Coordinating local volunteer needs for CDC outreach teams.
- 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Chris

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
    - **Extension letter for the appeal drafted. Due to not having the Flint data yet a 21 day extension from FEMA is going to be requested. Handled by EMHSD and will be sent Friday 2/19 or sooner.**
- Obtain further information on sentinel team data.
- Obtain information on shower filters.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.
2. Governor's Report 2/16/16

Key items for tomorrow to note are:

- Team Priority Scheduled for Tomorrow: Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
    - DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS is generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.

- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Chris

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
    - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM

- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. *Continued with Rapid Response.*
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - *Identified 10 lead service lines.*
    - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.

- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".

- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data *shows filters have not been provided and/or visits not made.*
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.

- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.

- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. *UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each* delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- *Continue door to door/Flint Water Response Teams (FWRTs), ARC only.*
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street).
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are.

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.

- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.

- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- *Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.*
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.

- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

- Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.

- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

On the last tele town hall Rep Neely gave us an area of homes not contacted. We went to the area and the homes were abandoned....see below email chain.

Sweeney followed up but can you confirm with him or the jic to see if anyone followed up with Rep Neeley. Also, if the Rep has addresses we can double check them.

Alex-

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our voluteers. The addresses they show needing contact are as follows:

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Thanks
Kevin S.

Dan-

We were just looking for those four streets that were given to us on the Legislative Briefing Conference Call. The streets we wrote down were Mackin, Chevrolet, Balling and McClelland. We can only find two streets that match in the city, Chevrolet and Mackin. These streets are near the elementary school but not the high school (as mentioned on the call)

Can you put me in touch with the person that made the statements on the call reference these streets so I can track down more information to better help us identify the houses we need to get to?

Thank you
Kevin Sweeney

Mike,

Thanks for your call and email this morning. Can you facilitate getting this into the appropriate hands. I'm in meetings the rest of the afternoon but do not want to delay this process.

Thanks again.

Jody

Subject: RE: FLINT POCs for FEMA Appeal

My Finance Chief pulled together a timeline of contact made with the locals for Category B information needed for the appeal. My district coordinator, Lt. Roach, also has been reaching out to the city as well. Because we did not have the denial when she originally asked for this January 25th she advised the county EM that we needed it in a couple weeks.

Her timeline is below:

January 25, 2016 – Called Genesee County EM Chris DeVriendt to discuss need for Category B costs for possible appeal if denied by FEMA. He was going to reach out to Keith Francis, Controller for Genesee County, Shawn Kammer with the City of Flint and Mike Glasgow with the City of Flint DPS.

I was contacted by Keith Francis the same afternoon to discuss what was needed and timelines for completion.

January 26, 29, February 1 and 8 – Continuing discussions with Keith Francis from Genesee County.

February 1st – Still have no information from City of Flint and no contact. Engaged Lt. Roach to reach out to Sean Kammer for this information. Advised that Natasha Henderson would be the POC for the City of Flint.

February 2nd – Received initial report of category B costs from Genesee County. Requested details to accompany the report for determining costs were actually Category B in nature.
Advised by Lt. Roach that Natasha Henderson deferred to Sean Kammer as City POC.

February 8th – Received additional information from Genesee County as requested. This information has been included in the amounts compiled for the FEMA appeal.

February 10th – Talked to Sean Kammer about the information still needed. He was going to reach out to City of Flint Finance again.

February 12th – Received a report from Sean Kammer that only outlined costs incurred for January 2016. Contacted Sean to let him know this was not the information needed. Talked to Vickie Foster from City of Flint Finance to discuss information needed for the FEMA appeal. There was another person on the call who indicated they were from the water plant and that there were a lot of costs they were unsure of. Advised they should send anything they think may qualify and we will review all costs to ensure nothing is missed.

February 18th – Still no data from City of Flint.

Thanks for any assistance.

Chris

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
500 C Street SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Ms. Zimmerman:

Under the provisions of 44 C.F.R. § 206.46(d), I hereby request an extension until March 6, 2016 to submit an appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Pursuant to 44 C.F.R. § 206.46(d), I am submitting this written request for an extension within 30 days of the date of denial received on January 22, 2016.

As support of this extension request, I offer the following information:

The State of Michigan has requested documentation from the City of Flint to support our appeal, but to date, the city has not been able to supply this information. On February 12, 2016, Mayor Weaver terminated employment of the city administrator, police chief, and fire chief which is significantly complicating the ability of the city to provide information requested by our office.

Submittal of disaster related costs without the City of Flint's data will eliminate a major component of the basis for our appeal. This time extension is necessary due to the inability of the city to compile the information needed to support our appeal within the given time frame.

At this juncture, ~~three~~ two days remain of the 30-day window to request an appeal as specified in 44 C.F.R. § 206.46. Therefore, it is necessary to request an extension to allow the State of Michigan the time necessary to properly develop the appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. An extension of 30 days, until March 22, 2016, will allow the City of Flint to assemble information and the State of Michigan to conduct the required analysies to develop the appeal request.

Sincerely

SEOC Report for. February 18, 2016
Full Days Since Emergency Declaration: 44

Items to Note

- US Department of Health and Human Services will be visiting Fire Station #5 POD today.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams will be visiting the final three mobile home parks today and 34 identified homes.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Ms. Zimmerman:

Under the provisions of 44 C.F.R. § 206.46(d), I hereby request an extension until March 6, 2016 to submit an appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Pursuant to 44 C.F.R. § 206.46(d), I am submitting this written request for an extension within 30 days of the date of denial received on January 22, 2016.

As support of this extension request, I offer the following information:

The State of Michigan has requested documentation from the City of Flint to support our appeal, but to date, the city has not been able to supply this information. On February 12, 2016, Mayor Weaver terminated employment of the city administrator, police chief, and fire chief which is significantly complicating the ability of the city to provide information requested by our office.

Submittal of disaster related costs without the City of Flint's data will eliminate a major component of the basis for our appeal. This time extension is necessary due to the inability of the city to compile the information needed to support our appeal within the given time frame.

At this juncture, ~~three~~ two days remain of the 30-day window to request an appeal as specified in 44 C.F.R § 206.46. Therefore, it is necessary to request an extension to allow the State of Michigan the time necessary to properly develop the appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. An extension of 30 days, until March 22, 2016, will allow the City of Flint to assemble information and the State of Michigan to conduct the required analysies to develop the appeal request.

Subject: Financial Data – Estimate of Water Emergency and DWSD Switchover Costs

In response to the State's request for all costs associated with the water emergency and the switchover to and from the Flint River Water for the period April 2014-October 2015, please note the following:

1. Equipment and supplies totaled $18,427,859.29
2. Listing of Consumers Energy invoices detailing increased electric costs in the amount of $728,392.92
3. Personnel overtime costs associated with the after-hour and emergency water treatment totaling $160,340.57
4. Emergency IT related purchases in the amount of $249,732.82
5. Purchase of treated water from Detroit Water and Sewer Department $2,000,000

Please note that the supporting documentation, including accounts payable and payroll registers detailing overtime costs, is attached. These registers were reviewed by Water Plant Supervisor Brent Wright and Utilities Accounting Coordinator Yolanda Gray. In turn, they provided our office with a listing of those costs that were applicable.

Please let me know if you require additional information.

591-545.201-726.000	Supplies	DETROIT PUMP & MFG CO	SMALL PUMP REPAIR KITS	1032100	01/16/15	72 04	26237
591-545.201-726.000	Supplies	FLINT WELDING SUPPLY CO	WELDING SUPPLIES & GASES	168751	01/16/15	45.00	26183
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13702516-00	01/16/15	90.81	26187
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13705554-00	01/16/15	15.00	26187
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13670424-00	01/16/15	1,116.74	26187
591-545.201-726.000	Supplies	MID STATES BOLT & SCREW CO	MISCELLANEOUS NUTS & BOLTS	30471377	01/16/15	15.30	26189
591-545.201-726.000	Supplies	KNOBLOCK ACE HARDWARE CO	TOOLS & HARDWARE-NOBLOCKS HARDWARE	342316	01/16/15	8.98	26185
591-545.201-726.000	Supplies	KNOBLOCK ACE HARDWARE CO	TOOLS & HARDWARE-NOBLOCKS HARDWARE	343223	01/16/15	10.20	26185
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13709036-00	01/16/15	31.41	26187
591-545 201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13711644-00	01/16/15	(31.41)	26187
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13711582-00	01/30/15	173.07	26351
591-545.201-726.000	Supplies	RITZ SAFETY SUPPLIES	SAFETY SUPPLIES	5105057	01/30/15	349 11	26420
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13673118-00	01/30/15	252.96	26351
591-545 201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13673118-01	01/30/15	337.25	26351
591-545.201-726.000	Supplies	MACOMB GROUP	PLUMBING SUPPLIES	4309059	01/30/15	93.08	26369
591-545.201-726 000	Supplies	LOWE'S HOME CENTER	ICE MELTER	923351	01/30/15	450.00	26378
591-545 201-726.000	Supplies	RITZ SAFETY SUPPLIES	SAFETY SUPPLIES	5105327	01/30/15	24.83	26420
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13719222-00	01/23/15	(97.18)	26277
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13673118-02	01/30/15	157.00	26351
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13670424-01	01/30/15	814.06	26351
591-545 201-726.000	Supplies	*MCNAUGHTON MCKAY ELECTRIC CO*	*ALLEN BRADLEY DRIVES/PLC*	*13716943-00*	*02/27/15*	*1,930.26*	*26948*
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13723397-00	01/30/15	130.73	26351
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13723903-00	01/30/15	142.61	26351
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13725165-00	01/30/15	13.77	26351
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13725746-00	01/30/15	18.72	26351
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13710385-00	01/30/15	125 00	26351
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13718085-00	02/27/15	111.25	26948
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13727226-00	01/30/15	97.22	26351
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13731145-00	01/30/15	336.98	26351
591-545.201-726 000	Supplies	MID STATES BOLT & SCREW CO	MISCELLANEOUS NUTS & BOLTS	30480581	01/30/15	46.22	26352
591-545.201-726.000	Supplies	CHEMCO	LIQUID CHLORINE BLEACH FOR CHLORINATIOI	103162	01/30/15	11,850.00	26376
591-545.201-726.000	Supplies	PURVIS & FOSTER INC	Purchase Purvis & Foster Inc	11/25/2014	04/23/15	205.96	28266
591-545.201-726.000	Supplies	RS TECHNICAL SERVICES, INC	Purchase Rs Technical Services Inc	12/03/2014	04/23/15	610.86	28266
591-545.201-726.000	Supplies	West Tech Engineering Inc	Purchase West Tech Engineering Inc	11/25/2014	04/23/15	457 95	28266
591-545 201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13727274-00	02/06/15	2,364.64	26434
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13736246-00	02/06/15	120.85	26434
591-545.201-726 000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13737058-00	02/06/15	294.81	26434
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13727224-00	02/06/15	126.51	26434
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13719777-00	02/20/15	164.94	26855
591-545 201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13733027-00	02/20/15	174.36	26855
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13740297-00	02/13/15	4.06	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13748684-00	02/13/15	55.67	26771
591-545.201-726.000	Supplies	MACOMB GROUP	PLUMBING SUPPLIES	4322954	02/13/15	214.00	26792
591-545.201-726.000	Supplies	ARNOLD SALES	JANITORIAL SUPPLIES	1131487	02/13/15	97.65	26816
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS	13748684-01	02/06/15	271.89	26434
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13727274-02	02/13/15	571.00	26771

591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13738156-00	02/13/15	59.54	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13727274-01	02/13/15	140.45	26771
591-545.201-726.000	Supplies	MACOMB GROUP	PLUMBING SUPPLIES	4323698	02/13/15	426.77	26792
591-545.201-726.000	Supplies	MACOMB GROUP	PLUMBING SUPPLIES	4325718	02/13/15	668.57	26792
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13753867-00	02/13/15	2,029.38	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13759007-00	02/13/15	99.09	26771
591-545.201-726.000	Supplies	MID STATES BOLT & SCREW CO	MISCELLANEOUS NUTS & BOLTS	30488887	02/13/15	5.19	26772
591-545.201-726.000	Supplies	RITZ SAFETY SUPPLIES	SAFETY SUPPLIES	5111293	02/13/15	91.93	26844
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ALLEN BRADLEY DRIVES/PLC	13761854-00	02/13/15	700.00	26771
591-545.201-726.000	Supplies	MID STATES BOLT & SCREW CO	MISCELLANEOUS NUTS & BOLTS	30490667	02/13/15	71.76	26772
591-545.201-726.000	Supplies	RITZ SAFETY SUPPLIES	SAFETY SUPPLIES	5111863	02/13/15	44.14	26844
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13757738-00	02/13/15	377.00	26771
591-545.201-726.000	Supplies	KNOBLOCK ACE HARDWARE CO	TOOLS & HARDWARE-NOBLOCKS HARDWARE	343618	02/13/15	47.94	26768
591-545.201-726.000	Supplies	KNOBLOCK ACE HARDWARE CO	TOOLS & HARDWARE-NOBLOCKS HARDWARE	343738	02/13/15	14.48	26768
591-545.201-726.000	Supplies	KNOBLOCK ACE HARDWARE CO	TOOLS & HARDWARE-NOBLOCKS HARDWARE	343974	02/13/15	18.47	26768
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13740358-00	02/13/15	126.51	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13749782-00	02/13/15	4.06	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13765038-00	02/13/15	159.48	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13765312-00	02/13/15	494.40	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ALLEN BRADLEY DRIVES/PLC	13767443-00	02/13/15	29.67	26771
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	FY 2015 WPC ELECTRICAL PARTS	13765709-00	02/27/15	(494.10)	26948
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ALLEN BRADLEY DRIVES/PLC	13776821-00	02/27/15	813.08	26948
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ALLEN BRADLEY DRIVES/PLC	13780934-00	02/27/15	1,962.31	26948
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ELECTRICAL PARTS AND SUPPLIES	13778745-00	02/27/15	295.50	26948
591-545.201-726.000	Supplies	MCNAUGHTON MCKAY ELECTRIC CO	ALLEN BRADLEY DRIVES/PLC	13775765-00	02/27/15	8.00	26948
591-545.201-726.000	Supplies	MID STATES BOLT & SCREW CO	MISCELLANEOUS NUTS & BOLTS	30495435	02/27/15	36.63	26950

SEOC Hours of Operation End:	02/18/2016 20 00 00

Executive Summary

SEOC Update
Accomplished today (February 18, 2016)

The SEOC continues to provide
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control

Logistics
- Fielded resource requests
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities
- Long term recovery plan

JIC
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe Received and posted additional translated materials to www michigan gov/flintwater
- Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio
- JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building
- Received and uploaded videos in American Sign Language and additional translated materials on www michigan gov/flintwater. Issued a news release about the availability of these materials.

Recovery Branch
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings
- Team Priority Visited Today' 5 teams in the field – Mobile Home Parks and list of addresses showing as having no contact.
- Team Priority Scheduled Tomorrow' Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016

o Total homes visited
- 26,724 (round 3 total)*
- 854 (today).

o Water cases (liters calculated by multiplying # of cases x 12)
- 192,576 liters or 16,048 cases (round 3 total)*
- 7,608 liters or 634 cases (today).

o Faucet filters
- 7,917 (round 3 total)*
- 80 (today).

o Replacement cartridges
- 7,123 (round 3 total)*
- 378 (today)

o Water Test Kits
- 3,051 (round 3 total)*
- 150 (today)

*Totals updated to reflect newest information

Planning Section.
- Developed and approved Sit Rep #44.
- Updated burn rates and projection costs, per request
- Updated Flint Water Timeline
- Participated in daily UCG, state agency, and distribution process meetings
- Developed daily Governor's Report.

Operations Section'
- Participated in Unified Coordination Group briefing.
- Facilitated SEOC Agency briefings.
- *Participated in Distribution Process meeting*

• Worked on situation report and press release review
• Warehouse Numbers as of 1800.
❑ Water (liters)
• 754,553 liters or 62,879 cases.
❑ Filters (faucet)
• 68,006
❑ Replacement cartridges
• 427,808.
❑ Test Kits (prepped):
• 34,932
• PODs (Number as of 1700 2/17).
❑ Water (cases)
• 55,860 liters or 4,655 cases
❑ Filters (faucet)
• 98
❑ Replacement Cartridges
• 368.
❑ Test kits
• 194.

Finance Section
• Review state agency costs reports submitted for the weekly status update
• Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
• Review agenda and reporting template for SBO meeting at MSP HQ on Friday.

GIS Branch Updates
• Meeting with MDHHS, MDEQ, and Governor's Representative to discuss coordination of data
• Updated Water Test Results dataset and created new maps.
• Working to fulfill FOIA request.
• Parcel Pairing
•Added Sentinel Site Data to Governor's Web Map in ArcGIS Online
• Updated map of Access and Functional Needs Individuals for Recovery Unit
• GIS coordination call with Unified Coordination Group

DTMB
• Continue to provide DTMB management SEOC updates

DHHS-CH
• Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks
• Received information regarding a request for a webinar series, similar to the webinars currently being provided on Wednesdays to healthcare providers, be offered for Genesee County Intermediate School District (GCISD) personnel that is tailored to educators in Flint.
• Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative.
• Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief. Secretary Sylvia M Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc (HCHN) and Genesee Health System (GHS)

DEQ
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request
• Secured vehicles and equipment for the Sentinel Sampling 2 crews.
• A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC
• Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings
• CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
• UCG Daily Sit Rep available in MI CIMS

Local EOC
• National Guard completing transition to new unit on 02/18/2016.
• US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions
• IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
• IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail
• Coordinating local volunteer needs for CDC outreach teams.
• 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels
• Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Injuries
• None reported today

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1 Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12 Approve and begin implementation of a comprehensive long term recovery and transition plan
11 Ensure accurate tracking and accounting of all donations and expenditures.
2 Ensure accurate tracking and accounting of all commodities
3 Continue to improve and maintain public information processes and strategies with all partner agencies
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9 Continue to enhance situational awareness and common operating picture of all activites
7 Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Joint Information Center / Public Information Officer

Flint Joint Information Center Daily Update

February 18, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p m on Feb 18.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Departments of Environmental Quality, Agriculture and Rural Development, Health and Human Services and Transportation The Genesee County Sheriff and American Red Cross were also present.

Tasks accomplished:
• Called local Flint schools to inquire about meetings and community events.
• Media hotline staff answered fewer than 10 emails and phone calls that ranged from media inquiries about Flint water to groups looking to send machines to help with pipe issues
• Created a media monitoring report and looked for misinformation; found none.
• Issued a news release about a recycling event on Saturday with MSU student athletes.
• Issued a news release about Michigan.gov/flintwater hosting key information in American Sign Language and four other languages.
• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe Received and posted additional translated materials to www.michigan.gov/flintwater.
• Received and uploaded videos in American Sign Language and additional translated materials on www michigan gov/flintwater. Issued a news release about the availability of these materials
• Drafted social media posts for approval and distribution.
• Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
• Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio.
• JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building.

Agriculture and Rural Development (MDARD)

As of 10:00 on 2-18-16:
• 26 water assessments were completed
• 26 In-Use samples were collected.
• 2 sampling appointments have been scheduled.
• No new results

As of 1600, 2-18-16

We are preparing to rotate out staff with six replacement food inspectors and 2 sanitarians from Genesee County Health Department Training will start on Monday, February, 22, 2016

Staff spoke with the Genesee County Land Bank about garden projects on their properties and provided them with links to MSUE bulletins

An updated pet health document was provided to the JIC for approval. This clarifies that pets in homes with greater than 150 ppb lead in water should be provided with bottled water. Once approval is received these documents can be distributed

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Thursday, 2/18/16. We plan to deploy 5 teams tomorrow as well.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday 76 event-based volunteers (EVB) were processed through the VRC by 4 pm today. 73 EVBs were placed on projects today.

46 boxes of bottle recycling kits were assembled today (4,600 kits).

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Facilitated contact between Commissioner with Hispanic Latino Commission with questions on lead and lead poisoning and MDCH/CDC point of contact. Notified staff as to community groups active in recovery.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks. The request is currently being routed by SEOC Logistics through donations management personnel in order to determine if any offers for the donation of personnel/volunteers can be identified to fulfill this request The request was also forwarded by the CHECC to the UCG for assistance.

Received information regarding a request for a webinar series, similar to the webinars currently being provided on Wednesdays to healthcare providers, be offered for Genesee County Intermediate School District (GCISD) personnel that is tailored to educators in Flint This request was forwarded to the SEOC MDE EMC to coordinate with the CHECC as appropriate.

Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative. This connect was made between the Commissioner and the DHHS Liaison Officer in the CHECC The DHHS LNO will work with the CDC representatives in the UCG to communicate with the Commissioner as requested

Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief Secretary Sylvia M Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc (HCHN) and Genesee Health System (GHS). Each entity will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community The funds will come in as a "One Time Supplemental Grant," with no match/no repayment options.

The DHHS ASPR released Site Specific Guidance for blood lead level testing and follow-up care for children exposed to lead This document has been posted to MICIMS in the MDCH Activity Log

Continue to work with the JIC, LARA, CHECC, and the SEOC PIO to ensure that the translated flyer for pregnant women are processed for approval and that the English and Spanish versions are ready to be printed and sent to the GCHD

Corrections (MDOC)

Warehouse 2 was fully operational today The 7th Day Adventists were on site to job shadow MDOT is dedicating 2 employees to the effort DTMB continues to dedicate 2 trucks with drivers

A box truck operated by MDOC staff was involved in a minor vehicle accident in the parking lot of POD #3. A van struck the side of the box truck. There was minor damage to the box truck and the van's front end was damaged No injuries or violations were issued. A Police report was completed by Flint PD. We also had a box truck operated by MDOC staff back into the overhang of POD #3 No damage to the vehicle, police report completed by Flint PD

The permanent replacement battery was delivered today for the forklift at Warehouse 2
To following safety concerns at are still in process at Warehouse 1·
-Security staff to restrict access (In process)
-Floor tape designating machine and pedestrian areas (Tape arrived today and will be placed on the floor by the weekend)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward

We have been assigned assess and prepare a permanent staffing structure and equipment analyses for all warehouse operations.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

306 DEQ and 12 were MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today.

• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• A collector App was developed by DNR GIS to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC. Display currently operational
• Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools

Faucet Project information is being prepared for the affected facilities LARA continuing efforts to plan and schedule faucet replacements for Flint facilities LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1 DTG: 1811152016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Capt Bechtel, Jennifer E Email. ng.mi flint.eoc@gmail com

4. PRESENT LOCATION. Genesee County Local EOC, 1101 Beach St , Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs) Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits

If possible, I would like the list of addresses as we still have five teams in the field going to homes missed. Since the survey we may have gotten to some of those areas. We just found some mobile home parks that were missed and have since visited them which could have been some of the 142.

Let me know if we can get the addresses. I will give Dr. Hagel a call on the bulk recipient idea.

Chris

Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

Subject: Governor visit to SEOC on Monday

Captain,

The Governor will be visiting the SEOC on Monday. I am copying the Governor's scheduling team on this email. Please send them a point of contact for arrival for the governor and any additional info our staff will need for parking, etc. and your new address ☺

Thanks
Tori

Kevin

The response to those who email should be that they enter their information in the database versus us doing it. We will not be entering vendor information in the website for them.

Thanks Allison for your reply! Pleased to know that the Governor's committee is filled already.

Am confident the brand new Governor Team will work with the leaders of the City, State and the Federal government as well as our legislature to lead us to the finish line in the earliest possible date.
I applaud the courage , leadership, and commitment the Governor has shown in taking charge of this challenge.
As an independent water treatment professional over 37 years in the State of Michigan, I stand ready to volunteer to serve the needs of Michigan. Areas of my expertise that could help stakeholders include water chemistry and treatment(taught water treatment at U M in Ann Arbor in 1980), engineering design and construction management

with practical costs in Michigan(1978-present), and environmental leadership in research and development. If opportunity arises in the future, I will be ready to provide advice to the Team on developing approaches that are comprehensive, fair, and practical.

SEOC Report for: February 18, 2016
Full Days Since Emergency Declaration: 44

Items to Note

- US Department of Health and Human Services will be visiting Fire Station #5 POD today.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams will be visiting the final three mobile home parks today and 34 identified homes.

Subject: Re: Conservation Corps and Long Term Commodity Distribution

We were moving on COA4. So is COA 4 out? We would still use the "CCC" type program to hire but would use a direct distribute of replacement filters versus having replacements at the PODs.

We are getting granular on details/dates but hiring could start with personnel getting into the current PODs now.

>
> One of the attached is how a conservation corps would potentially work in MI. There is some missing information in the document but it lays out courses of action with utilizing Seeds of Traverse City as a group to assist us. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint.

I am also sending the notes from my staff on the local hire program and I believe TIA sent you the potential list of jobs which was also a part of this meeting.

Lastly, are bullet points from the course of action I believe is appropriate to push the distribution of commodities from the current PODs to 9 PODs (one in each ward) with local citizens hired to staff the PODs. I also attached all the COAs we looked at (the ppt) and COA1 and COA4 scored the best. The recommendation was COA4 with some modifications I made.

COA4 – Long-term Distribution

- These would be mostly portable PODs (parking lots, near bus stops, etc).

- Churches and other organizations could be credentialed to get some commodities (I believe water only is appropriate due to the current status of homes with filters). Many faith based organizations are currently only providing water.

- If possible, we should go to water only at the PODs under this COA (or if we need to, go with a week of all commodities and then move to water only). We have almost 90% of the homes on the water system with filters which is why the water only at the PODs seems appropriate. We always reserve the right to add commodities as needed for groups such as populations that for whatever reasons need additional support.

- We will continue with rapid response teams for homebound or other functional need issues.

- The COA selected is for filter replacements to be shipped by a third party. This would likely be two filters every other month per home on the water system or what we end up with deciding but I do not believe we need to do this every month based on current filter life. Cost is TBD at this time.

- This would eventually phase out the NG from PODs.

- Requires 81 personnel to be hired under the jobs program.

This all needs to be distilled and finalized with more details but the city, county, state, and FEMA were involved in this. Sean believes the Mayor will be on board and I advised him she would likely be the one delivering the message to show the city wants this. Let me know if this direction seem appropriate and we will finalize with more details.

Subject: SEOC Update 2/17/16 - Flint Water - Limited Distribution
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 43 2016-02-... pdf; GovernorReport 2016-02-16.pdf

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
    - **Extension letter for the appeal drafted. Due to not having the Flint data yet a 21 day extension from FEMA is going to be requested. Handled by EMHSD and will be sent Friday 2/19 or sooner.**
- Obtain further information on sentinel team data.
- Obtain information on shower filters.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.
2. Governor's Report 2/16/16

Key items for tomorrow to note are:

- Team Priority Scheduled for Tomorrow: Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.

- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
    - DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS is generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Chris

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
  - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
  - Developed SitRep #34.
  - Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.

- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper

3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
  - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016 We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.

- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.

- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- *Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with* representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- *Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to* water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.

- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.

- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
  - 80 Complexes
  - 4170 Units
  - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
  - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: List of those on on the Flint Water System

Importance: High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08 00 00
Operational Period End:	02/23/2016 08 00 00
Situation Report No.	43
SEOC Status:	Full
SEOC Hours of Operation Begin.	02/17/2016 08 00 00
SEOC Hours of Operation End:	02/17/2016 20 00 00

Executive Summary

SEOC Update
Accomplished today (February 17, 2016)

The SEOC continues to provide
- Situational awareness
- Common operating picture/objectives.
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures
- Resources
- Public information control

Logistics
- Fielded resource requests
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Donation Management Meeting – still looking for donated warehouse
- Conference call with UPS – coordinating delivery of filters/cartridges to functional needs/vulnerable population

JIC
- The JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA. The JIC Manager agreed to convene a small group of community organization representatives to review www michigan gov/flintwater and obtain input on how to better communicate with Flint residents
- The PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to inquiries about donating water
- Created a media monitoring report and looked for misinformation, found none.
- Reviewed a news release about a recycling event on Saturday with MSU student-athletes
- Continued routing public information materials for approval, including updated information on recycling, water testing, and child safety. Received and posted additional translated materials to www michigan gov/flintwater
- Received and uploaded videos in American Sign Language and additional translated materials on www michigan gov/flintwater. Issued a news release about the availability of these materials
- Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis
- Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Recovery Branch.
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today 5 teams in the field – Mobile Home Parks, and Water Distribution
- Team Priority Scheduled Tomorrow Remaining Mobile Home Parks, 34 No Contacts List, water distribution, and supplies requested.
- 5 American Red Cross Teams scheduled for Thursday, February 18, 2016

o Total homes visited
❑ 25,870 (round 3 total)*
❑ 991 (today).
o Water cases (liters calculated by multiplying # of cases x 12)
❑ 184,968 liters or 15,414 cases (round 3 total)*
❑ 6,852 liters or 571 cases (today)
o Faucet filters.
❑ 7,837 (round 3 total)*
❑ 45 (today).
o Replacement cartridges
❑ 6,745 (round 3 total)*
❑ 414 (today)
o Water Test Kits
❑ 2,901 (round 3 total)*
❑ 92 (today)
*Totals updated to reflect newest information

Planning Section:

- Developed and approved Sit Rep #43.
- Updated burn rates and projection costs, per request
- Updated Flint Water Timeline
- Inquired to Local EOC regarding recycling data.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section
- Participated in Unified Coordination Group briefing.
- Facilitated SEOC Agency briefings.
- Participated in Distribution Process meeting
- Worked on situation report and press release review
- Warehouse Numbers as of 1800
❑ Water (liters)
- 828,374 liters or 69,031 cases
❑ Filters (faucet)
- 47,132
❑ Replacement cartridges
- 402,638
❑ Test Kits (prepped)
- 35,508
- PODs (Number as of 1700 2/16)
❑ Water (cases)
- 60,696 liters or 5,058 cases
❑ Filters (faucet)
- 126
❑ Replacement Cartridges
- 552.
❑ Test kits
- 356.

Finance Section
- Review state agency costs reports submitted for the weekly status update
- Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
- Review agenda and reporting template for SBO meeting at MSP HQ on Friday

GIS Branch Updates
- Worked on gathering information for the FOIA request
- Daily Parcel Pairing & JIC map
- Moved filter locations to parcels

DTMB
- Continue to provide DTMB management SEOC updates.
- Received resource requests for supplies needed at Pierson Road warehouse (2nd warehouse)
- Received information on printing of all information related to the Flint Water Emergency for the
- DTMB SEOC computer and email.
- DEQ requested to have their DEQ SEOC mailbox size increased
- FEMA provided safety recommendations for both warehouses DTMB provided (2) Automated
- External Defibrillators and contacted landlords to address other items.
- SEOC requested a second printer to be used at the SEOC to assist in the printing for MSP's FOIA request.

DHHS-CH
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources Have submitted a resource request and may fill it in coordination with the recovery branch
- A plan is in place for transportation, when needed, to a doctor's office offering free examinations regarding rashes. MTA will provide whatever is needed Requests will be funneled through LEOC
- Held a weekly DM meeting. Activity is slowing down some Plan to focus on data entry. MCSC pretty much getting completely out of the volunteer coordination, focusing on DM
- The community partner meeting is now called the Flint Michigan Water Crisis Destination Recovery. They are composed of over 75 partners and are organized into six sub committees:
Recovery Resources, Education, Communication, Physical Health, Emotional & Behavioral Health, and Coordination

DEQ
- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request
- Secured vehicles and equipment for the Sentinel Sampling 2 crews
- A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference
- Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG)
- Surgeon General visited and gave a briefing.
- There were rumors regarding fake credentials used in the field. This is being verified by EPA.

Local EOC
- National Guard transitioning to new unit on 02/17 and 02/18/2016. New National Guard EOC Liaison on site
- Transition to local staffing at Genesee County EOC ongoing
- Sheriff's Office now staffing Logistics Section.
- IC and LOFR met with Region 3 IMT to further discuss their availability.
- Coordinated with MTA for transportation of affected populations with rashes to Dermatologist offering free exams.
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

• Coordinated for distribution of all 15 pallets of lose bottles from warehouse
• Referring large numbers of vendors offering plumbing and other services to vendor link on helpforflint.com
• Elevated Lead and Copper Initial Assessment Task Force out in the field, contacting households with elevated water lead or copper levels.
• Southern Baptist Disaster Relief out in the field with 5 teams for delivery of supplies to affected populations.

Injuries
• None reported today

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1 Ensure all households within impacted community have required resources and are included in DEQ water sampling plan
12 Approve and begin implementation of a comprehensive long term recovery and transition plan
11 Ensure accurate tracking and accounting of all donations and expenditures
2 Ensure accurate tracking and accounting of all commodities
3 Continue to improve and maintain public information processes and strategies with all partner agencies
8 Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC)
9 Continue to enhance situational awareness and common operating picture of all activities
7 Gather, analyze, and disseminate GIS data to develop products for future planning

Flint Joint Information Center Daily Update

February 17, 2016

Situation Report
The Joint Information Center (JIC) was expected to be operational in Flint from 8 a m to 8 p m on Feb 17.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Economic Development Corporation and Departments of Environmental Quality, Health and Human Services and Natural Resources. The American Red Cross was also present
Tasks accomplished
• JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA JIC Manager agreed to convene a small group of community organization representatives to review www michigan gov/flintwater to obtain input on how to better communicate with Flint residents

• PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines.

• Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to inquiries
about donating water.

• Created a media monitoring report and looked for misinformation, found none.

• Reviewed a news release about a recycling event on Saturday with MSU student-athletes

• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.

• Received and uploaded videos in American Sign Language and additional translated materials on www michigan gov/flintwater. Issued a news release about the availability of these materials

• Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis

• Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff.

• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Agriculture and Rural Development (MDARD)

As of 4 00 PM on 2-16-16,
• 6 water assessments were completed
• 6 IN-USE samples were collected.
• 3 sampling appointments have been scheduled.
• Also scheduled are 26 in use samples, 26 assessments.

Followed up on the Pb and companion animal issue, provided response to the request with AID support, request has been marked complete

Worked with Communications and FDD to develop final response to 211 call regarding consumption of home canned produce using water from Flint water system, response from FDD will be forwarded to Communications and then will be sent through JIC by 2/18/16

Provided information to MSP planning for the appeal regarding the number of facilities (615) FDD will assess and the number of assessments completed to date, which includes follow-up inspections, (298).

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Wednesday, 2/17/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information Informed senior leadership of current activities and concerns Advised that ASL materials are posted to FlintWater site Discussed engagement opportunities with SEOC_PIO and State VAL and will prepare an engagement proposal

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners

Continue to research shower filters.

MDHHS collaborated with MDEQ on questions to be included in the High Home Lead Level Team app.

Dr McFadden will be providing a weekly report on the rash investigations

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow MDOT is dedicating 2 employees to the effort DTMB continues to dedicate 2 trucks with drivers.

Effective today, MDOC will work with Red Cross to pick assembled recycling bags and deliver them to Warehouse 1. Warehouse 1 will inventory and distribute the bags to the PODS and Comcast Service Center The task was completed in coordination with Henrik at the Local EOC

A temporary replacement battery was delivered today for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday

To address the following safety concerns at Warehouse 1;
-Security staff to restrict access (In process)
-Propane storage areas (Propane tanks were moved today)
-Exhaust fumes in warehouse (Safety briefings to all staff to advise today)
-Safety Vests (Vests were delivered today and used today)
-Floor tape designating machine and pedestrian areas (Ordered - DTMB will advise once delivery date is given)
-First Aid and AED (First Aid kits and AEDS will be delivered on Thursday, February 18, 2016)
-Dust Masks (N-95 Masks will be delivered on Thursday, February 18, 2016)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures. Sent to finance today for the last pay period

MDOC continue to staff the SEOC from 0800-2000, 7 days/week Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

513 DEQ and 12 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

1 MDE and MSD are working with LARA and landlord with uniqueness of lease agreement for MSD and plumbing fixture replacement
2. MDE has shared with MSP Operations the number of nutritional schools/entities that are served within Flint water zip codes.
3. MDE has request from MEA (Michigan Education Association) about teacher training sessions. Working with DHHS on this request

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

• Secured vehicles and equipment for the Sentinel Sampling 2 crews.

• A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.

• Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference

• Began planning for next phase of testing and data collections

Human Services (MDHS)

CDC going to begin visiting homes of families with children who have received high blood level test results to begin case management Have requested additional members with knowledge of community and additional local resources. Have submitted resource request and may fill with recovery branch.

Plan in place for transportation, when needed, to a Dr office offering free examinations regarding rashes MTA will provide whatever's needed Will funnel the requests through LEOC.

Held weekly DM meeting. Activity is slowing down some Plan to focus on data entry MCSC pretty much getting completely out of the volunteer coordination, focusing on DM

Community partner meeting now called the Flint Michigan Water Crisis. Destination Recovery. They are comprised of 75+ partners and organized into six sub committees:

Recovery Resources

Education
Communication
Physical Health
Emotional & Behavioral Health
Coordination

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

The Thursday meetings are every week at 3pm at the Food Bank. This is a community partners meeting (they have a new name I don't have recorded yet), IF that's the meeting to which you're referring. If there's another planning meeting I'm not yet aware of it.

I am regularly at the 3pm meeting on Thursday.

Subject: Piping project for Flint

Hi Tom-

I was wondering if you were part of the planning team for the piping project for homes in Flint. We have been in connection with the Community Foundation of Greater Flint and they said their focus was on the long-term planning and putting in new pipes in homes/housing complexes. We believe that is an area Good360 could assist in because of who some of our largest corporate partners all. We have already begun initial discussions and were introduced to a Michigan company that would like to donate cash to help cover some of the costs for delivering products were the piping project. We are still waiting for an update from our other contact about the

piping project, but I thought I would reach out to you and see if there was any information you could share that we could forward to this potential donor.

Please feel free to reach out with any questions.

Thanks,
Lindsay Jones

Cc: Etue, Kriste (MSP); Smith, Paul (GOV); Gorski, Gary (MSP)
Subject: Assistance from the City of Flint

Importance: High

Rich

Looking for some assistance via a nudge to the City of Flint.

We are having trouble getting data from the City of Flint for the appeal to FEMA. The city's information is critical. Thus far we have gotten an amount of $15,000 which is clearly not indicative of what this has cost them.

What we need from the City of Flint are any and all costs related to the water emergency – dating back to April 25, 2014 - that would fall into FEMA's Category B – Emergency Protective Measures. Category B costs are defined as measures to save lives, to protect public health and safety, and to protect improved property. To be considered eligible, the emergency protective measures for property must eliminate or lessen immediate threats of significant damage to improved public or private property through cost-effective measures.

Some of the following examples may help the city in their review of financial information to locate all Category B costs:

- Security in the disaster/emergency area
- Provision of WATER and other essential needs at a central distribution point for use by local citizens
- Removal of health and safety hazards which includes any costs associated with the water treatment (increased chemical costs, etc.)
- Emergency protective measures to protect lives or improve property
- Building safety inspections (maybe the water plant)

They should also look at any activities that were performed to prepare for the disaster/emergency – like activation of a local EOC.

If they have any questions, please have them call Ms Penny Burger on her cell at . . . . . . We have provided the above information to the city already but it clearly is not being looked at as an urgent item.

Thanks for any help with this.

Subject: RE: 2-1-1 Update Flint Water Response for Tuesday, February 16, 2016

From DHHS...I have asked for additional information on removal of other metals besides lead.

"Per the Flo tec website: "Today's most advanced shower filtration system features the exclusive KDF filter media. Unlike ordinary charcoal-based filters, the KDF system uses a patented copper zinc alloy to more effectively rid your water of unwanted chlorine and odors. Your hair and skin will never look and feel better. • Special KDF filter media reduces chlorine up to 98% to prevent dry hair and skin.
• Special KDF media reduces the effects of hard water buildup for softer hair and skin.
• Reduces hard water staining on the tub and shower walls"

Contacted the Water Quality Association wqa.org and spoke to Marissa 630-929-2524 ext. 555 to get more information on water filters. Marissa explained that NSF Standard 42 is an aesthetic standard for things such as chlorine that do not have health consequences, but are more associated with taste and smell-cosmetic purposes. These type products are not typically designed to remove contaminants such as the heavy metals, because these filters are not used for water that is for ingestion. Shower filters are not considered to be for drinking water treatment. NSF Standard 53 is used for filters that are designed to remove contaminants that have health effects when ingested such as lead, mercury, cadmium etc. Shower filters have an NSF standard 177, which is similar to the NSF 42 in that it is still only for aesthetics. If the purpose of the shower filter is to remove lead, it would have to fall under NSF Standard 53, shower filters are not."

- There is an informational meeting on one of the class action lawsuits tonight, Tuesday, February 16, from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.

CALL VOLUME:
Central Michigan 2-1-1 was able to handle entire volume of Flint calls today with support from management and supervisory staff during the few peaks of high call volume.

SPECIAL NEEDS/REQUESTS
☐ A private donor organized the distribution of 200 FlowTec shower filters at Berston Field House. Demand was extremely high and all filters were taken within 15 minutes. The distribution spurred a large number of calls to 2-1-1 and affirmed the unmet demand for shower filters. At least one from a homebound resident asking to have a shower filter delivered. Callers are expressing tremendous frustration about not feeling safe to bathe, one caller said, *"You can't boil enough bottled water to take a hot bath."* As noted in past updates, Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand.

RUMOR/SCAM CONTROL
☐ Michigan 2-1-1 received a report that DHHS is looking at rehousing options for residents in housing that 'environmental investigators' HAVE deemed hazardous for human habitation. CAN A CONTACT AT DHHS INVESTIGATE AND REPORT BACK TO MICHIGAN 2-1-1 ON THE VERACITY OF THIS RUMOR?
☐ The Attorney General's Office is contacting organizations that are soliciting support for Flint, according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?

☑ A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.
UPDATE: 2-1-1 has clarified that, while lead testing for children is free, clinics may ask for insurance information in order to bill the insurer for testing, but there should be no cost to the patient.

UNRESOLVED
☐ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
☐ From 1/26/26: There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. Are shower filter donations a request that can be coordinated through Good360 or another supplier?
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☑ From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information. Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that 2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.

☐ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

☐ From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ From 12/15/16: Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?

Importance: High

Paul

We need to request an extension for the appeal which is due Sunday. We have been trying to get the data needed from Flint for weeks and they still have not provided it to us. Without that information we cannot complete the appeal. Tony can sign the letter and while there is no guarantee that we will get the extension I believe it is critical for us to ask for it to give us more time with Flint's data and ensure we have a solid case. I anticipate no more than 14 days extra. Additionally, with the recent firing of the Chief of Police and Fire Chief as well as the City Administrator only adds to our concerns with getting the data in a timely manner.

☐ **A private donor organized the distribution of 200 FlowTec shower filters** at Berston Field House. Demand was extremely high and all filters were taken within 15 minutes. The distribution spurred a large number of calls to 2-1-1 and affirmed the unmet demand for shower filters. At least one from a homebound resident asking to have a shower filter delivered. Callers are expressing tremendous frustration about not feeling safe to bathe, one caller said, ***"You can't boil enough bottled water to take a hot bath."*** As noted in past updates, Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand.

RUMOR/SCAM CONTROL

☐ **Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' HAVE deemed hazardous for human habitation. **CAN A CONTACT AT DHHS INVESTIGATE AND REPORT BACK TO MICHIGAN 2-1-1 ON THE VERACITY OF THIS RUMOR?**

☐ **The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

☑ A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community

- ☐ **From 12/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

Importance: High

Louis,
Do we have to use the term "the Michigan Department of Education (MDE) Emergency Manager" ??!! Emergency Manager is a very specific and not-so-welcome title... can we use something else?

Martin Ackley, Director
Office of Public and Governmental Affairs
Michigan Department of Education

Customer Service is a priority at the Michigan Department of Education – helping Michigan schools, families, and communities improve the achievement and well-being of ALL our children.

Lisa, once you review this message and update to tailor, send to Marty. He will get permission to send from the JIC. To date nothing has been done specifically for the unlicensed child care providers. They would be covered by the door to door campaign. If you have contact information, you should do a message that highlights any precautions and tell them to go to the Flint Water website. You can include your update.

Health and Human Services
Administration for Children and Families
Office of Child Care

On January 5, 2016, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, the Michigan Department of Education (MDE) Emergency Manager and MDE staff have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through the Joint Information Center. The state has a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. The Flint Water site has up-to-date information on all actions related to the Flint Water Crises and specific actions taken to provide support to the citizens of Flint.

The Genesee County Health Department has held multiple forums regarding this situation. Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing information and guidance to the Genesee Health Department which in turn is informing the community.

The state is actively working in the Flint communities to distribute water, water filters and replacement filters. In addition they are giving details on water testing procedures and blood testing. The state and county have teams going door-to door delivering water, filters, and information. In addition, there are local distribution sites set up at Flint area Fire stations and several local churches. This has been broadly advertised through multiple methods to ensure the widest possible dissemination. Door hangers with information are being left if no one is answering the door. Information is being provided in English as well as Spanish and Arabic.

The Michigan Department of Education is contacting all area providers that are operating school nutrition or child and adult care food programs. They are ensuring that information regarding the ongoing programs is understood and providing any help as required.

Water testing efforts have been on-going since October 2015. The Michigan Department of Environmental Quality is the state agency responsible for the water testing program. They have been implemented a testing program throughout the city. The water testing program is on-going.

Lynn and Marla have heard that City of Flint Pyublic Schools has extra water. I would like a contact and number to pass to the Genesee County emergency managers. Before I send the name and number, can you confirm with them that it is OK to pass the info to State contacts?

Related: Jeannette Doll said that that DTMB picked up 38 pallets of water from Flint schools on Sunday. This means that Flint is already talking with people about sharing.

I want to be able to pass on a high level person that is in the know. For instance maybe Bernard does know they gave away 38 pallets of water on Sunday.

Cc: Guerrant, Kyle (MDE); Alaniz, Aimee (MDE); Malnar, Jaime (MDE); Priest, Thomas (MDE); Walters, Kevin (MDE); Dixon, Janice (MDE)
Subject: Update: Extra water at Flint Public Schools

Current position. Officials at the City of Flint Public School District (aka Flint schools) have been in contact with both state and local officials regarding water. The state Logistics chief has been in contact with an Assistant Superintendent. The school district did give 38 (or maybe 44) pallets of water to the state. This water has been replaced.

The state does not need water at this time. There is more than enough water to go around. The water that Flint School District has was donated to them. And while the school district has more than enough, the state does not want to be seen as "taking water" from the kids in Flint.

Any MDE staff in contact with Bernard or other child nutrition program staff in Flint should tell them that they can coordinate with the local county staff if they want to give away donate water. The state will not be involved.

When this question first came up there was a lag in water available to distribute. There is no lag in available water at this time.

Subject: Extra water at Flint Public Schools

Lynn and Marla have heard that City of Flint Pyublic Schools has extra water. I would like a contact and number to pass to the Genesee County emergency managers. Before I send the name and number, can you confirm with them that it is OK to pass the info to State contacts?

Related: Jeannette Doll said that that DTMB picked up 38 pallets of water from Flint schools on Sunday. This means that Flint is already talking with people about sharing.

I want to be able to pass on a high level person that is in the know. For instance maybe Bernard does know they gave away 38 pallets of water on Sunday.

Subject: RE: SEOC Briefing - 1/13/16 16:00

Task for tomorrow is to identify the USDA Foods that might be available to the area districts. This will help Marla when creating a nutrition plan. The plan should include foods that are easy to prepare but also some fresh (super foods) that have the nutritional content these kids need right now. I will reach out to distributors tomorrow for this information. This is the list of affected schools that I have:

New Standard Academy 25911
WAY Academy 25915
Richfield 25910
International Academy 25905
Northridge Academy 25904
MI School for Deaf and Blind 253300000
Flint School District (we already obtained their food ordering list)
St Paul Lutheran 250103956
St John Vianney 250106219
St Pius 250803991

Lastly, it should be known that the MSP staff are drafting a letter regarding volunteers as they are receiving a lot of state department inquiries. Louis, I know you asked about this today... Sounds like they *might* draft a document of places that water can be donated as well.

Have a good night,
Jaime Malnar

Summary of SEOC Briefing 1/13/16 16:00

- Tomorrow is a planning day
- MDHHS, MDE, MDARD, and LARA working together on nutrition plan. Gloria Zunker named as the lead.
- Guidance for 800+ food establishments going out today.
- Fire stations doing outreach –handing out written resources along with water.
- Most of the deliveries going to GCCARD – 10K faucet filters, 50K cartridges, and 1300 pitchers
- National Guard at Red Cross locations. Red Cross working to set up volunteer and water response team reception area/meals.
- Teams are having issues with cold – ipads literally freezing up. Working to replace ipads if needed but conditions should improve tomorrow. Distribution counts show 771 but this may be higher due to ipad issues.

- JIC had successful media event. Continue to coordinate information requests. They also have a 211 Liaison to ensure their services are accurate and not getting overwhelmed. Aging Agencies working with nurses and social workers to ensure elderly and homebound citizens are getting resources. Most calls for age-related calls are going to sheriff's office and then given to GCCARD. Calls related to Legionnaires Disease press conference should not be directed to Water Crisis Team.
- MSP located vans to transport volunteers and equipment.
- National Guard has at each "pod" to assist with distribution. Group would like to know how the National Guard is being received by Flint residents.
- Several issues with identifying warehouse(s) due to current school contracts. Another site was located but most sites only have one loading dock and may have some items already stored in facility. They expect 8 trucks delivered each day through Saturday (water, filters, and tablets)
- DEQ providing additional staff to assist with getting testing kits out in the area
- Palm cards in English and Spanish are delivered.
- Next briefing at 09:30

Thank you,
Jaime Malnar

Jaime,
I have been working with Gloria Zunker to find a source for the water filters. I have a few vendors that are working on pricing and the logistics to help with this request. Please let me know if there are any additional individuals that I should be working with. Thank you.

Jaime,

Were have been engaged with the water filter request, and a matter of fact, Jason has a call at 4pm today. We are down the road connecting our vendor with MDE, now we are just trying to get a final number and last minute logistics. If you have specific questions feel free to call Jason at our office.

Subject: RE: Questions

One more thing...

I have heard them mention GCCARD several times. Wonder if we need to reach out to them to see if they need assistance – perhaps a reroute of USDA Foods deliveries. Sounds like warehouse space is a *huge* problem and the folks here want to use that storage space for water. Just a thought. This could just be a courtesy call by Tom...

Subject: RE: Questions

#1) Kathy Wahl just asked who she would be working with on the nutrition plan. Can I tell her its Marla?

#2) Discussion of HPS just came up, any problem with sharing our contact information with Kathy? Probably Kevin Crampton as a contact who would pass the call onto his superiors. Look for mass purchasing of filters/supplies. Any concerns with sharing this information?

#3) Kathy Wahl would like to know if we can send a list of USDA Foods purchased by Flint Schools to Gloria Zunker. I suppose we would need to pull that same data for the other non-public schools in that area. Any concerns with this?

Cc: MSP-EOC-MDEQ
Subject: New Tactic

In our tactics meeting this afternoon, a new tactic was added in relation to the nutritional planning that we have been discussing already. If/when it is approved by command, we will need to coordinate on a strategy for our "plan" regarding nutrition. Currently, this consists of providing the updated nutritional information that we are waiting for from the JIC to post. Other thoughts, ideas, tactics that you all have in mind? The CHECC is also working to gather information on food and nutrition programs through MDHHS, to ensure consistent messaging.

Jen W. – cc'ing you as FYI

Thank you,
Jennifer

Subject: Questions

Importance: High

Hi there....

I am going into a meeting in a few to have initial conversation regarding the "nutritional plan" that will be developed.... I know there will be questions of our dept coming soon, but do we know of any special programming going on (nutrition wise) currently in Flint I should be aware of going into this conversation? If it's easier to call me, please do so at 517-324-2342.

THANK YOU
Aimee

Subject: SEOC Briefing - 1/13/16 09:30

Summary of SEOC Briefing 1/13/16 09:30

(Not much new information from last briefing)

- National Guard was activated last night to assist with efforts, especially staffing at distribution sites
- Teams are out, however having some issues with door to door volunteers due to temp in the teens today. Conditions should improve tomorrow
- Guidance for food establishments will be going out today
- DEQ providing additional staff to assist with getting testing kits out in the area
- MDHHS has staff volunteering at the distribution sites
- Local EOC not on the call
- Recovery is working on logistics of getting 15 more teams in the field
- JIC announced working with FEMA and National Guard to the public.
- Media is showing up at distribution sites.... All media referred to the JIC
- Palm cards are in English and Spanish, currently working on Arabic
- Next briefing at 16:00

Thank you,
Aimee Alaniz

Subject: RE: Go Fund Me Idea

Just spoke to Jackie.... She confirmed our conversation is correct. People can contact 211 for donation options, or can donate directly to United Way of Genesee County or the Red Cross (they can specify w/ Red Cross that it is for Flint Water Crisis).

Aimee, this is a request from some MDE employees to start a Go Fund Me page. I have no idea who we should ask about this initiative. My gut says that perhaps the JIC rep. I am sure they do not want independent initiatives from state workers.

Can you ask around. I will call you in a few minutes.

Subject: Flint Water Crisis

Hi Patty,

I am not sure who the appropriate person is to ask so I am starting with you. Jesse and I have been thinking of a way to do something for the Flint Community but weren't really sure what we felt was a good idea. Then when I saw Kyle's message that cautioned about driving SOM vehicles or wearing SOM clothing my heart just broke to think that there is resentment in the community towards State workers. Since Jesse and I both work for the State, we think it would be a good idea to set-up a Go Fund Me Page for SOM workers. If every SOM employee made a donation we could raise a good chunk of money and it could be given to the relief efforts from SOM employees. Maybe this would not only help the community, but also show that SOM employees are just people too and that we do care about the Flint Community.

In order to do this though we would need to be able to send the link to the page to all SOM employees, which is where Jesse and I are unsure on what the proper protocol would be? I wanted to speak with you first to not only ask your opinion, but also to ask who I should contact to really get the ball rolling? Or is this something SOM employees are not permitted to do?

Subject: SEOC Update 1/12/15 16:00

SEOC Agency Briefing – 1/12/15 16:00

- Reviewed the 204 (tactics) – this is available in MICIMS
- Secured a 50,000sq ft warehouse in Flint, currently addressing security measures
- Status updates from the JIC every 2 hours
- Nutrition planning (long term) has been added (see previous email) – more to come soon, joint agency effort to include MDE
- Notifications to animal care facilities are in process
- 7,601 water test bottles have gone out... requested more staff to monitor process, lab can only handle 400/day coming in
- Volunteer reception center in being developed
- Working on a 100,000 sq ft warehouse lease thru DTMB
- 12 trucks of water to be delivered tomorrow
- MSP teams have delivered door to door products to 394 households today (4 teams)
- New York Times did face to face interview today in Flint
- FOIA request for MDHHS communications regarding situation
- PSA video released today
- Constant media questions wanting exact numbers of water, filters, etc. Concerns from Cap about releasing that information
- Expecting some protests – Thursday in Lansing, possible protests on Monday (MLK Holiday)
- Everything that hits the media has to hit city, county and state.... We cannot let media drive concept of "what is the STATE doing" (Cap K)

Thank you,
Aimee Alaniz

Cc: MSP-EOC-MDEQ
Subject: New Tactic

In our tactics meeting this afternoon, a new tactic was added in relation to the nutritional planning that we have been discussing already. If/when it is approved by command, we will need to coordinate on a strategy for our "plan" regarding nutrition. Currently, this consists of providing the updated nutritional information that we are waiting for from the JIC to post. Other thoughts, ideas, tactics that you all have in mind? The CHECC is also working to gather information on food and nutrition programs through MDHHS, to ensure consistent messaging.

Jen W. – cc'ing you as FYI

Thank you,
Jennifer

The Food Bank of Eastern Michigan does use City of Flint water, however we do have filters in our kitchen and have conducted testing's since the water became an issue.

Subject: SEOC notes

Kevin and Aimee,

Don't forget to sign in on the sheet by the door. There is also a notebook by the door for Education. It has some basic info.

Sign into MiCIMS. Note your arrival and departure time in MiCIMS and tell Richard when you leave.

They said that the SEOC hours have been extended to 0800 to 2000 (8:00 p.m.). I just told Richard I am leaving, as I have all work tasks completed and we have no one to contact.

The hottest item is outreach to school and CNP providers. That is what they want to hear about.

Call me or email if you need me.

Subject: Flint Water SEOC Update (January 11)

1. Governor and May of Flint had press conference. Combative at times. Eden Wells, Nick Lyon, and new DEQ director all spoke too.
2. MDE has set schedule for the week to ensure daily coverage at the SEOC.
    a. We will include Louis, Aimee, Kevin Walters, Jaime Malnar, and Tom Priest. We will schedule for next week soon.
    b. MDE will maintain presence at 0930 and 1600 phone calls.
3. DCH part of DHHS asked for MDE assistance with distributing nutrition guidelines. Then we were told that the info is being update and not to share.
4. Distribution of water and water filters is the main state effort. Tension when a reported wanted the governor to explain why there was no water at Fire Station 8.
5. MDE all message released to update staff on current efforts.
6. Semi related: representative Zemke has an update for the safe drinking water act. It is specific to testing school water and says "the results of the analysis shall be provided to the department and to the public schools." The Zemke staff talking with Ben thought this would be MDE. The department is DEQ as defined in the act.

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command operations center at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, and other staff has been representing MDE at the SEOC. This is currently operating seven days a week. MDE leadership is being kept up to date of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

Any MDE staff conducting business in the Flint area should be aware that there is some resentment towards the state concerning the handling of the water crises. Staff should not travel in State-owned cars through Flint neighborhoods. Any MDE logo clothing should be avoided. (This is more an issue for uniformed staff of other state agencies.)

State officials from the Department of Environmental Quality have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The state is actively working water distribution, water testing, blood level testing, and distribution of bottled water. They are coordinating their efforts with local county emergency managers. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, be aware that Dr. Eden Wells will be making a presentation on the Flint water crises tomorrow at the State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Subject: SEOC update

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. But this is being actively worked at the county level.

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Sent: Monday, January 11, 2016 10:34 AM
To: Burgess, Louis (MDE)
Subject: Update

Louis:

You were correct on the names for MDE representation. You, me, Kyle, and Cheryl. There was also a J. Malnar listed, not sure who that is. She said Marla could come, but she would need to get with an IT person to get an account set up... she cannot use yours, and would have to complete the training after the fact.

There is no way to "force" parents to test their kids... hopefully the radio and TV PSAs will assist with this.

My availability:

Mon 1/11:	Until 4:00pm
Tues 1/12:	1:00pm – 4:30pm
Wed 1/13:	9:00am – 4:30pm
Thur 1/14:	9:00am – 4:30pm
Fri 1/15:	9:00am – 4:30pm

Mon 1/18	Not available (Unless REALLY needed – would need to find childcare)
Tues 1/19	Not available (Unless REALLY needed – have all-day planning mtg)
Wed 1/20:	9:00am – 4:30pm
Thur 1/21:	9:00am – 4:30pm
Fri 1/22:	9:00am – 4:30pm

**The only this that could potentially screw up the schedule is if Holt Public Schools cancels school for weather!!!

Hope this helps!
Aimee

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

Subject: Question from state police

Rumor has it that the "schools" have vast quantities of bottled water that has been donated to them. The distribution efforts at certain sites (Food Banks and some of the fire stations) running out of water. The state has 29 pallets of water coming into Flint for distribution and more on the way after that. I was asked if we could get the schools to share their water. My answer is here:

LT Covey asked about the extra water that is under control of schools. LT Roach was asking him about working with MDE to get water and make available to other places. As a local control state, each school district and Public School Academy is a local unit of government with control over their own resources. Districts will have to be contacted directly regarding sharing their resources. MDE can provide contact information at the Superintendent level.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 14:49:33 on 1/9/2016****

LT BJ Roach is the MSP contact. She is located at the Genesee County Emergency Ops Center.

Subject: RE: SEOC update (Sunday is a GO)

Kyle,

The expectation is to stay here today. I have been keeping busy. Of the key state agencies (DEQ, LARA, DHHS, DTMB, and Ag) we have the lowest number of action items. 8 people in the JIC. The SEOC has 20+ folks in here.

I coordinated with DEQ today to make sure they have a complete list of open schools. I did a query in EEM and then deleted everything except what is needed for the Flint situation.

I think you can cover for the 0930 tomorrow, and then we can call in tomorrow. For next week, we should have someone here for the 0930 call (me or Aimee, and I may find someone else) and then be on-call. For sure we need someone here part of each day.

Our current location is back row, 9th monitor from left (6th from right, facing to front). The monitor has MSP-EOC-MDEDUCTN on top left. Our landline number is 517.324.2342.

When you log into Outlook you automatically are logged in to the MSP-EOC-MDEDUCTN account. I am using my state phone or IPad for my state email.

To open MICIMS, go to Internet Explorer, Favorites, WebEOC7.8 log-in. I added it as a favorite.

-log in is your state email (e.g. burgess@michigan.gov); your password (will send mine as a text); a training event is the default, go up about 8 items to "2015-10-01-Flint-water contamination/Shortage"

-Hit OK, and then OK again to confirm your information.

Create a new entry and say "Kyle Guerrant reporting to SEOC." It will add the time. Folks in the front right of the room will be able to help. They have to log you into the work station too.

-you can scan through entries if you want. I sent you some samples.

Subject: SEOC update

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. But this is being actively worked at the county level.

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Subject: SEOC update: Flint water (rising tension)

Kyle, Marty, and Marla,

1. SEOC will be open tomorrow. Key state agencies are expected to be here for 0930 briefing. Education has been designated a key agency. I can attend.
2. JIC update.
    a. Ron Leix briefed four key areas:
        i. Water Filters. State has to get word out on the distribution of filters. DHHS is lead.
        ii. Water Testing. DEQ is lead. 40-50K homes in Flint, only 672 water tests have been conducted. State-wide emphasis on getting water tested. Testing includes a six hour stagnation time. State effort to get more testing.
        iii. Blood testing. DHHS lead. There is a need to get info to citizens on testing.
        iv. Bottled water. Check out the Rachel Maddow show; she highlighted state's failure to get water distributed. This is the fourth key area. State has to get the info out on all details regarding bottled water.
3. MDE update. I acknowledged that DEQ and Genesee County Emergency Management is doing outreach to all organizations that serve children, elderly, have food programs, and are licensed through LARA. The School Nutrition team has been reaching out to Child Nutrition program providers since last October. MDE will continue our outreach. Our message was approved by the JIC. Marla has directed staff start contacting agencies. While some efforts maybe redundant, since there is no centralized list that everyone is working from, MDE should continue to reach out and ensure that providers know about the available resources.
4. The State continues to update the Flint Water website with new details (Michigan.gov/flintwater). The JIC main areas are the state's main areas of effort. Details on the web.
5. JIC is moving to a state office building in Flint. There will be a 3:00 p.m. JIC meeting with all key JIC representatives with City of Flint.
6. DEQ is continuing effort to get water tested.
7. State SITREPS are due by 3:30 p.m. (1530).
8. Snow showers in Flint staring midnight Saturday. Cold breezy weather through weekend.

Louis

The local Genesee County emergency manager is reaching out to known food providers (not just child nutrition sites). There may be some redundancy as we reach out. I think we make the people aware that there may be other agencies calling.

Water testing in Flint Community. 40-50K homes; but only 600 tests have been completed. Effort to continue to get testing.

FEMA liaisons in place at SEOC.

Red Cross. Coordination of efforts.

Office of Aging. Looking at elderly receiving services. Pulling data, working with GC contacts. County Health Department. City of Flint; Flint Township

Kyle, still here. Probably until 5. I spent this morning working with DEQ and LARA getting them list of open schools. It is not clear what there source is for buildings to reach out to encourage water testing.

The big push is pushing operations to the local county EOC.

There has been a mid-morning call, and there will be one this afternoon. Focus is on safety and distribution of water and water filters.

I think that make sense...I will turn it over to you after I talk about Dr. Wells' presentation. I think we should send something out...Susan Broman was a little worked up yesterday b/c they had a meeting with other early childhood folks and Dr. Wells, and felt like they were not in the loop? Anyway, don't be surprised if she or her team asks questions, and if you could discuss the work on ensuring daycare centers are covered, that'd be great.

I can send the e-mail...let's try to send out on Monday after LT when Directors have heard the update. Do you think we'll have to get it approved through the JIC?

Subject: proposed message for KG to send to MDE ALL on Flint water crises

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Well will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

Attachments: Flint Area non-publics.xls; Flint Area PSAs.xls

Jenn,

The source of these buildings is the Education Entity Master, a data base of all school entities maintained by the Center for Educational Information and Performance.

I filtered each for open schools. This should be the complete list that is being contacted for water testing.

Let me know if there are any questions.

Subject: Re: SEOC update

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

I just talked with Colleen Nelson from LARA – she works with Licensed day care centers. I called to inquire if they worked with the licensed centers. She said that LARA sent out notices to all licensed centers that water filters were available at no charge to them. DHHS sent LARA a list of the centers who picked them up. LARA called the ones that didn't and reminded them. So, I'm beginning to think that maybe our emails might not need to be sent. It sounds like DHHS and LARA have worked with centers in that area. And, then below, it sounds like DEQ has been working with other schools besides Flint. Thoughts?

Subject: Re: SEOC update

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

On Jan 7, 2016, at 1:46 PM, Moss, Marla (MDE) <MossM1@michigan.gov> wrote:

> I just talked with Colleen Nelson from LARA – she works with Licensed day care centers. I called to inquire if they worked with the licensed centers. She said that LARA sent out notices to all licensed centers that water filters were available at no charge to them. DHHS sent LARA a list of the centers who picked them up. LARA called the ones that didn't and reminded them. So, I'm beginning to think that maybe our emails might not need to be sent. It sounds like DHHS and LARA have worked with centers in that area. And, then below, it sounds like DEQ has been working with other schools besides Flint. Thoughts?

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

Subject: proposed message for KG to send to MDE ALL on Flint water crises

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Well will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

Sent: Thursday, January 07, 2016 4:33 PM
To: Guerrant, Kyle (MDE)
Cc: Moss, Marla (MDE); Houseman, Jennifer (MDE)
Subject: draft email to Genesee ISD Supe (LIsa Hegel)

Proposed message: intent is to provide general info and let her know that although this is a community and county issue, because students are involved we would like receive any information they have.

Let me know what you think. Make any changes and I will send to the PIO through Marty.

Louis

Lisa (or Ms. Hegel),

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions. In addition, MDE staff are reaching out to Flint-area MDE approved child nutrition providers (both school meals and Child and Adult Care food programs) with several questions related to water and food preparation.

While we want to ensure that all the buildings serving children are taking the proper precautions, we do not want to confound local efforts already underway. The Flint School District has had water in 13 buildings tested and they have a request for two more pending with DEQ.; however, MDE is not aware of what others districts, Public School Academies, and non-public schools have done to help protect their children. By reaching out to those schools and other entities we hope to get a clearer picture of the situation.

If there is any information you can share with me about your actions to ensure student safety, please feel free to share them. If you like, I can share any information that we get from state sources that may be relevant to you and our staff.

KG

For JIC approval to send to Schools, PSA, and non-public schools participating in School Nutrition Programs.
The Michigan Department of Education School Nutrition Programs (SNP) has questions for you in regards to the water supply in your area. As you know, Governor Snyder declared an Emergency Declaration due to the water situation in the City of Flint. We are asking for responses to the following questions:

Do you get your water from the City of Flint? If yes, please answer these questions:

- Did you have your water tested?
- If yes, what were the results?
- Are your students drinking any water from the City of Flint?
- Are you using any water from the City of Flint for food preparation?
- Are you serving "potable" water during meal times in the serving area, as required by the Healthy Hunger Free Kids Act of 2010? If so, what is the source of the potable water?

Please send your response to these questions by COB on January 8, 2016.

For your reference, I have included a link with information provided and approved by state:
http://www.michigan.gov/documents/deq/deq-flint-water-handout-pdf_503630_7.pdf?20160107094821

For JIC approval – to be sent to CACFP centers participating with MDE.
The Michigan Department of Education Child and Adult Care Food Program (CACFP) has questions for you in regards to the water supply in your area. As you know, Governor Snyder declared an Emergency Declaration due to the water situation in the City of Flint. We are asking for responses to the following questions:

Do you get your water from the City of Flint? If yes, please answer these questions:

- Did you have your water tested?
- If yes, what were the results?
- Are your participants in the Child and Adult Care Food Program drinking any water from the City of Flint?
- Are you using any water from the City of Flint for food preparation?

Please send your response to these questions by COB on January 8, 2016.

For your reference, I have included a link with information provided and approved by the state:

Tom, here is another section to be reviewed: some of this may just for your info that you have a role in emergency planning, depending on the situation.

LOUIS

The MDARD, in coordination with the MDHHS and MDOE, will direct requests for additional food supplies to meet the needs of the affected population to the USDA Food and Nutrition Service, in accordance with the procedures outlined by the USDA and ESF #11 (Agriculture and Natural Resources) in the National Response Framework. The MDARD can also coordinate with the MDHHS for additional food supplies and distribution through the ARC and other NGOs, as well as the MDOE for distribution and use of federal food earmarked for the school lunch program. The Human Services ESF in the SEOC will work with affected local jurisdictions (through their EOC) to coordinate distribution of food to the public.

Subject: state plan

Tom, this is in the state emergency ops plan: any updates you want to make? Cheryl updated this for several years ago.

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Authorize the use of USDA commodities for feeding disaster victims.** Existing USDA food supplies within school facilities may be used to feed disaster victims if other food resources are not available or have been exhausted. At the direction of the Governor, the MDOE EMC may request intermediate school districts to arrange with local school districts for additional food supplies to feed disaster victims on a temporary basis until more appropriate sources are available.

  In addition, the USDA Food and Nutrition Service (FNS) can provide donated food assistance to the MDOE upon request. The USDA may authorize the release of USDA foods from existing inventories, or if those inventories are not sufficient it can acquire food from other existing inventories or through direct market procurement. The USDA can also arrange for transportation of the food to staging areas anywhere in the state. The MDOE is responsible for requesting the food and arranging for its receipt, allocation and distribution to preparation or distribution sites, in coordination with the MDARD.

Sent: Wednesday, January 06, 2016 3:33 PM
To: Burgess, Louis (MDE)
Subject: FW: Flint Water Crises update

From: MSP-EOC-MDEDUCTN
Sent: Wednesday, January 06, 2016 2:38 PM
To: Guerrant, Kyle (MDE); Moss, Marla (MDE)
Cc: Alaniz, Aimee (MDE); Houseman, Jennifer (MDE); Dixon, Janice (MDE); Kovalchick, Kim (MDE); Ackley, Martin (MDE)
Subject: Flint Water Crises update

Kyle and Marla,

Here are my notes from today's briefing. I will likely be here all day. Next briefing at 2:45 p.m.

1. Nine public affairs officers were in attendance at the session. They were in the main briefing, and then had a separate breakout. The PAO's were invited. We were not invited. I have sent Marty the contact info for the primary PIO for the Flint Water issue (Ron Leix, MSP PIO). No department is to release anything without coordinating with the MSP PIO. The Joint Information Center (JIC) has been established.

2. CPT Chris Kalenske: Opening comments. The Governors direction is: "The state is moving forward to fix this." The purpose of today is to create an operational awareness and get all the same information out to state, city, county officials and agencies. An incident command structure is being created to identify all the players, create a specific incident action plan with specific tasks, and promote the long term recovery. "There is no trust in state government" in Flint and other areas on this issue.

3. Dr. Eden Wells. She spoke quickly. I will summarize her comments and try and get her hard copy report. The state has a website with up to date information: Michigan.gov/flintwater.

    a. Lead is a neurotoxin; the oldest known neuro-toxin and affects everything in the body
    b. Developing brains of children are affected (board member Lisa Pugh did her dissertation on this.) ; children with poor nutrition are especially affected
    c. There are known short and long term effects (ulcers, comas, seizures, death); developmental impact on the brain; decreased coordination, developmental delays; lower IQs; behavior disorders
    d. Initially levels above 10 mgs per deciliter (I may not have this measurements exact)was a concern; now they are using 5 as the factor to show concern. Measurements greater than 5 is a call for action; greater than 45 is considered critical.
    e. "There is no safe level of lead."
    f. Lead prevention programs are underway; called CLIP: Child Lead Protection Program. Screens all children between ages of 1 and 2. Medicaid will pay for tests for children as old as 6.
        i. Initially tests are a finder prick (drop of blood)
        ii. Confirmation tests may include a blood draw; painful; but is used to confirm levels in children
    g. Lead exists in the environment: gas, paint, pipes in older cities; dates back to 1967 when standards were put in place. Older urban areas will continue to have this concern. The soil has levels of lead.
    h. Levels of lead in children always spike in July, August, and September when more children play outside and are exposed to lead.

i. Longitudinal testing showed that Genesee County areas had decreasing levels of lead reported until 3Q of 2014. The initial increase coincided with the usual summer increase in measurements. It was not statistically significant, so they missed the first indicators.
j. These two zip codes have been most affected: 48503 and 48504. Considered to be high risk areas; areas are older urban areas with older homes, which have older fixtures.
k. Enhanced testing is now being conducted in this area.
l. State goal is to remove sources as treatment.
m. Filters: filters are being provided to anyone that asks for them. (Initially they tried to restrict to specific areas.) Program in place to replace filters and any device used to filter the water. They have had to provide lots of training on proper use of filters, recycling, and how to get new devices. Filters were provided starting 10/1/2015. 11,415 filters provided; 235 pitchers; 1,500 replacmeent filters
n. Initial goal was one filter per household
o. Actual numbers of person treated or in serious difficulty is small. Only 2 people treated with direct exposure to bad tap water.
p. 181 children aged 0-5 identified for tests; 109 provided case management through DHHS. 24 children being monitored.
q. Emphasis on health education

4. DEQ briefer: George Krisnian (guess on his last name.); Genesee Coordinator

a. Briefed the sequence of events that lead to crises
b. Prior to 1967 source of water was Flint River
c. Switch to Detroit provider in 1967: Detroit Water and Sewerage Department (DWSD); Flint River was always the back up and was tested annually; tests showed no concern.
d. In April 2013 Flint notified DWSD that would switch water source on 4/17/2014
e. Testing of new water sourcesshowed some concerns; the water qualify worsened over time
f. Testing at Flint Community Schools resulted in banning of drinking fountains as water source.
g. Water filters provided for free
h. On-going resident lead testing programs

5. SEOC questions:
   a. Are there other concerns besides lead? Copper is a concern. Filter program should address all known contaminants.
   b. They have to identify and remove older water fixtures; the water may in fact be potable coming from the source, but it becomes contaminated as it goes through the system. From draw from the river to exit out a fixture, it can take seven days, during which the water absorbs lead from piles and fixtures.
   c. Lead will be an issue for all older urban locations with aging pipe infrastructure.

Subject: Flint Water Crises update

Kyle and Marla,

Here are my notes from today's briefing. I will likely be here all day. Next briefing at 2:45 p.m.

1. Nine public affairs officers were in attendance at the session. They were in the main briefing, and then had a separate breakout. The PAO's were invited. We were not invited. I have sent Marty the contact info for the primary PIO for the Flint Water issue (Ron Leix, MSP PIO). No department is to release anything without coordinating with the MSP PIO. The Joint Information Center (JIC) has been established.

2. CPT Chris Kalenske: Opening comments. The Governors direction is: "The state is moving forward to fix this." The purpose of today is to create an operational awareness and get all the same information out to state, city, county officials and agencies. An incident command structure is being created to identify all the players, create a specific incident action plan with specific tasks, and promote the long term recovery. "There is no trust in state government" in Flint and other areas on this issue.

3. Dr. Eden Wells. She spoke quickly. I will summarize her comments and try and get her hard copy report. The state has a website with up to date information: Michigan.gov/flintwater.

    a. Lead is a neurotoxin; the oldest known neuro-toxin and affects everything in the body
    b. Developing brains of children are affected (board member Lisa Pugh did her dissertation on this.) ; children with poor nutrition are especially affected
    c. There are known short and long term effects (ulcers, comas, seizures, death); developmental impact on the brain; decreased coordination, developmental delays; lower IQs; behavior disorders
    d. Initially levels above 10 mgs per deciliter (I may not have this measurements exact)was a concern; now they are using 5 as the factor to show concern. Measurements greater than 5 is a call for action; greater than 45 is considered critical.
    e. "There is no safe level of lead."
    f. Lead prevention programs are underway; called CLIP: Child Lead Protection Program. Screens all children between ages of 1 and 2. Medicaid will pay for tests for children as old as 6.
        i. Initially tests are a finder prick (drop of blood)
        ii. Confirmation tests may include a blood draw; painful; but is used to confirm levels in children
    g. Lead exists in the environment: gas, paint, pipes in older cities; dates back to 1967 when standards were put in place. Older urban areas will continue to have this concern. The soil has levels of lead.
    h. Levels of lead in children always spike in July, August, and September when more children play outside and are exposed to lead.
    i. Longitudinal testing showed that Genesee County areas had decreasing levels of lead reported until 3Q of 2014. The initial increase coincided with the usual summer increase in measurements. It was not statistically significant, so they missed the first indicators.
    j. These two zip codes have been most affected: 48503 and 48504. Considered to be high risk areas; areas are older urban areas with older homes, which have older fixtures.
    k. Enhanced testing is now being conducted in this area.
    l. State goal is to remove sources as treatment.
    m. Filters: filters are being provided to anyone that asks for them. (Initially they tried to restrict to specific areas.) Subject: RE: one more section

Thanks Louis, I opened up the second e-mail first and was confused by the sender name, so I wanted to clarify.

I think the language in the second e-mail is still current and accurate. Per state school rules, we regularly test for lock-down situations, as well as tornado and fire drills. Additionally, we have an emergency closing procedure that is updated each school year.

However, the second two bullets in the first e-mail may need some consideration.

- *"Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)*
- *Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate"*

I remember when the department was developing the business continuity plan in 2003, 2004 or so, and there was talking about MSD being a temporary emergency operations center for State or County emergency staff. It made a lot of sense at the time, but after the sale of the MSD property, we don't have as much to offer in terms of facility space.

Prior to the sale we had 80 acres and a large Service Building, Power Plant Building, Health Center Building, Gilbert Hall, Fay Hall, and four large residential houses that all could be made available for emergency operations. Now we're down to a quarter of the land size, and none of these buildings are available, and the new school is roughly half the size of the previous school.

I'm not sure if the current plan still depends on MSD as a back-up operations center, but if so, perhaps we should re-think that?

Thanks.

Mark, I sent just to you. This is a separate section in the plan:

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Protect residents, staff and visitors at the Michigan School for the Deaf.** The Michigan School for the Deaf in Flint must develop and maintain internal facility emergency procedures for the protection of residents (students), staff and visitors in an emergency or disaster. These procedures should be consistent with the local jurisdiction's EOP to ensure timely local emergency response support, if necessary, and be tested on a regular basis to ensure they are adequate. In an emergency or disaster, the School for the Deaf must coordinate response and recovery operations with the local EOC, and may need to utilize local resources to maintain adequate care for residents (students) and ensure that staff is able to maintain operations at a reasonable level.

Teri, Rose, and Mark,

can you reivew this section of the state emergency operations plan?

this is part of an annual update. I need any updates by January 16.

Rose, I don't know who keeps track of Camp T.

Louis

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

Notes: 1) The MDOE has no direct authority over local public school buildings, school buses, or school equipment and supplies. Local public school districts are autonomous. Local EMCs must make direct contact with local school administrators / school boards to secure the use of their resources in emergencies or disasters. 2) School for the Deaf resources can only be used when other sources of assistance are not available or have been exhausted. Facility needs must be adequately met before these resources will be used to supplement relief efforts.

- **Coordinate use of Michigan School for the Deaf resources to support emergency operations.** The MDOE EMC is responsible for the following tasks related to the use of these resources:

- Maintaining a log of all key decisions, activities, and conversations related to the need for Michigan School for the Deaf resources
- Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)
- Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate

LOUIS

The MDARD, in coordination with the MDHHS and MDOE, will direct requests for additional food supplies to meet the needs of the affected population to the USDA Food and Nutrition Service, in accordance with the procedures outlined by the USDA and ESF #11 (Agriculture and Natural Resources) in the National Response Framework. The MDARD can also coordinate with the MDHHS for additional food supplies and distribution through the ARC and other NGOs, as well as the MDOE for distribution and use of federal food earmarked for the school lunch program. The Human Services ESF in the SEOC will work with affected local jurisdictions (through their EOC) to coordinate distribution of food to the public.

Subject: state plan

Tom, this is in the state emergency ops plan: any updates you want to make? Cheryl updated this for several years ago.

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Authorize the use of USDA commodities for feeding disaster victims.** Existing USDA food supplies within school facilities may be used to feed disaster victims if other food resources are not available or have been exhausted. At the direction of the Governor, the MDOE EMC may request intermediate school districts to arrange with local school districts for additional food supplies to feed disaster victims on a temporary basis until more appropriate sources are available.

  In addition, the USDA Food and Nutrition Service (FNS) can provide donated food assistance to the MDOE upon request. The USDA may authorize the release of USDA foods from existing inventories, or if those inventories are not sufficient it can acquire food from other existing inventories or through direct market procurement. The USDA can also arrange for transportation of the food to staging areas anywhere in the state. The MDOE is responsible for requesting the food and arranging for its receipt, allocation and distribution to preparation or distribution sites, in coordination with the MDARD.

Sent: Thursday, January 07, 2016 4:33 PM
To: Guerrant, Kyle (MDE)
Cc: Moss, Marla (MDE); Houseman, Jennifer (MDE)
Subject: draft email to Genesee ISD Supe (LIsa Hegel)

Proposed message: intent is to provide general info and let her know that although this is a community and county issue, because students are involved we would like receive any information they have.

Let me know what you think. Make any changes and I will send to the PIO through Marty.

Louis

Lisa (or Ms. Hegel),

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions. In addition, MDE staff are reaching out to Flint-area MDE approved child nutrition providers (both school meals and Child and Adult Care food programs) with several questions related to water and food preparation.

While we want to ensure that all the buildings serving children are taking the proper precautions, we do not want to confound local efforts already underway. The Flint School District has had water in 13 buildings tested and they have a request for two more pending with DEQ.; however, MDE is not aware of what others districts, Public School Academies, and non-public schools have done to help protect their children. By reaching out to those schools and other entities we hope to get a clearer picture of the situation.

If there is any information you can share with me about your actions to ensure student safety, please feel free to share them. If you like, I can share any information that we get from state sources that may be relevant to you and our staff.

KG

Cc: Moss, Marla (MDE); Houseman, Jennifer (MDE); Ackley, Martin (MDE)
Subject: proposed message for KG to send to MDE ALL on Flint water crises

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Well will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

Ken: can you give me a review of this section of the plan?:

- **Coordinate school bus driver safety initiatives.** The MDOE administers school bus driver training, education and medical certification programs aimed at enhancing driver knowledge and skills and certifying their competency to operate a school bus. Under these programs, all school bus drivers in Michigan must take and pass a bus driver education and training program, and then take regular refresher courses to maintain their certification to operate a school bus. School bus drivers must also pass an annual medical examination. (Like the MSP school bus inspection program referenced above, these MDOE initiatives are designed to meet federal and state laws and guidelines pertaining to school bus and pupil transportation safety.)

Subject: one more section

Mark, I sent just to you. This is a separate section in the plan:

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Protect residents, staff and visitors at the Michigan School for the Deaf.** The Michigan School for the Deaf in Flint must develop and maintain internal facility emergency procedures for the protection of residents (students), staff and visitors in an emergency or disaster. These procedures should be consistent with the local jurisdiction's EOP to ensure timely local emergency response support, if necessary, and be tested on a regular basis to ensure they are adequate. In an emergency or disaster, the School for the Deaf must coordinate response and recovery operations with the local EOC, and may need to utilize local resources to maintain adequate care for residents (students) and ensure that staff is able to maintain operations at a reasonable level.

Teri, Rose, and Mark,

can you reivew this section of the state emergency operations plan?

this is part of an annual update. I need any updates by January 16.

Rose, I don't know who keeps track of Camp T.

Louis

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

Notes: 1) The MDOE has no direct authority over local public school buildings, school buses, or school equipment and supplies. Local public school districts are autonomous. Local EMCs must make direct contact with local school administrators / school boards to secure the use of their resources in emergencies or disasters. 2) School for the Deaf resources can only be used when other sources of assistance are not available or have been exhausted. Facility needs must be adequately met before these resources will be used to supplement relief efforts.

- **Coordinate use of Michigan School for the Deaf resources to support emergency operations.** The MDOE EMC is responsible for the following tasks related to the use of these resources:
  - Maintaining a log of all key decisions, activities, and conversations related to the need for Michigan School for the Deaf resources
  - Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)
  - Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate

Subject:	state plan

Tom, this is in the state emergency ops plan: any updates you want to make? Cheryl updated this for several years ago.

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Authorize the use of USDA commodities for feeding disaster victims.** Existing USDA food supplies within school facilities may be used to feed disaster victims if other food resources are not available or have been exhausted. At the direction of the Governor, the MDOE EMC may request intermediate school districts to arrange with local school districts for additional food supplies to feed disaster victims on a temporary basis until more appropriate sources are available.

  In addition, the USDA Food and Nutrition Service (FNS) can provide donated food assistance to the MDOE upon request. The USDA may authorize the release of USDA foods from existing inventories, or if those inventories are not sufficient it can acquire food from other existing inventories or through direct market procurement. The USDA can also arrange for transportation of the food to staging areas anywhere in the state. The MDOE is responsible for requesting the food and arranging for its receipt, allocation and distribution to preparation or distribution sites, in coordination with the MDARD.

Introduction

Purpose of the Guide

This guide provides a framework or strategy for government and non-government disaster recovery stakeholders at all levels to assess, plan for, and support the recovery of communities following events that do not rise to the level of or receive a Stafford Act declaration (herein referred to as "non-Stafford Act events"). To support this overall objective, this guide focuses on achieving three major goals:

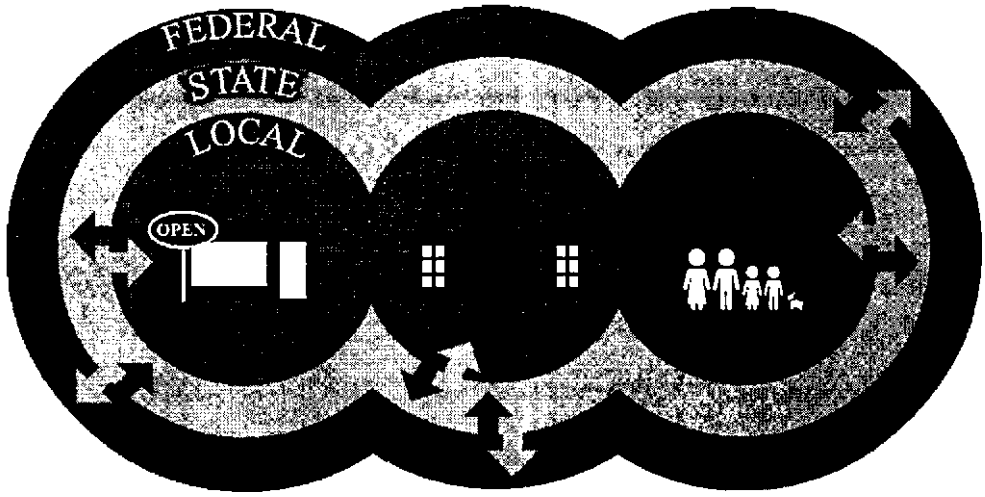
1. Emphasize the importance of local, State, and Tribal governments in assessing and addressing the needs of affected communities following non-Stafford Act disasters
2. Encourage the development of engaged partnerships between emergency management and non-emergency management stakeholders
3. Provide a framework that supports unified recovery-focused coordination between local, Tribal, State, and Federal agencies, non-governmental organizations, and the private sector

These objectives are intended to provide recovery stakeholders the means to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local level utilizing the principles of the National Disaster Recovery Framework (NDRF).

For the purposes of this document, non-Stafford Act events are defined as events that have recovery requirements exceeding the capability of individuals and the local community, but do not exceed the capabilities of the State.

Background

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the whole community.



The impact of concentrated damage can be overwhelming, even to well-resourced or resilient communities. Often times systems are disrupted, need exceeds individual resources, regular service providers are overwhelmed, and networks necessary to address disaster related needs do not exist. With capabilities exceeded, outside resources and expertise may be required to support the local community.

State agencies may have programs or grants that can generally be *re-prioritized* to meet identified recovery needs and goals. Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, a limited number of Federal agencies like the Small Business Administration (SBA) and the United States Department of Agriculture (USDA) do maintain programs or authorities that can directly support the needs of impacted communities outside Stafford Act declaration.

Principles and Concepts of the National Disaster Recovery Framework

The resources and needs of impacted States, Tribes, and communities may differ following a non-Stafford Act event; however, the nine core principles and the key concepts set forth in the NDRF can be equally applied to any event and any jurisdiction to holistically support recovery. For more information visit the National Disaster Recovery Framework website at www.fema.gov/national-disaster-recovery-framework .

Core Principles:

- Individual and family empowerment
- Leadership and local primacy
- Pre-disaster recovery planning
- Partnerships and inclusiveness
- Public information
- Unity of effort
- Timeliness and flexibility
- Resilience and sustainability
- Psychological and emotional recovery

Key Concepts:

Structure
The NDRF provides a scalable structure for organizing recovery operations around the needs of the community through the six identified Recovery Support Functions (RSFs);

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure
- Natural and Cultural Resources

These sector-specific functions can be developed at any level of government to facilitate problem solving and foster coordination among recovery stakeholders.

Planning
Recovery planning is set forth in the NDRF as a critical activity that should begin prior to an event and extend through all phases of the emergency management cycle. Successful recovery planning requires active engagement with and between all levels government, nongovernmental organizations, the private sector, and the community itself in order to increase post-disaster collaboration and unified decision-making.

Leadership
The NDRF outlines leadership positions at the local, State, and Tribal levels through Local Disaster Recovery Managers, State Disaster Recovery Coordinators, and Tribal Disaster Recovery Coordinators. Individuals in these positions are intended to serve as the primary point of contact for recovery for their jurisdiction, and are responsible for organizing, coordinating, and advancing recovery in all phases of the emergency management cycle.

Following a non-Stafford Act event, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, these representatives support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

When combined with the full involvement of all stakeholders and realistic and well-communicated expectations, the concepts and principles outlined in the NDRF can be used as building blocks to develop resiliency and support a successful recovery following a non-Stafford Act event.

General Recovery Needs

Understanding the needs of a community is critical to the development of appropriate structures, plans, and partnerships to support recovery. Specific needs will vary by event and community, and need to be assessed holistically following an event. Categorizing needs prior to an event may be helpful in identifying recovery partners and programs. Examples may include:

Individual needs

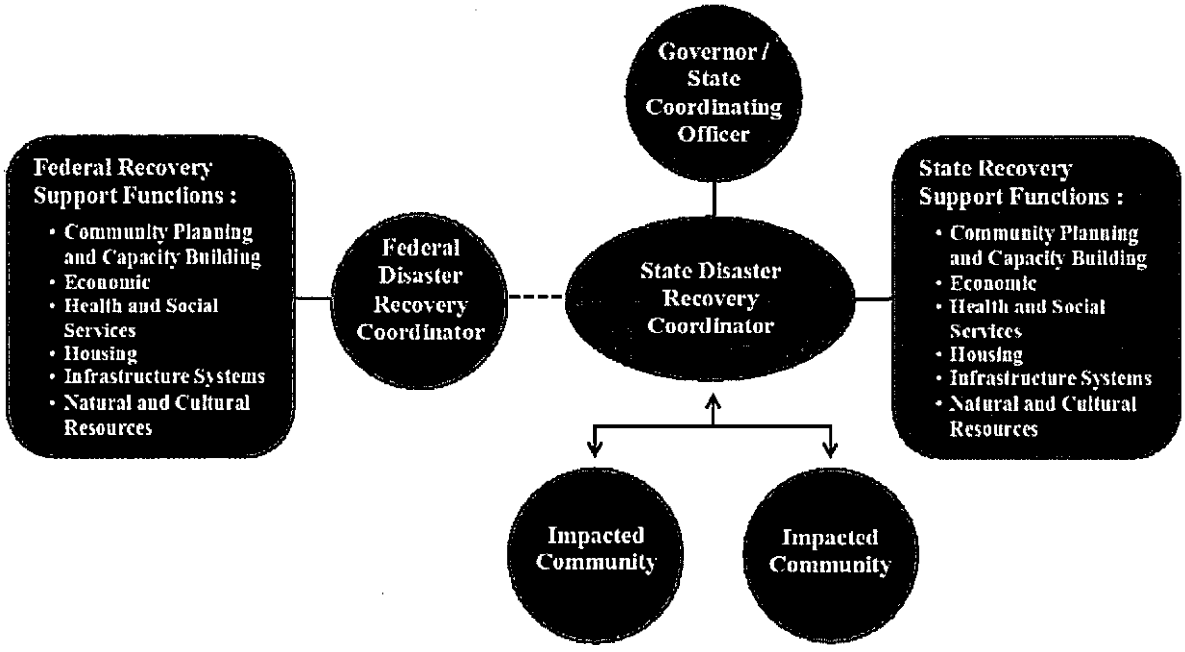
- Temporary housing (rental assistance or other temporary housing)
- Home repair/rebuild assistance (real property and mechanicals)
- Medical, dental, funeral assistance (including the replacement of damaged durable medical equipment)
- Personal property (clothing, household items, furniture, appliances) replacement assistance
- Transportation or vehicle replacement assistance
- Replacement of job related tools and specialized/protective clothing
- Moving and storage assistance
- Legal assistance
- Insurance claims assistance
- Mental health needs
- Employment related assistance
- Food replacement
- Agricultural support for farmers and ranchers
- Assistance to mitigate against the effects of future events

Government needs

- Recovery planning support
- Debris removal cost recoupment
- Legal and contract support
- Economic/Business stabilization support
- Reimbursement for emergency protective measures taken in the response phase
- Assistance to support repairs to roads, bridges, and other infrastructure
- Assistance to support necessary repairs to water and utility networks
- Assistance for damaged public buildings
- Support for public healthcare facilities
- Assistance for damaged equipment
- Insurance claims assistance
- Support to ensure environmental and historic considerations are taken throughout recovery
- Assistance to mitigate against the effects of future events

Non-Stafford Act Recovery Support Structure

The NDRF can provide a structure to support unified coordination between all governmental and non-governmental recovery stakeholders following non-Stafford Act events. While it is expected that the State and affected community will work together to scale this structure according to specific recovery needs, the structure defined in the NDRF may be helpful in defining and aligning the roles of local and State governmental and non-governmental recovery stakeholders.



The recovery structure defined in the NDRF centers around multi-agency coordination facilitated by the Disaster Recovery Coordinators/Manager and the RSF Coordinating Agencies. Multi-agency coordination is a process that allows all levels of government and all disciplines to work together more efficiently and effectively. Multi-agency coordination is a National Incident Management System (NIMS) compliant method of providing coordination to multidisciplinary, policy-level decision makers brought together to support incident level operations. This organizational concept is particularly relevant at the State and Federal levels where organizational leadership is brought together to identify resources to support needs in the impacted jurisdiction.

Local Non-Stafford Act Recovery Support Structure

Successful recovery coordination efforts stem from well-planned, well-coordinated and inclusive local recovery efforts. The local recovery support structure is made up of operational elements brought together to establish and prioritize recovery goals, develop community focused recovery plans, ensure clear and consistent public messaging, and support resource coordination.

Overall leadership for the local recovery coordination group is provided by the Local Disaster Recovery Manager (LDRM), identified by local emergency management or by the office of the senior elected official. This facilitative role centers on coordinating operational elements to meet recovery goals.

Local recovery Coordinating agencies/organizations are designated based on relevant authorities, roles, resources or capabilities. These agencies can support the LDRM and the overall recovery effort by ensuring coordination and providing resources and subject matter expertise in their given functional area.

Potential local leadership and Coordinating agencies may include:

Leadership

City/County office of Emergency Management or the office of senior elected leadership

Coordinating Agencies/Organizations

City/County Department of Commerce or Planning and Development Commission
City/County Department of Public Works and Engineering
City/ County Department of Health or Department of Human Services
City/County Department of Emergency Management
Local Housing Authority
City/County Parks Department

The local recovery structure must also coordinate with keystone partners from local faith and community based organizations, the private sector, educational institutions, and regular service providers that support children, elders, people with disabilities, and people with other functional and access needs. These community leaders provide essential support on an every-day-basis. Understanding the roles of these individuals and organizations allows local recovery leadership to identify needs and leverage resources more effectively.

Appreciating the actual capabilities and needs of a community is essential to supporting and enabling local actions.

Many non-governmental organizations have disaster programs which play a pivotal role in supporting the recovery of impacted individuals and communities. These organizations coordinate through local, State, and national coalitions known as Voluntary Organizations Active in Disaster (VOAD). VOAD member agencies can support a variety of needs including:

- Individual and community needs assessments
- Case management training and support
- Construction (repair/rebuild) support and coordination
- Long Term Recovery Group (LTRG) formation support
- Debris removal from private property
- Grant assistance
- Resource identification and fundraising support
- Disaster mental health or emotional and spiritual care
- Youth focused resiliency programs
- Support for faith leaders in impacted areas
- Coordination of spontaneous volunteers
- Donations management support
- Information and referral support

More information on Voluntary Organizations Active in Disaster can be found at http://www.NVOAD.org

State/Tribal Non-Stafford Act Recovery Support Structure

The State/Tribal recovery support structure is designed to augment recovery resources. This often requires the re-prioritization of resources so the intent and priorities of senior elected leadership must be made clear at the outset. Individual State/Tribal agencies may contribute operational elements to support local recovery operations; however, State/Tribal-level recovery coordination is conducted by policy-level decision makers with the authority to commit resources on behalf of their agency.

Leadership for the State/Tribal recovery coordination group is provided by the State/Tribal Disaster Recovery Coordinator (SDRC or TDRC), identified by State/Tribal emergency management, the office of the Governor, or Tribal leadership. The person in this role is responsible for facilitating coordination with and between State/Tribal agencies and the impacted jurisdictions(s).

State RSF Coordinating agencies are designated based on relevant authorities, roles, resources or capabilities and can support the SDRC/TDRC and the overall recovery effort by ensuring coordination with and between the impacted communities and State agencies working within their functional area(s) (RSF).

Potential State leadership and Coordinating agencies may include:

Leadership

State Emergency Management or the Governor's Office

Coordinating Agencies

State Department of Commerce or Economic Opportunity
State Department of Transportation
State Department of Health and Human Services
State Emergency Management Agency
State Department of Housing
State Department of Natural Resources

Additional State agencies and organizations may be identified as supporting agencies when their specific capabilities, resources, or programs can be used to support impacted communities. When scaling the State/Tribal recovery structure, recovery leadership must consider the actual needs of impacted communities and the mechanisms necessary to coordinate the broad range of support available through regular State programs and non-governmental organization partners.

Federal Non-Stafford Act Recovery Support Structure

The Federal recovery support structure following non-Stafford Act events does not change from that outlined in the NDRF. This structure is scalable and it may not be necessary for staff to be physically present in the state to provide support. Additional information on the Federal recovery support structure can be found in the NDRF.

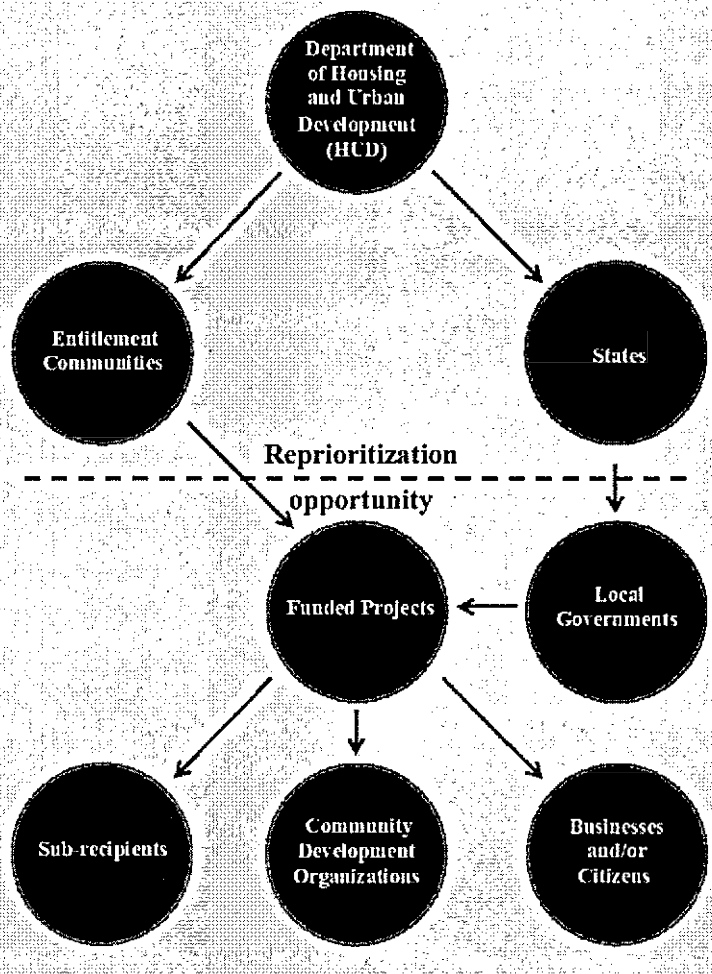
The following list of Federal agencies represents some of the resources and technical assistance that may be available to support impacted jurisdictions, States/Territories, and Tribes following non-Stafford events:

Department of Commerce
Department of Defense, U.S. Army Corps of Engineers
Department of Health and Human Services
Department of Homeland Security, Federal Emergency Management Agency
Department of Housing and Urban Development
Department of the Interior
United States Department of Agriculture

State recovery leadership and State Recovery Support Function leads are encouraged to coordinate with Federal agencies through regional or field offices as appropriate, to discuss authorities relevant to disaster recovery and better understand how non-disaster programs already being administered may have relevance following an event. More information on Federal recovery programs can be found on the National Disaster Recovery Program Database and at DisasterAssistance.gov

Non-Stafford Act Programs in Action:

Department of Housing and Urban Development Community Development Block Grants (CDBG)



This flow chart outlines how CDBG funding is allocated to benefit programs and communities. Funds flow from the U.S. Department of Housing and Urban Development to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas.

Following a disaster, States and Entitlement Communities can shift funding priorities (at dotted line), for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

Governmental, Non-Profit, and Private-Sector Coordination

Integrating and coordinating with governmental, non-governmental and private-sector associations and their member agencies/organizations can be key to successfully addressing the needs of impacted communities. These partners may include sector-specific associations with missions directly or indirectly related to emergency management. Associations can support planning, coordination, and the development of agreements/understandings that support and leverage the capacity of member agencies. Additionally, associations can develop or improve overarching recovery coordination processes that independent organizations may not have the capacity to develop on their own.

GOVERNMENTAL ASSOCIATIONS

Governmental Associations provide coordination between agencies of all types and are engaged at the national, regional, State, and local levels. These organizations can provide additional coordination, lessons learned, and programmatic/subject matter support via peer-to-peer networks of government entities (mutual aid). Engagement with government associations can encourage resiliency through the development, promotion, and coordination of tools and best practices. Examples of government associations include:

- Council of State Community Development Agencies
- Emergency management associations (such as the National Emergency Management Association, the International Association of Emergency Managers, and local, county, and State associations of emergency managers)
- City/County Manager Associations
- National Association of Regional Councils
- National League of Cities
- State and national associations of county or municipal governments
- State and national associations of health departments (such as National Association of County and City Health Officials)
- State and national public works associations (such as the American Public Works Association)
- Tribal Associations

EXAMPLE:

International Association of Emergency Managers

The International Association of Emergency Managers (IAEM) serves to advance the profession by promoting the principles of emergency management; to serve members by providing information, networking and professional development opportunities; and to advance the emergency management profession.

Learn more at www.IAEM.com

NON-PROFIT AGENCIES, ORGANIZATIONS

Non-profit agencies, organizations, and associations can play a critical role following non-Stafford Act events. These key partners provide outside resources, and training that can help local non-profit, faith-based, and community-based organizations to maximize the support they provide in an affected community. This support is generally coordinated through member organizations and provided via peer-to-peer networks similar to mutual aid. Non-profit associations can be helpful to State and local governments working to expand their capacity by supporting the identification of member

organizations and helping to explain the resources and missions of their members and provide introductions. Examples of nonprofit associations include:

- Academic Associations
- American Planning Association (APA)
- State and national offices of civic organizations (such as Lions Club International, Kiwanis International, and Rotary Clubs)
- Disability service and advocacy organizations (such as the State Protection and Advocacy Agency, and the local Centers for Independent Living)
- Faith-based associations
- Foundation Associations (such as the Council on Foundations and the Association of Small Foundations
- Disaster Long Term Recovery Groups (LTRG)
- State and National Non-profit Associations
- Non-profit legal associations (such as the American Bar Association, the Legal Services Corporation, and the National Legal Defender Association)
- Trade unions
- Voluntary Organizations Active in Disaster (such as National VOAD and State VOAD)
- Community Organizations Active in Disaster (COAD)
- State and National offices of youth councils and organizations (such as the Boys and Girls clubs, Future Farmers of America, 4H clubs, and the Boy Scouts and Girl Scouts of America)

EXAMPLE:

The Extension Disaster Education Network (EDEN)

EDEN links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters.

Learn more at eden.lsu.edu

THE PRIVATE SECTOR

By actively engaging private sector partners *prior* to an event, and working to establish mutually-supportive relationships, recovery leadership can better take into account the needs and resources of the whole community and support successful recovery.

By working to establish public-private partnerships, recovery leadership can develop relationships with key stakeholders who have insight into economic and community needs as well as access to potential resources. While well-developed mutually supportive relationships with individual business partners is a goal, private sector associations and trade groups can help to provide recovery leadership with more information on the resources and needs of their membership and facilitate introductions to key stakeholders. Examples of private-sector associations include:

- Business Associations
- Professional Associations
- Local, State, and National Chambers of Commerce

EXAMPLE:

The Business Civic Leadership Center (BCLC)

BCLC helps businesses communicate and collaborate with each other and with the nonprofit and government sectors to make disaster relief, recovery, and reconstruction activities more effective.

Learn more at bclc.uschamber.com/program/dis

Pre-Event Recovery Coordination and Non-Stafford Act Capacity Development

Pre-disaster recovery planning, coordination and capacity development is set forth in the NDRF as key to the successful recovery of communities affected by disaster. This is particularly true of non-Stafford Act events, where a premium is placed on coordination in order to maximize the impact of available resources. By identifying recovery leadership, defining roles, engaging with partners, expanding partnerships, planning, training, and exercising prior to an event, States can develop the resources and structure necessary to support impacted communities following any event.

Resource and Guidance Development

- Identify recovery leadership at all levels of government and define positions, authorities, roles, and responsibilities.
    - Determine how the State/Tribal/local Disaster Recovery Coordinator or equivalent will be identified, and what the specific authorities, roles, and responsibilities of the position will be.
    - Identify State/Tribal/local Recovery Support Function Coordinating agencies and define the authorities, roles, and responsibilities of these positions.
    - Develop guidance to support local jurisdictions in identifying and developing recovery leadership.
- Identify traditional and non-traditional State, Tribal, and Federal non-Stafford Act programs that can be used to support the needs of impacted communities.
    - Promote agency-specific policy development by all identified recovery stakeholders.
    - Promote the development and maintenance of State/Tribal and local recovery resource lists that outline the potential assistance available from state and or local agencies and recovery partners.
- Support the development of non-Stafford Act recovery coordination plans as part of each jurisdictions broader recovery plan.
    - Promote the inclusion of all governmental, non-governmental, and private sector stakeholders in the development and maintenance of recovery plans and partnerships.
    - Plan for the needs of individuals with disabilities and others with access and functional needs, children and seniors as a fundamental aspect of the recovery plan rather than as a supplement, annex, or separate plan.
- Promote the development of engaged recovery-focused partnerships at all levels and between all sectors of government, non-governmental organizations and the private sector.
    - Develop recovery-focused memorandums of understanding (MOU) or memorandums of agreement (MOA) between state agencies and agencies with identified recovery roles.
    - Develop recovery-focused mutual aid and Emergency Management Assistance Compact (EMAC) agreements with other States, Tribes, or local jurisdictions as appropriate.

- Promote the development of local, State, and National non-governmental organization consortiums (such as State/National VOADs, COADs, Inter-faith Councils, Disability related advocacy groups, and Private Sector networks).
- Work with government agencies to encourage collaboration between local, State and Tribal governments.

Pre-Disaster Coordination

- Promote non-Stafford Act support forums for idea and information sharing between recovery stakeholders at all levels.
  - Gather and disseminate lessons learned and best practices from other non-Stafford Act recovery operations to Federal, Tribal, State, local, non-governmental, and private sector partners.
- Organize State agencies with identified recovery roles according to RSFs or state recovery structure.
  - Promote the development of recovery taskforces according to identified RSFs
  - Support the identification and coordination of agency functions, roles, and capacity to support non-Stafford Act disasters.
- Insure that non-governmental organization partners are fully integrated into State, Tribal, and local coordination and capacity building initiatives.

Post-Event Recovery Coordination

Defining, coordinating and addressing the needs of an impacted community following a non-Stafford Act event requires active coordination and planning between all levels of government and with all sectors of society. This section outline steps that States, Tribes, and local communities can take to conduct a more accurate needs assessments, develop appropriate goals, and enhance multi-agency coordination.

Community Impact Assessment

- Ensure coordination with departments/organizations active in the response phase to discuss the current situation, activity to date, major areas of concern, and the transition to recovery. (i.e. share damage assessment numbers and identified community impacts, share known locations of displaced/evacuated residents)
- Conduct comprehensive damage and impact assessment to identify potential community needs and strategic recovery challenges across the 6 Recovery Support Function areas. Examples may include:
    - Convene a multidisciplinary impact assessment team to ensure that assessments are as efficient and comprehensive as possible. The team should be composed of governmental, non-governmental, and private sector stakeholders representing all identified RSFs.
    - Coordinate with existing community information and referral networks (2-1-1, 3-1-1, etc.) to support the identification of community needs.
    - Insure that assessments provide a base line need in each of the identified functional areas (i.e. Total number of damaged homes, number of homes with failed structural elements, and the number of destroyed homes).
    - Provide State/Tribal and Federal technical/subject-matter/policy support as appropriate to support local needs assessments.
- Coordinate local and State/Tribal governmental and non-governmental agencies/organizations to identify existing individual and community resources that can be used to support recovery – including insurance, continuity of business plans/support, locally administered programs, and donated/volunteer resources.
- Seek out the input of elected leadership, governmental agency/office leadership, faith leaders, faith and community based organization leadership, key private sector stakeholders, and individuals from the impacted community in order to identify community structures and priorities.
- Provide State and Federal technical/subject-matter support as appropriate to support local assessments.

Non-Stafford Act Planning and Recovery Strategy Development

- Develop State and local recovery strategies that support the needs, plans, and goals of impacted communities.
    - Engage local leadership and RSF taskforce stakeholders to support the development of local recovery strategies.
    - Involve the impacted community (public) during the development of the recovery strategy – considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.
    - Insure that recovery strategies take into account the specific needs of seniors, people with disabilities, and people with limited resources.
    - Insure that case management and other coordinative elements are incorporated into each community's recovery strategy in order to maximize impact and avoid overlap or gaps in service.
    - Request or provide State/Tribal/ Federal technical, subject-matter, and policy support as appropriate to support the development of local recovery strategies.
    - Develop a State recovery strategy to ensure the unified coordination of State/Tribal and Federal agencies supporting impacted jurisdictions.
- Support the development of local Business Recovery Plans for individual impacted businesses
- Support the development of Individual Recovery Plans for impacted survivors
    - Ensure that case management is available to assist impacted survivors to identify and coordinate resources necessary to support the holistic sustainable recovery solutions.
- Support ongoing recovery planning at the State and local level to align available resources with identified goals, priorities, and progress.
    - Promote local leadership in recovery planning.
    - Involve all recovery stakeholders in recovery planning initiatives. Include local and State/Tribal governmental agencies, non-governmental organizations, and local service providers.
    - Ensure that all recovery plans are in line with the goals and strategies of the impacted community.
    - Provide a mechanism for continued State and Federal technical assistance support as appropriate.
    - Ensure that State recovery planning is scaled to meet the coordination needs of supporting state agencies and takes into account the evolving needs of affected jurisdictions.
    - Promote public feedback opportunities to insure that recovery strategies and priorities continue to be in line with the needs of the community –considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.

Non-Stafford Act Coordination and Support

- Ensure that recovery leadership at the local, State and Tribal levels is adequate to support the recovery needs, strategies, and plans of impacted communities.
    - Assess the need to identify or assign a Local Disaster Recovery Manager (LDRM).
    - Assess the need to identify/assign, and deploy a State/Tribal Disaster Recovery Coordinator (SDRC/TDRC).
    - Assess the need for Federal technical assistance.
- Promote the development of Recovery Support Functions and recovery focused multi-agency coordination groups at the local, State, and Tribal levels as appropriate.
    - Implement RSF task forces as appropriate
    - Promote the broad inclusion of current and potential recovery partners – to include non-governmental organizations and the private-sector to ensure that technical support and programmatic resources are known, available, and coordinated.
    - Promote coordination between counterpart local, state, and national non-governmental and private-sector partners to maximize an understanding of available support and ensure coordination.
    - Promote the development of Long Term Recovery Groups (LTRG) and the use of case management to coordinate long-term unmet needs assistance to disaster survivors.
    - Identify the need for Federal RSF support to local and State/Tribal recovery functions.
- Ensure that the appropriate technical assistance is available from the State and through mutual aid networks to support local recovery assessment, planning, and program administration.
    - Coordinate and/or deploy technical assistance teams, made up of identified State/Tribal recovery partners, to support local communities in the assessment of disaster impacts and the development of local recovery strategies.
    - Identify the potential for peer-to-peer/mutual aid assistance to support local recovery coordination and planning efforts.
    - Ensure the development of an interface between local, State/Tribal, and Federal agencies to streamline policy discussions and promote an understanding of the processes and requirements associated with requesting and administering supplemental assistance.
    - Assess the need for Federal technical or programmatic advisors to support State/Tribal and local recovery efforts.
- Ensure that all non-Stafford Act programmatic assistance (financial and in-kind) is available to and coordinated with local recovery leadership.
    - Ensure that supplemental support is in alignment with identified local goals, strategies, and plans to maximize impact, identify gaps, and avoid duplication.
    - Identify additional State/Tribal and local programs that can be used, reprioritized, or altered to support the needs of affected communities identified in the assessment process.
    - Assess the need for and, if needed, request additional non-Stafford Act assistance from the State/Tribe or other Federal agencies.

Appendix 1: Case Study – State of Illinois, 2012 Spring Tornadoes

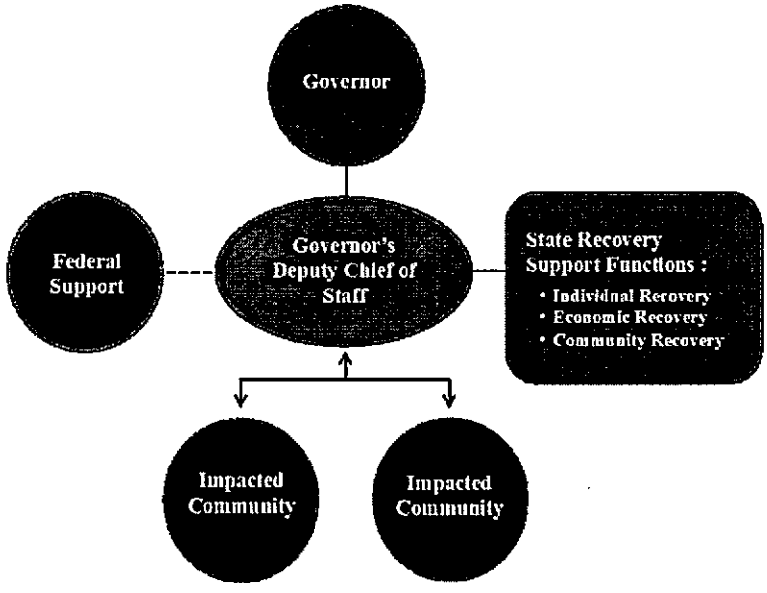
Overview:

In the early hours of February 29, severe storms and tornadoes tore through Gallatin, Massac, Saline, Union, and Williamson counties of Illinois. Around 5a.m. an EF4 tornado touched down in the City of Harrisburg in Saline County, and an EF3 tornado touched down in the Village of Ridgway in Gallatin County. The State estimated that 440 homes were impacted by the event, of which 176 were destroyed or suffered major damage. Eight people in Harrisburg lost their lives as a result of the tornado, making this the deadliest Illinois disaster in nearly a decade.

Subsequent to the determination that the event did not exceed the capabilities of the State of Illinois, FEMA Region V deployed two specialists to provide technical assistance in support of State efforts to identify and coordinate recovery assistance around the needs and goals of the impacted communities.

Strategy:

On March 25, 2012 the Governor's office held a meeting with twenty-three State agencies to outline the intent of leadership and begin coordinating state recovery support. Three Recovery Support Functions (RSFs) were outlined according to the goals of the state and the impacted communities, and leadership was assigned.



State RSFs and assigned State agency leads:

- Individual Recovery – Illinois Emergency Management Agency
- Economic Recovery – Illinois Department of Commerce and Economic Opportunity
- Community Recovery – Illinois Department of Commerce and Economic Opportunity

Over the ensuing week, RSF leads coordinated with local, State, Federal, and non-governmental partners to conduct comprehensive needs assessments in the impacted area and identify sources of non-Stafford Act assistance.

On April 2, 2012 the Governor's office issued a press release announcing $13 million in State assistance available to support recovery needs in the impacted communities. This package, made up of reprioritized existing State and Federal programs and block-grants, addressed needs in all three identified State RSFs.

Following the announcement, State agency representatives met in the affected communities to outline programmatic requirements, coordinate assistance, and support the development of a unified local recovery plan.

Key Elements and Lessons Learned:

Local needs assessments and recovery goals are critical to the identification and coordination of potential recovery support. Recovery efforts share many similarities; however, the impact of a disaster on a community is ultimately complex and unique. By conducting holistic community recovery assessments and engaging with the public, recovery leadership will be better equipped to set appropriate recovery goals, establish structures, and inform outside partners of needs. The State can support this effort by offering/providing technical expertise from state agencies, or helping to coordinate mutual aid support from experienced jurisdictions outside of the impacted area.

Senior leadership must clearly state recovery goals and priorities. Since support available to impacted communities following non-Stafford Act events is primarily accomplished through re-prioritizing existing funds, programs, and personnel, senior elected leadership must make clear the intent to redirect these funds to support impacted communities to agency level decision makers at the outset.

An understanding of how currently available programs can support the recovery of impacted communities is essential following non-Stafford Act events. Many of the resources available to support the recovery of impacted jurisdictions following non-Stafford Act events are available through existing programs. Understanding how block-grants and other programs/resources may apply to the recovery of affected citizens and the community is essential when considering potential resources.

A scalable, flexible, and adaptable support structure is crucial. Location-based, or in person, support from State and Federal recovery partners is not always warranted. Coordination requirements for current and potential support should be considered to ensure that the structures established are appropriately scaled.

Supporting recovery requires more than programmatic resources. Technical assistance is often key to successfully supporting recovery operations. The establishment of State subject-matter expert strike teams to support local assessments, planning, and resource identification should be considered as a best-practice.

Governor Quinn Announces Up to $13 Million in New Relief for Southern Illinois Communities

Governor Secures State, Federal Resources to Help Southern Illinois Families, Businesses, and Local Governments Recover from Tornado

HARRISBURG – April 2, 2012. At the direction of Governor Pat Quinn, the heads of a number of state agencies today announced in Harrisburg up to $13 million of financial aid and construction projects to help families, businesses and local governments recover from the deadly tornado that ravaged several Southern Illinois communities on Feb. 29. The package put together at the Governor's instruction includes reimbursements to local governments for some of their disaster-related expenses, road improvements, grants to help homeowners repair or rebuild damaged homes, and low-interest business loans to create jobs and help businesses recover.

"This assistance package offers real solutions for the long-term recovery effort in Harrisburg and other communities," Governor Quinn said. "Recovery from this tornado won't happen overnight, but these resources will help residents and businesses of hard hit areas in Southern Illinois begin to rebuild their lives."

Following FEMA's denial of assistance for people affected by the tornado on March 10 and denial of an appeal on March 21, Governor Quinn moved quickly to secure support for people and businesses through the U.S. Small Business Administration (SBA). That request was approved the following day, and the SBA began meeting with people interested in the low-interest, long-term loans on March 23.

"In the weeks since the severe storms and tornadoes hit Southern Illinois in February and early March, I have met with representatives from federal, state, and local emergency management agencies to discuss the ongoing recovery efforts in Harrisburg, Ridgway and surrounding areas," said U.S. Senator Dick Durbin (D-IL). "I will continue to work with Governor Quinn and the Illinois Congressional Delegation to seek further opportunities for federal assistance to help these communities rebuild."

In addition to the SBA loans, the state's multi-agency relief package includes:

- **Assistance from Illinois Department of Commerce and Economic Opportunity (DCEO) –** Up to $5 million from the Community Development Assistance Program (CDAP) will pay for public infrastructure improvements, housing rehabilitation and reconstruction efforts. In partnership with Ameren Illinois, another $1 million from the Energy Efficiency Trust will fund energy efficiency incentives through Ameren's Act on Energy program to benefit customers affected by the disaster. Additionally, DCEO will make as much as $750,000 in Workforce Investment Act grants available to cover wages for dislocated workers to participate in disaster

OFFICE OF GOVERNOR PAT QUINN **NEWS**

cleanup and structured work-based learning.

- **Assistance from Illinois Finance Authority (IFA)** - Up to $2 million in U.S. Department of Agriculture-Rural Development (USDA-RD) business loans will be available through IFA under a relending in Gallatin, Saline and Williamson counties. Loans from a minimum of $50,000 up to a maximum of $250,000 may be used for the purchase of land, construction or renovation of an industrial or commercial building or purchase of machinery and equipment. The IFA will partner with local banks to market the program to local businesses hurt by the recent storms and tornadoes.

- **Assistance from Illinois Department of Transportation (IDOT)** – Twenty-one municipal road improvements in Harrisburg will be completed at an estimated cost of $1.58 million.

- **Assistance from Illinois Emergency Management Agency (IEMA)** – Reimbursements up to $1.5 million to affected local governments for some of their disaster-related expenses will be made through the state's Disaster Response and Recovery Fund, which supports emergency response and recovery efforts.

- **Assistance from Illinois Housing Development Authority (IHDA)** – IHDA will commit up to $1 million in federal HOME Funds using the Single Family Owner Occupied Rehabilitation (SFOOR) Program. Up to $40,000 per household in forgivable non-payment loans will be made available to homeowners in affected areas. The funds can be used to build or renovate destroyed or damaged homes.

- **Delta Regional Authority** – Governor Quinn secured $400,000 in federal funding to reimburse local governments for expenses related to debris removal.

"Ameren Illinois is delighted to partner with the Illinois Department of Commerce and Economic Opportunity to help make recovery a little easier for residents of the Harrisburg and Ridgway areas," said Michael Moehn, Ameren Illinois senior vice president of customer operations. "Through our ActOnEnergy® program and the Warm Neighbors Cool Friends Home Repair Program, residents will be able to receive the financial assistance they need to meet the highest energy efficiency standards as they repair and rebuild. This will allow them to save money today and in the years to come."

Governor Quinn has directed his staff to continue to work with local, federal and non-governmental agencies to secure additional support for families in the affected areas.

This assistance package is in addition to nearly $1.4 million of in-kind state assistance already provided to the affected region. Shortly after the tornado stuck, Governor Quinn surveyed the damaged area and activated the State Emergency Operations Center to coordinate the deployment of state resources and personnel in support of local response and recovery efforts. The state's response included large deployments from IDOT, the Illinois Department of Corrections and the Illinois State Police, as well as assistance from several other state agencies and mutual aid organizations.

"The state of Illinois has been a trusted partner with us since the day the tornado struck," said Harrisburg Mayor Eric Gregg. "Recovery after a disaster of this magnitude isn't easy. This state assistance package will give our recovery efforts a significant boost. I appreciate Governor Quinn's continued commitment to helping our communities recover."

OFFICE OF GOVERNOR PAT QUINN **NEWS**

Governor Quinn directed state officials to start developing the state assistance package immediately after the state's request for FEMA assistance for individuals and subsequent appeal were denied. The administration has been exploring all possible opportunities to deliver relief and assistance to Southern Illinois' impacted communities.

Additional information about the state's response efforts is available at www.Ready.Illinois.gov.

Thanks Louis, I opened up the second e-mail first and was confused by the sender name, so I wanted to clarify.

I think the language in the second e-mail is still current and accurate. Per state school rules, we regularly test for lock-down situations, as well as tornado and fire drills. Additionally, we have an emergency closing procedure that is updated each school year.

However, the second two bullets in the first e-mail may need some consideration.

- *"Coordinating the use of the Michigan School for the Deaf properties, to include Camp Tehsmeheta, to support emergency operations (i.e., as a shelter, staging area, emergency coordinating facility, etc.)*
- *Providing for the use of School for the Deaf equipment, materials and supplies, as appropriate"*

I remember when the department was developing the business continuity plan in 2003, 2004 or so, and there was talking about MSD being a temporary emergency operations center for State or County emergency staff. It made a lot of sense at the time, but after the sale of the MSD property, we don't have as much to offer in terms of facility space.

Prior to the sale we had 80 acres and a large Service Building, Power Plant Building, Health Center Building, Gilbert Hall, Fay Hall, and four large residential houses that all could be made available for emergency operations. Now we're down to a quarter of the land size, and none of these buildings are available, and the new school is roughly half the size of the previous school.

I'm not sure if the current plan still depends on MSD as a back-up operations center, but if so, perhaps we should re-think that?

Thanks.

Mark, I sent just to you. This is a separate section in the plan:

MICHIGAN DEPARTMENT OF EDUCATION (MDOE):

- **Protect residents, staff and visitors at the Michigan School for the Deaf.** The Michigan School for the Deaf in Flint must develop and maintain internal facility emergency procedures for the protection of residents (students), staff and visitors in an emergency or disaster. These procedures should be consistent with the local jurisdiction's EOP to ensure timely local emergency response support, if necessary, and be tested on a regular basis to ensure they are adequate. In an emergency or disaster, the School for the Deaf must coordinate response and recovery operations with the local EOC, and may need to utilize local resources to maintain adequate care for residents (students) and ensure that staff is able to maintain operations at a reasonable level.

The MDARD, in coordination with the MDHHS and MDOE, will direct requests for additional food supplies to meet the needs of the affected population to the USDA Food and Nutrition Service, in accordance with the procedures outlined by the USDA and ESF #11 (Agriculture and Natural Resources) in the National Response Framework. The MDARD can also coordinate with the MDHHS for additional food supplies and distribution through the ARC and other NGOs, as well as the MDOE for distribution and use of federal food earmarked for the school lunch program. The Human Services ESF in the SEOC will work with affected local jurisdictions (through their EOC) to coordinate distribution of food to the public.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 5, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- **EBL report through 1/5/2016**
  - **20 families contacted**
  - **13 EBL investigations completed.**
  - **11 Water sampling completed.**
  - **6 EBL Reports Received.**
    - **4 homes with lead dust hazards**
    - **3 homes with lead in soil hazards**
    - **6 homes with lead-based paint hazards**
    - **2 homes with lead detected in tap water**
  - 6 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- HHS staff will accompany contractors on investigations to confirm compliance with protocols. Scheduled for 1/6/16.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- **CM report through 12/31/15:**
  - **# of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)**
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - **# CM started: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)**
  - # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)
- **Families that have moved to other counties**
  - **Tuscola – contact made, local PH nurse advised the parent to get a follow-up venous test to confirm the elevated capillary test from October; around December 16, PCP at Hurley did a capillary instead of venous despite parent's request for a venous test. CM home visit scheduled for this week (parent was living with a relative, just moved into her own home this week).**
  - **Macomb – contact made, had not gone out yet as of 12/16; we are waiting for an update.**
  - **Oakland – waiting for a call back to give us updates.**

- **Livingston – contact made, parent accepted information over the phone, declined the home visit.**
- **Sanilac – waiting for a call back to give us updates.**

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **MDHHS IRB approved Dr. Hanna-Attisha's research project.**
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

Filter Distribution 10/1/15 to 12/31/15			
	Received	Distributed	Remaining
Water Filters	15,000	11,415	3,585
Water Pitchers	720	235	485
Replacement Cartridges - Brita	9,000	1,475	7,525
Replacement Cartridges – PUR*	5,706	4	5,632
Replacement Cartridges - Zero	375	5	370

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly (Tues. 8:00 am) coordination call with DEQ/LARA/HHS.**
- **GCHD (Jim Henry) is working with Flint residential child care facility to further evaluate lead levels in tap water. All current residents are > 6 years of age and have had venous blood tests: the highest was 2.3 mg/dL, most were <0.5 mg/dL.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- **Provided final/updated versions of the final documents to Angela Minicuci for posting on the MDEQ website (MB)**
  - **Phosphate Fact Sheet**
  - **How to Clean your Aerator Fact Sheet**
  - **Hey Flint, It's Safe to Wash poster (update)**
- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Pending: Filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)
- Pending: Lead and Nutrition fact sheet and Flint Parent Letter revisions.

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- **Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.**
- Reviewing copper drinking water action level.

WIC

- No updates.

Healthcare/Providers

- Medical Services Administration: Letter L 15-73, dated December 30, 2015, Blood Lead Guidelines to Address the City of Flint Residents' Potential Exposure to Lead, was sent to Practitioners, Clinics, Laboratories and Maternal Infant Health Program (MIHP) Providers in the City of Flint.

DEQ Information - Linda Dykema as Liaison

- **The DEQ laboratory will notify HHS (Linda Dykema) of water sampling results > 100 ppb to allow for immediate public health actions to interdict exposure to high lead levels in Flint drinking water. Notification will only be provided for results from the free water testing offered by the city, not the public schools where taps have been taken out of use.**
- **DEQ has completed water sampling at 10 Flint Public School facilities. 3 reports are completed and posted. 10 private schools and/or day care centers are on the waiting list. DEQ filmed sampling and will post the completed video on their web page as a demonstration of the intensity and completeness of the plumbing evaluation and water sampling efforts.**
- The DEQ reported lead water levels of 213 and 2,516 ppb in a residential Flint child care facility. DEQ contacted the facility on 12/30/15 and instructed them not to use those taps for drinking water consumption.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 5, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- **EBL report through 1/5/2016**
  - **20 families contacted**
  - **13 EBL investigations completed.**
  - **11 Water sampling completed.**
  - **6 EBL Reports Received.**
    - **4 homes with lead dust hazards**
    - **3 homes with lead in soil hazards**
    - **6 homes with lead-based paint hazards**
    - **2 homes with lead detected in tap water**
  - 6 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- HHS staff will accompany contractors on investigations to confirm compliance with protocols. Scheduled for 1/6/16.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- **CM report through 12/31/15:**
  - **# of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)**
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - **# CM started: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)**
  - # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)
- **Families that have moved to other counties**
  - **Tuscola – contact made, local PH nurse advised the parent to get a follow-up venous test to confirm the elevated capillary test from October; around December 16, PCP at Hurley did a capillary instead of venous despite parent's request for a venous test. CM home visit scheduled for this week (parent was living with a relative, just moved into her own home this week).**
  - **Macomb – contact made, had not gone out yet as of 12/16; we are waiting for an update.**
  - **Oakland – waiting for a call back to give us updates.**

- **Livingston – contact made, parent accepted information over the phone, declined the home visit.**
- **Sanilac – waiting for a call back to give us updates.**

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **MDHHS IRB approved Dr. Hanna-Attisha's research project.**
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

Filter Distribution 10/1/15 to 12/31/15			
	Received	Distributed	Remaining
Water Filters	15,000	11,415	3,585
Water Pitchers	720	235	485
Replacement Cartridges - Brita	9,000	1,475	7,525
Replacement Cartridges – PUR*	5,706	4	5,632
Replacement Cartridges - Zero	375	5	370

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly (Tues. 8:00 am) coordination call with DEQ/LARA/HHS.**
- **GCHD (Jim Henry) is working with Flint residential child care facility to further evaluate lead levels in tap water. All current residents are > 6 years of age and have had venous blood tests: the highest was 2.3 mg/dL, most were <0.5 mg/dL.**

SEOC Briefing 2/23/16

09:30

- Natl Weather Service: 40 degrees with light wind. Wednesday and Thursday will bring 9 inches of snow for Flint area. Expect blizzard like conditions and lots of blowing the days following the snowfall.
- MDHHS working on recommendations for lead testing on the Flint Water website. Working on talking points w/ EPA regarding shower head usage. Also working on Spanish translation of documents.
- DEQ has 10 teams in the field inspecting homes (505 samples). One high lead level team out. Partnering with MSHDA for housing unit testing. Instruction cards regarding samples going out. Whaley Center is the next school on the list for testing. Researching ground penetrating radar for lead pipe evaluation.
- Red Cross has 6 water response teams out today. Center is open 9am-5pm today.
- **MSP mentioned that someone (?) was visiting Flint on Feb 25th. They are gearing up for that visit. (no one could hear that portion of the call due to banging work being done on SEOC roof)**
- PIO – will be a release regarding rashes. Capt K on a call regarding this later today.
- Next briefing at 16:00

**** Please note that going forward there will only be one daily SEOC briefing****

2/12/16 SEOC Briefing (09:30 & 16:00 call)

- SIT REPS due at 17:00
- Please remember to respond to Lori regarding SEOC (only) e-mail and document count.
- Operations – make sure workers are prepared for weather. Long term plan being finalized. Reminder to print your name legible on sign in sheet.
- Natl Weather Service – Snow today possible, light. Windy today, cold coming tonight: -10 to -15 wind chill. Highs tomorrow about 10, with negative wind chill. By Monday highs back in low 30s.
- Wayne County Health Department sending 3 volunteers to the volunteer reception center.
- HHS Branch – Lots of field testing with food establishments. Also now has clarification of who is testing schools (agreement between HHS, MDARD, DEQ, LARA, MDE)
- Red Cross – 8 teams out today. 50 new volunteers processed.
- MSP – Nothing to report
- DTMB – Parking issues in Flint area. If you do not have a "Flint water" parking pass/badge, park on top level of ramp.
- Corrections – Nothing to report
- Natl Guard – Being asked about water pitcher filter replacements – looking into this resource.
- Local EOC – Teams out today. Boiled water advisory hoping to be lifted this afternoon. Working on an exit strategy per Capt K's request.
- Logistics – Plenty of water and cartridges if there is a spike after boil advisory is lifted.
- FEMA – Nothing to report
- UCG – meetings within Genesee County going well.
- Planning – Nothing to report
- Recovery - Nothing to report
- JIC – Nothing to report
- Capt K is in Flint today. Press release will go out today regarding boil-water ban lift. Reminder that JIC needs names on e-mail requests (versus just a PIO label) for follow up and clarification reasons. The CDC is recommending that pregnant women and children under 6 not drink the filtered water (bottled only) so this information will be added to the press release.
- Major updates including info regarding upcoming events that state agency might be attending will be asked for daily and will be due at 12noon each day.
- Next Briefing Call is 09:00 tomorrow

SEOC Briefing Update for Thursday, February 18, 2016

09:30 Call:

- Operations: No update
- Natl Weather Service: Cold this morning, single digits, upper 20s/30s later afternoon. Tomorrow in the 50s.
- DHHS: Dr. Scott and Dr. Wells met yesterday on guidance documents. Children under 6 should be tested by April 1st.
- MDARD: No update
- LARA: No update
- DEQ: Working on getting sampling teams out
- Human Serv: No update
- Red Cross: 5 teams in neighborhood today, reception center open until 5:00pm
- Corrections: Dealing with some warehouse issues. Safety briefings conducted, first aid kits provided, etc.
- DTMB: Waiting for additional printer to be installed today for FOIA request
- MSP: Dealing with people with false credentials. Capt K wants mtg ASAP on coordination (or lack thereof) of teams in the field. Need heightened security protocols.
- Local Liaison: Sherriff's office received a FOIA request on who was supplying water to the jail.
- FEMA: No update
- Logistics: No update
- Planning: No update
- Finance: No update
- Recovery: Teams are working on finishing mobile home parks today.
- PIO: No update
- Director: Look at incident action plan and working on it.

DATE: January 20, 2016

SUBJECT: National School Lunch Program: Michigan's Request to Expand the Waiver of the Potable Water Requirement to Recently Identified Schools – Approval

TO: Julie Mikkelson
Program Director
Special Nutrition Programs
Midwest Regional Office

This letter is in response to a request from the Michigan Department of Education (DoE) to waive the potable water requirement in the Richard B. Russell National School Lunch Act, 42 U.S.C. 1758, Section 9(a)(5), and found in regulations at 7 CFR 210.10(a)(1)(i). The requirement provides that schools must make available during the school lunch program free potable water where meals are served.

The Michigan DoE originally requested this waiver on behalf of the Flint Community Schools in Flint, Michigan, because the public water source for Flint residents is contaminated with high levels of lead. Since the original waiver was approved, the Michigan DoE has identified additional schools that are affected by the contaminated water. A list of the additional schools and school districts is attached.

Based on the seriousness of the problems within the Genesee County water system, the Food and Nutrition Service (FNS) is approving the request to waive the requirement that these additional Flint area schools make potable water available to students during the lunch service for the remainder of the 2015-2016 school year. We recognize that repairing the water supply system is a long term and costly project, but ask that the Michigan DoE apprise FNS of the progress of repairs to the water supply system before the beginning of school year 2016-2017 in order to determine if it is necessary to extend the waiver request.

If you have questions, please contact Tina Namian, Chief, School Programs Branch at 703-305-2634.

ELKAY®

SPECIFICATIONS

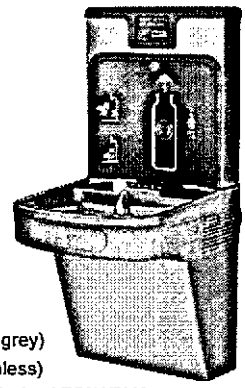
EZH2O® Bottle Filling Station with Filtered Single LZ Cooler

Model Enhanced LZS8WSLP & LZS8WSSP

RATED FOR INDOOR USE ONLY

PRODUCT SPECIFICATION

Unit shall include an electric water cooler with bottle filling station. LZS8WSLP & LZS8WSSP shall deliver 8 GPH of 50°F of drinking water at 90°F ambient and 80°F inlet water. Lower unit shall have pushbar activation. Bottle filling unit shall include an electronic sensor for touchless activation with an automatic 20-second shut-off timer. LED light illuminating the water dispensing area, brightening as water is being dispensed. Shall include a Green Ticker™ displaying count of plastic bottles saved from waste. Bottle filler shall provide a 1.1 gpm flow rate with laminar flow to minimize splashing. Shall include the WaterSentry® Plus 3000-gallon capacity filter, certified to NSF/ANSI 42 & 53, with visual filter monitor to indicate when replacement is necessary. Unit shall automatically detect a new filter and reset visual filter monitor accordingly. Unit shall have the ability to turn off refrigeration system as needed, in addition to self diagnosing system issues and relay messages related. Shall include integrated silver ion anti-microbial protection in key areas. Unit shall be a lead-free design which is certified to NSF/ANSI 61 and 372 and meets Federal and State low-lead requirements. Unit shall be certified to UL399 and CAN/CSA 22.2 No. 120 & is FCC compliant.



☐ LZS8WSLP (light grey)
☐ LZS8WSSP (stainless)

These units are replacing LZS8WSLK and LZS8WSSK, respectively.

STANDARD FEATURES

- Sanitary, touchless activation with auto 20-second shut-off (Bottle Filler)
- Easy-touch front and side pushbar controls (Cooler)
- Visual User Interface display includes:
  - Innovative Green Ticker™ counts bottles saved from waste
  - LED Visual Filter Monitor shows when replacement is necessary
- WaterSentry® Plus 3000-gallon capacity Filtration System, certified to NSF/ANSI 42 & 53 (Lead, Class 1 Particulate, Chlorine, Taste & Odor)
- Integrated Silver Ion Anti-microbial Protection in key areas
- Quick Fill Rate: 1.1 gpm
- Laminar Flow provides minimal splash
- Real Drain System eliminates standing water
- Cooler panel finishes: Light Gray Granite Vinyl Clad Steel or Stainless Steel
- Automatic filter status reset with each filter change

COOLING SYSTEM

- Compressor: hermetically-sealed, reciprocating type, single phase. Sealed-in lifetime lubrication.
- Condenser: Fan cooled, copper tube with aluminum fins. Fan motor is permanently lubricated.
- Cooling Unit: Combination tube-tank type. Self-cleansing. Continuous copper tubing with stainless steel tank. Fully insulated with EPS foam which meets UL requirements for self-extinguishing material.
- Refrigerant Control: Refrigerant R134a is controlled by accurately calibrated capillary tube.
- Temperature Control: Electronic temperature control requires no adjustment
- Temperature Sensing Device: Fully solid-state temperature sensing has no moving parts.

CONSTRUCTION

- Stainless Steel basin with integral drain
- Galvanized structural steel cooler chassis provides structural integrity
- Stainless Steel bottle filler wrapper with ABS plastic alcove
- Cooler cabinet available as Light Gray Granite Vinyl Clad Steel or Stainless Steel (additional cost) construction
- Flexi-Guard® Safety Bubbler utilizes an infused anti-microbial pliable polyester elastomer to prevent accidental mouth injuries. Flexes on impact.

Replacement Filters: Available as Singles and Multi-packs. Order part numbers:

- 51300C (single)
- 51300C_3PK (three)
- 51300C_12PK (twelve)
- 51300C_24PK (twenty-four)
- 51300C_48PK (forty-eight)

Optional:

- Remote access to unit information/diagnostics Contact Elkay or order P/N 1000001858

Warranty: 5 year limited warranty on the unit's refrigeration system. Electrical components and water system are warranted for 12 months from date of installation or 18 months from factory shipment, whichever date falls first.

CAPACITIES CHART

Model	Voltage / Hertz	Chilling** Capacity	F.L. Amps	Rated Watts	Approx. Ship Wt.	ADA Compliant	UL399 and CAN/ CSA 22.2 No. 120 Certified	NSF/ANSI 61 and 372 Certified	NSF/ANSI 42 and 53 Certified (Filter only)	FCC Compliant

EZH2O® Bottle Filling Station with Filtered Single LZ Cooler Model Enhanced LZS8WSLP & LZS8WSSP

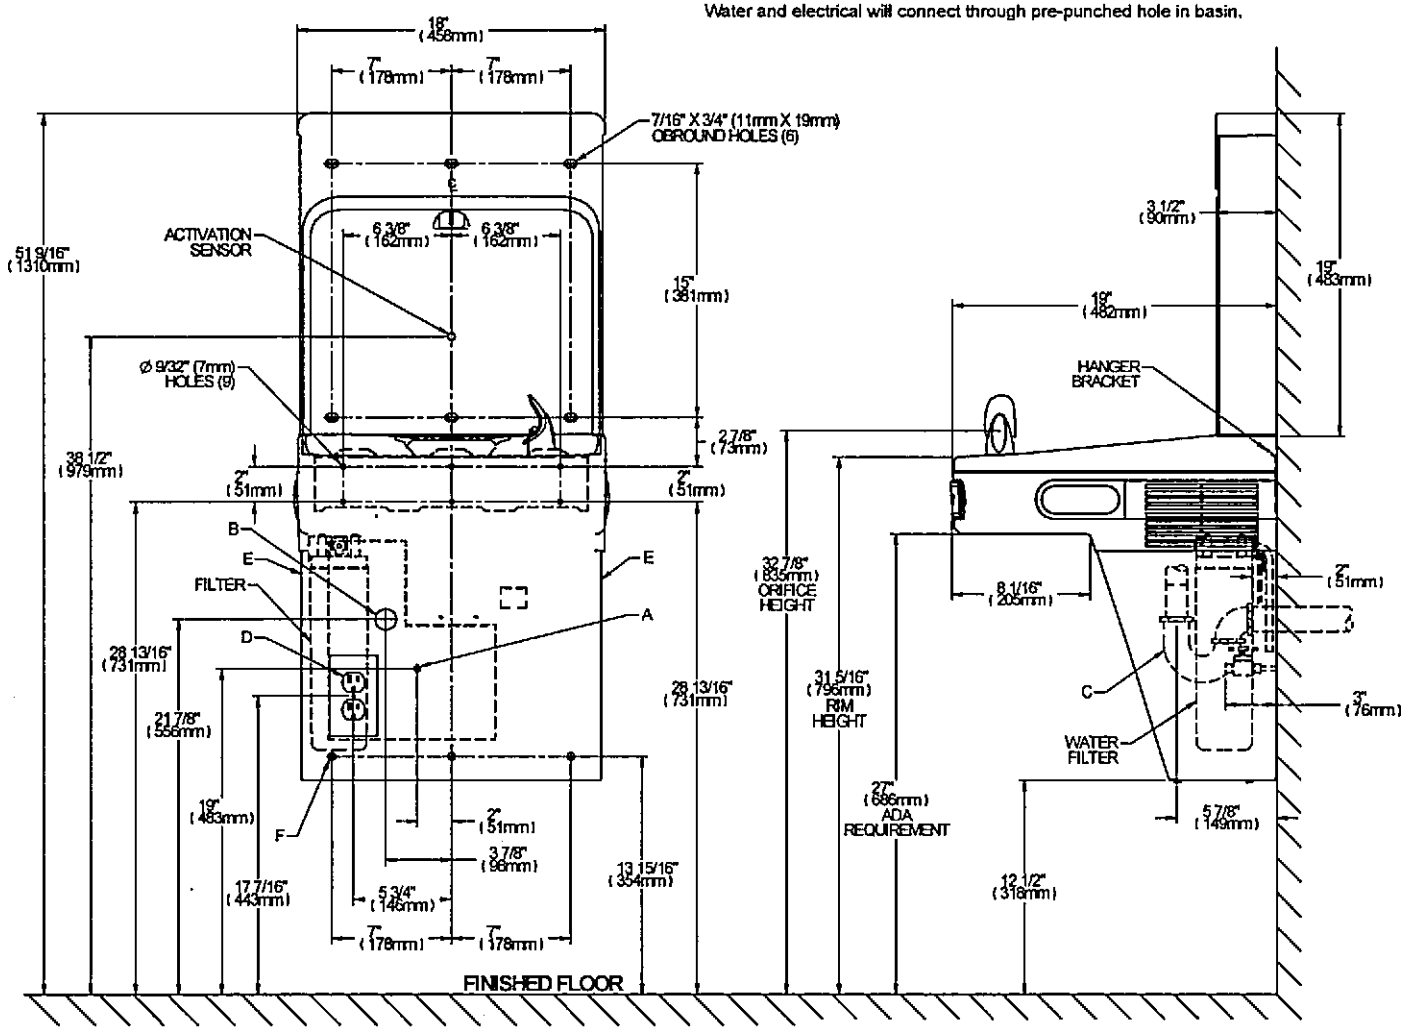
ELKAY® ROUGH-IN DIMENSIONS

RATED FOR INDOOR USE ONLY

IMPORTANT! INSTALLER PLEASE NOTE:
These units are designed and built to provide water to the user which has not been altered by materials in the cooler waterway. The grounding of electrical equipment such as telephone, computers, etc. to water lines is a common procedure. This grounding may be in the building but may also occur away from the building. This grounding can cause electrical feedback into a water cooler creating an electrolysis which results in a metallic taste or an increase in the metal content of the water. This condition is avoidable by installing the cooler using the proper materials as shown.

NOTICE
This water cooler must be connected to the water supply using a dielectric coupling. The cooler is furnished with a non-metallic strainer which meets this requirement. The drain trap which is provided by the installer should also be plastic to completely isolate the cooler from the building plumbing system.

Bottle Filler unit will mount on bracket attached to wall by 6 holes (as shown). Water and electrical will connect through pre-punched hole in basin.



REDUCE HEIGHT BY 3 INCHES FOR INSTALLATION OF CHILDRENS ADA COOLER

LEGEND:
A = Recommended Water Supply location. Shut-off Valve (not furnished) to accept 3/8" O.D. unplated copper tube. Up to 3" (76mm) maximum out from wall.
B = Recommended Waste Outlet location. To accommodate 1-1/4" nominal drain. Drain stub 2" (51mm) out from wall.
C = 1-1/4" Trap (not furnished).
D = Electrical Supply (3) Wire Recessed Box Duplex Outlet.
E = Insure proper ventilation by maintaining 6" (152mm) minimum clearance from cabinet louvers to wall.
F = 7/16" (11mm) Bolt Holes for fastening to wall.
NOTE: Installations Must Use Ground Fault Circuit Interrupter (GFCI).

REAL ESTATE DEVELOPMENT + MANAGEMENT

LURVEYWHITEVENTURES

January 21, 2016

Mr. Mark Bouvy
SOM Department of Education
1235 West Court Street
Flint, Michigan 48503

RE: Flint Water Crisis / MSD
MSD Campus, Flint, MI

Dear Mark,

Please consider this as an update regarding the most recent information regarding the Flint Water Crisis and our continued efforts to ensure that the water made available to all students is as safe as possible given this community wide crisis. Per our understanding the State of Michigan Department of Education through the administration at the Michigan School for the Deaf took the initiative to test the school for lead when the city wide issue was discovered in the fall 2015. At which time the school building tested negative. However as a precaution the school advised students and staff to cease using the water for drinking and made water coolers available in all areas of the building. As concerned Landlords of the property we observed announcements from the State calling for funds to replace old faucets in public school buildings. Since the dormitory was constructed by the State in the 50's Lurvey White felt compelled that some of the older faucets might contain lead and may need to be replaced. As a precautionary measure we took the initiative to test the water for which a test came back positive for containing lead on January 15, 2016. All other testing has provided no trace of lead at both the Michigan School for The Deaf school building, as well as Powers Catholic High School. Both schools share the same campus wide water loop.

In recent weeks, the State DEQ, The City of Flint, and most recently an UM-Flint Symposium regarding safe levels for ingestion of lead, as well as equations that support leaching have publicized varying information. The underlying theme to the information provided is that the most prevalent circumstances for exposure to lead, over the DEQ's accepted levels, are water systems which have lead service lines, older faucets which are more likely to have a lead content and lead solder connections.

Prior to 2012, the State operated the dormitory since it's occupancy in the early 1950's. Although we don't have specific knowledge of upgrades throughout the years, no lead service lines are evident in the building. The water supply lines, and branch lines are copper and look to have been replaced at some point in its history. We do not know the age of the faucets and/or the older dated fountains.

The unknown composition of the faucets is a concern that we feel we need to address in a proactive and swift manner to ensure that no lead exposure occurs at that point of use. **We will be working around the clock this coming weekend, January 23, and January 24, to replace all (62) faucets located in the dormitory building. Additionally, the following weekend, we plan to install (3) new watering stations at specific locations designated throughout the dormitory. These stations will**

LURVEYWHITEVENTURES

have point of use filtering for lead, particulates, odor and microbial. A bottle filling station to assist with bottled water for the dormitory students is also included. I have attached specifications for your records.

Additionally, we plan to follow these installations with lead tests but understand that the school and DEQ will be the primary parties responsible for ongoing lead testing in the facility. It is our hope that the replacement will result in Lead free tests in the building. However we believe that it is important the school continue to follow all precautionary measures that the government has outlined until such advisements change.

We feel that rather than wait for potential outside assistance, we cannot delay taking action. The safety of the students is paramount to any other scenarios which may arise out of the Flint Water Crisis.

Please feel free to contact me directly with any questions or further concern.

Very truly,

David W. Lurvey
Partner

- Laminar Flow provides minimal splash
- Real Drain System eliminates standing water
- Cooler panel finishes: Light Gray Granite Vinyl Clad Steel or Stainless Steel
- Automatic filter status reset with each filter change

COOLING SYSTEM

- Compressor: hermetically-sealed, reciprocating type, single phase. Sealed-in lifetime lubrication.
- Condenser: Fan cooled, copper tube with aluminum fins. Fan motor is permanently lubricated.
- Cooling Unit: Combination tube-tank type. Self-cleansing. Continuous copper tubing with stainless steel tank. Fully insulated with EPS foam which meets UL requirements for self-extinguishing material.
- Refrigerant Control: Refrigerant R134a is controlled by accurately calibrated capillary tube.
- Temperature Control: Electronic temperature control requires no adjustment
- Temperature Sensing Device: Fully solid-state temperature sensing has no moving parts.

CONSTRUCTION

- Stainless Steel basin with integral drain
- Galvanized structural steel cooler chassis provides structural integrity
- Stainless Steel bottle filler wrapper with ABS plastic alcove
- Cooler cabinet available as Light Gray Granite Vinyl Clad Steel or Stainless Steel (additional cost) construction
- Flexi-Guard® Safety Bubbler utilizes an infused anti-microbial pliable polyester elastomer to prevent accidental mouth injuries. Flexes on impact.

Replacement Filters: Available as Singles and Multi-packs. Order part numbers:

- 51300C (single)
- 51300C_3PK (three)
- 51300C_12PK (twelve)
- 51300C_24PK (twenty-four)
- 51300C_48PK (forty-eight)

Optional:

- Remote access to unit information/diagnostics Contact Elkay or order P/N 1000001858

Warranty: 5 year limited warranty on the unit's refrigeration system. Electrical components and water system are warranted for 12 months from date of installation or 18 months from factory shipment, whichever date falls first.

CAPACITIES CHART

SPEC00259 (04/2015)

EZH2O® Bottle Filling Station with Filtered Single LZ Cooler Model Enhanced LZS8WSLP & LZS8WSSP

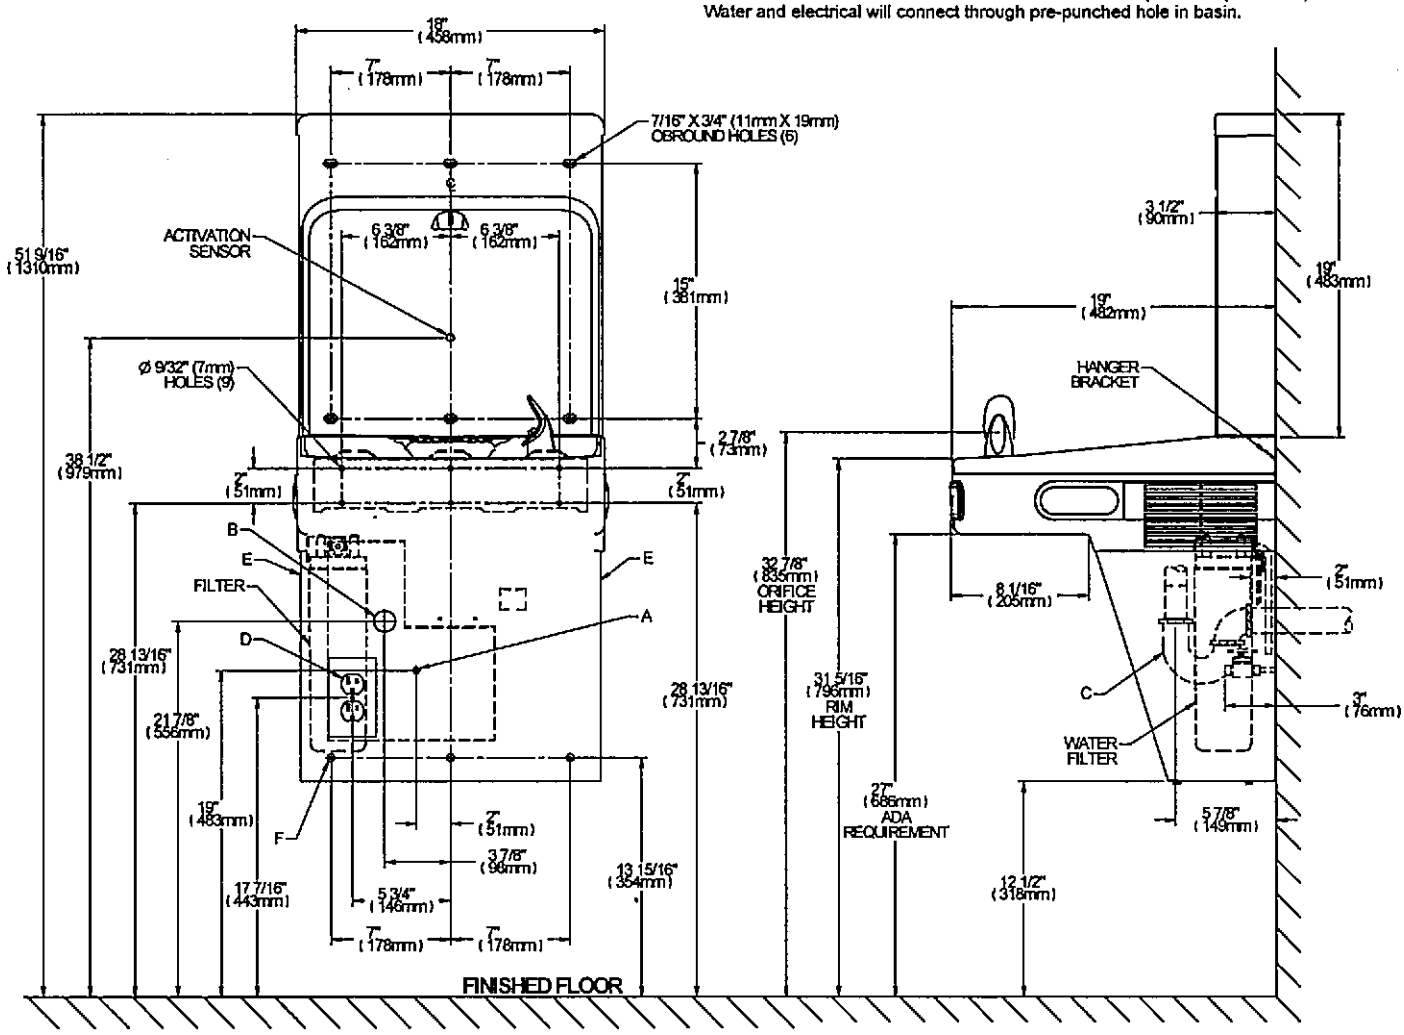
ELKAY® ROUGH-IN DIMENSIONS

RATED FOR INDOOR USE ONLY

IMPORTANT! INSTALLER PLEASE NOTE:
These units are designed and built to provide water to the user which has not been altered by materials in the cooler waterway. The grounding of electrical equipment such as telephone, computers, etc. to water lines is a common procedure. This grounding may be in the building but may also occur away from the building. This grounding can cause electrical feedback into a water cooler creating an electrolysis which results in a metallic taste or an increase in the metal content of the water. This condition is avoidable by installing the cooler using the proper materials as shown.

NOTICE
This water cooler must be connected to the water supply using a dielectric coupling. The cooler is furnished with a non-metallic strainer which meets this requirement. The drain trap which is provided by the Installer should also be plastic to completely isolate the cooler from the building plumbing system.

Bottle Filler unit will mount on bracket attached to wall by 6 holes (as shown). Water and electrical will connect through pre-punched hole in basin.



REDUCE HEIGHT BY 3 INCHES FOR INSTALLATION OF CHILDRENS ADA COOLER

LEGEND:
A = Recommended Water Supply location. Shut-off Valve (not furnished) to accept 3/8" O.D. unplated copper tube. Up to 3" (76mm) maximum out from wall.
B = Recommended Waste Outlet location. To accommodate 1-1/4" nominal drain. Drain stub 2" (51mm) out from wall.
C = 1-1/4" Trap (not furnished).
D = Electrical Supply (3) Wire Recessed Box Duplex Outlet.
E = Insure proper ventilation by maintaining 6" (152mm) minimum clearance from cabinet louvers to wall.
F = 7/16" (11mm) Bolt Holes for fastening to wall.
NOTE: Installations Must Use Ground Fault Circuit Interrupter (GFCI).

LURVEYWHITEVENTURES

January 21, 2016

Mr. Mark Bouvy
SOM Department of Education
1235 West Court Street
Flint, Michigan 48503

RE: Flint Water Crisis / MSD
MSD Campus, Flint, MI

Dear Mark,

Please consider this as an update regarding the most recent information regarding the Flint Water Crisis and our continued efforts to ensure that the water made available to all students is as safe as possible given this community wide crisis. Per our understanding the State of Michigan Department of Education through the administration at the Michigan School for the Deaf took the initiative to test the school for lead when the city wide issue was discovered in the fall 2015. At which time the school building tested negative. However as a precaution the school advised students and staff to cease using the water for drinking and made water coolers available in all areas of the building. As concerned Landlords of the property we observed announcements from the State calling for funds to replace old faucets in public school buildings. Since the dormitory was constructed by the State in the 50's Lurvey White felt compelled that some of the older faucets might contain lead and may need to be replaced. As a precautionary measure we took the initiative to test the water for which a test came back positive for containing lead on January 15, 2016. All other testing has provided no trace of lead at both the Michigan School for The Deaf school building, as well as Powers Catholic High School. Both schools share the same campus wide water loop.

In recent weeks, the State DEQ, The City of Flint, and most recently an UM-Flint Symposium regarding safe levels for ingestion of lead, as well as equations that support leaching have publicized varying information. The underlying theme to the information provided is that the most prevalent circumstances for exposure to lead, over the DEQ's accepted levels, are water systems which have lead service lines, older faucets which are more likely to have a lead content and lead solder connections.

Prior to 2012, the State operated the dormitory since it's occupancy in the early 1950's. Although we don't have specific knowledge of upgrades throughout the years, no lead service lines are evident in the building. The water supply lines, and branch lines are copper and look to have been replaced at some point in its history. We do not know the age of the faucets and/or the older dated fountains.

The unknown composition of the faucets is a concern that we feel we need to address in a proactive and swift manner to ensure that no lead exposure occurs at that point of use. **We will be working around the clock this coming weekend, January 23, and January 24, to replace all (62) faucets located in the dormitory building. Additionally, the following weekend, we plan to install (3) new watering stations at specific locations designated throughout the dormitory. These stations will**

LURVEYWHITEVENTURES

have point of use filtering for lead, particulates, odor and microbial. A bottle filling station to assist with bottled water for the dormitory students is also included. I have attached specifications for your records.

Additionally, we plan to follow these installations with lead tests but understand that the school and DEQ will be the primary parties responsible for ongoing lead testing in the facility. It is our hope that the replacement will result in Lead free tests in the building. However we believe that it is important the school continue to follow all precautionary measures that the government has outlined until such advisements change.

We feel that rather than wait for potential outside assistance, we cannot delay taking action. The safety of the students is paramount to any other scenarios which may arise out of the Flint Water Crisis.

Please feel free to contact me directly with any questions or further concern.

Very truly,

David W. Lurvey
Partner

Donations Management Plan

This plan was designed to support donations management of the Flint Recovery Effort and assist with the coordination of material and financial donations.

I. Needs Assessment of Individuals

To ensure the donations are meeting the needs of Flint residents, a communication system to track the needs and make adjustments of requested donations is outlined below.

A. Identifying and Meeting Individual Needs

- 211 will provide a report to identify trends from the information they have collected – demographics of who requested assistance and what services they requested
- 211 will be listed as the number for people to call, to allow all information regarding requests for assistance or offers to help to go to one location. The system will assist people with understanding how to volunteer/donate or receive assistance for the Flint water issues.
- To manage the increase of calls and manage caller volume, 211 will partner with other communities 211 operators
- Information is being collected that identifies people who need assistance with installations and other face to face contact.
- Information will be tracked to identify needs and determine if additional donations need to be requested. 211 will provide regular updates.

II. Material and In-Kind Donations

When donation arrangements have been made, Wendy and Pam will be sent and email alert by Janet.

A. Donation List

- Materials: Water – individual bottles, gallon jugs, and larger.
- In-Kind: Labor to install filters, trucks to deliver materials
  Donors should be directed to Janet Hunter HunterJ8@michigan.gov
  Internal Phone to provide to donors not for publication: cell 989-763-9421

B. Publicize Items to Donate

- The donation list will be sent to partners to post with their networks and post on state, county, and city sites and social media
- Donation items and drop off locations will be listed in a press release.
- Press releases will inform public of donation opportunities
- Government organizations and community partners will be asked to post on their web-sites and social media
- 211 will have all information to share with those who contact them
- Additional information requests for donating can be directed to the Michigan Community Service Commission, Janet Hunter HunterJ8@michigan.gov

B. Warehouse Location – Drop off Location for Large Donations of Water

- A warehouse location to store surplus of donations is located at: 4315 Clio Rd, Flint, MI
  Refer interested donors that have more than one semi truck of water to Janet Hunter HunterJ8@michigan.gov (Internal Phone, not for publication: cell 989-763-9421)

C. Public Drop off locations of Water

- Donations will be tracked at the sites.
- Inventory and burn rates will be tracked to identify need for donations.
- Small Water Donations: – cases and pallets 100 cases or less deliver to:
  Monday - Friday 9:00 am - 4:00 pm Catholic Charities Center for Hope 517 E. Fifth Ave
  Saturday -Sunday 9:00 am – 4:00 pm Red Cross 1401 Grand Traverse
- Large Water Donations – 100 cases or more, one Semi Truck
  Monday - Friday 8:00 am - 4:30 pm Food Bank of Eastern Michigan 2300 Lapeer Rd
  810-239-4441 If Food Bank receives donations offers of more than one semi truck or if they are full, they will refer donor to Janet Hunter to make arrangements to donate to the warehouse.

III. Cash Donations www.flintkids.org

A. Financial Donations

- United Way, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have come together to create a fund that will address both the short-term and long-term needs of Flint residents. The Community Foundation is managing all financial donations and no administrative fee is assessed Direct Donation requests to www.flintkids.org or phone 810-232-8121 (United Way) 810 -767-8279 (Community Foundation of Greater Flint)

l Information
Identified open educational buildings wholly or partially located within Flint, Burton or Mt. Morris based on city of physical location or per Entity Educational Master OR school district geographically located within the three.
Nonpublic buildings included even though no staff or students counts are available.
Included Early Childhood in addition to students reported in K-12 and Adult Ed.
Based on Fall 2015 students and staff counts
Includes educational administrative buildings with only staff (building code = 00000)

ɔurces:

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 5, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- **EBL report through 1/5/2016**
  - **20 families contacted**
  - **13 EBL investigations completed.**
  - **11 Water sampling completed.**
  - **6 EBL Reports Received.**
    - **4 homes with lead dust hazards**
    - **3 homes with lead in soil hazards**
    - **6 homes with lead-based paint hazards**
    - **2 homes with lead detected in tap water**
  - 6 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- HHS staff will accompany contractors on investigations to confirm compliance with protocols. Scheduled for 1/6/16.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- **CM report through 12/31/15:**
  - **# of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)**
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - **# CM started: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)**
  - # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)
- **Families that have moved to other counties**
  - **Tuscola – contact made, local PH nurse advised the parent to get a follow-up venous test to confirm the elevated capillary test from October; around December 16, PCP at Hurley did a capillary instead of venous despite parent's request for a venous test. CM home visit scheduled for this week (parent was living with a relative, just moved into her own home this week).**
  - **Macomb – contact made, had not gone out yet as of 12/16; we are waiting for an update.**
  - **Oakland – waiting for a call back to give us updates.**

- **Livingston – contact made, parent accepted information over the phone, declined the home visit.**
- **Sanilac – waiting for a call back to give us updates.**

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **MDHHS IRB approved Dr. Hanna-Attisha's research project.**
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

Filter Distribution 10/1/15 to 12/31/15			
	Received	Distributed	Remaining
Water Filters	15,000	11,415	3,585
Water Pitchers	720	235	485
Replacement Cartridges - Brita	9,000	1,475	7,525
Replacement Cartridges – PUR*	5,706	4	5,632
Replacement Cartridges - Zero	375	5	370

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly (Tues. 8:00 am) coordination call with DEQ/LARA/HHS.**
- **GCHD (Jim Henry) is working with Flint residential child care facility to further evaluate lead levels in tap water. All current residents are > 6 years of age and have had venous blood tests: the highest was 2.3 mg/dL, most were <0.5 mg/dL.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- **Provided final/updated versions of the final documents to Angela Minicuci for posting on the MDEQ website (MB)**
  - **Phosphate Fact Sheet**
  - **How to Clean your Aerator Fact Sheet**
  - **Hey Flint, It's Safe to Wash poster (update)**
- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Pending: Filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)
- Pending: Lead and Nutrition fact sheet and Flint Parent Letter revisions.

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- **Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.**
- Reviewing copper drinking water action level.

WIC

- No updates.

Healthcare/Providers

- Medical Services Administration: Letter L 15-73, dated December 30, 2015, Blood Lead Guidelines to Address the City of Flint Residents' Potential Exposure to Lead, was sent to Practitioners, Clinics, Laboratories and Maternal Infant Health Program (MIHP) Providers in the City of Flint.

DEQ Information - Linda Dykema as Liaison

- **The DEQ laboratory will notify HHS (Linda Dykema) of water sampling results > 100 ppb to allow for immediate public health actions to interdict exposure to high lead levels in Flint drinking water. Notification will only be provided for results from the free water testing offered by the city, not the public schools where taps have been taken out of use.**
- **DEQ has completed water sampling at 10 Flint Public School facilities. 3 reports are completed and posted. 10 private schools and/or day care centers are on the waiting list. DEQ filmed sampling and will post the completed video on their web page as a demonstration of the intensity and completeness of the plumbing evaluation and water sampling efforts.**
- The DEQ reported lead water levels of 213 and 2,516 ppb in a residential Flint child care facility. DEQ contacted the facility on 12/30/15 and instructed them not to use those taps for drinking water consumption.

DATE: October 16, 2015

SUBJECT: National School Lunch Program: Michigan Request for Waiver of the Potable Water Requirement – Approval

TO: Julie Mikkelson
Program Director
Special Nutrition Programs
Midwest Regional Office

This letter is in response to a request from the Michigan Department of Education (DoE) to waive the potable water requirement in the Richard B. Russell National School Lunch Act, 42 U.S.C. 1758, Section 9(a)(5), and found in regulations at 7 CFR 210.10(a)(1)(i). The requirement provides that schools must make available during the school lunch program free potable water where meals are served. The Michigan DoE has requested this waiver on behalf of the Flint Community Schools in Flint, Michigan, because the public water source for Flint residents is contaminated with high levels of lead. The waiver request is approved.

A public health emergency was declared by Genesee County, in which Flint is located, due to evidence of increased lead levels in children because of contaminated water. The high lead levels in the Flint area water system are a result of corrosive water from the Flint River degrading the lead service lines and city pipes that it passes through.

Because of financial challenges within the Flint Community Schools district, the district does not have surplus funds available to pay for the large volumes of bottled potable water that would be needed to meet the requirement until the public water contamination issues are resolved. The schools will continue to use bottled water for food preparation.

Based on the seriousness of the problems within the Genesee County water system, FNS is waiving the requirement that the Flint Community Schools make potable water available to students during the lunch service for the remainder of the 2015-2016 school year.

We recognize that repairing the water supply system is a long term and costly project, but ask that the Michigan DoE apprise FNS of the progress of repairs to the water supply system before the beginning of school year 2016-2017 in order to determine if it is necessary to extend the waiver request.

If you have questions, please contact Tina Namian, Chief, School Programs Branch at 703-305-2634.

CENTER FOR EDUCATIONAL PERFORMANCE AND INFORMATION

Technical Notes

MICHIGAN Department of Education

This dataset was created by the Center for Educational Performance and Information (CEPI) for Flint Water Task Force
Please cite CEPI when using these data. See Citing CEPI Data for guidelines.
Accessibility. This document can be produced in an accessible format. If you use an assistive technology and wish to have an accessible version, please contact CEPI.

General Information	
1.0	Identified open educational buildings wholly or partially located within Flint, Burton or Mt. Morris based on city of physical location or per Entity Educational Master OR school district geographically located within the three.
2.0	Nonpublic buildings included even though no staff or students counts are available.
3.0	Included Early Childhood in addition to students reported in K-12 and Adult Ed.
4.0	Based on Fall 2015 students and staff counts
5.0	Includes educational administrative buildings with only staff (building code = 00000)

Data Sources:	
1.0	Michigan Student Data System
2.0	Registry of Educational Personnel
3.0	Educational Entity Master

Base Population:	
1.0	All students reported by an operating building identified above in the Fall 2015 collection.
2.0	All staff reported by an operating building identified above in the Fall 2015 collection.
3.0	

Output:	
1.0	Type - Public/Nonpublic
2.0	District Code
3.0	District Name
4.0	Building Code
5.0	Building Name
6.0	Address
7.0	City
8.0	Zip
9.0	Main Phone Number
10.0	Student Count
11.0	Staff Count

Notes:	
1.0	Early Childhood providers are not required to report staff counts to the Registry of Educational Personnel
2.0

810-591-5120	jyake@geneseeisd.org	Not on the City of Flint water.
(810) 234-3603	BFLANAGIN@whaleychildren.org	We do use filters and alternate sources of drinking water for our children.
(810) 733-3820	fwoelmer@co.genesee.mi.us	We do not use the same water source as the City of Flint and are not facing any potable water issue
(810) 2396733	mbuck@stpaulflint.com	Thank you for your concern regarding the use of Flint water at St. Paul Lutheran School. We have been using bottled water and water filters in the kitchen. All drinking fountains in the building have been closed since September, 2015. We have several Culligan water dispensers throughout the building and provide bottled water daily to all students and staff. We are scheduled to have additional testing done later in January on our water and plumbing by the Michigan Department of Environmental Quality
8102355687	ldaniel@sjvkids.org	We have donated water bottles that we have been using. I don't know that we have enough to last for the whole year.
(810) 235-8572	rjkaplanspx@gmail.com	
810-591-4467	tknag@geneseeisd.org	Kearsley Community School District does not use City of Flint water.
(810) 591-2392	jpechette@swcrk.org	

(810) 257-1464	dunkles@MICHIGAN.GOV	No students are currently drinking unfiltered City water at Michigan School for the Deaf. We have installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in our cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories. We began this new procedure in September after the announcements about lead contamination.
810 600 6466	debra.rosebush@gstema.org	Email returned
616-954-2028	lkooy@nhaschools.com	
(810) 736-1645	jbartelson@richfieldpsa.org	Donated bottled water
(586) 731-5300	tammy@therominegroup.com	Madison Academy does NOT use Flint Water.
586-477-8808	tammy@therominegroup.com	The New Standard uses only bottled water. We get our food from Cj's Catering in Warren-Macomb County. All school water fountains are turned off. All veggies and fruits are washed at the vendors facility. All food comes ready to serve. All pans are disposable and all utensils are sent back with the vendor to be washed and returned the next day.
2487560046	cravent@greaterheightsacademy.org	No, our school (Greater Heights Academy) receives water from Mt. Morris.
3134448082	paul.fershee@wayprogram.net	WAY Academy provides bottled water to all school participants. Please let me know if you have further questions.

NOTES:

ppb = parts per billion

Lead values exceeding 15 ppb and Copper results exceeding 1,300 ppb are highlighted in red.

Sample results of "Not Detected" have been replaced with a numerical value of zero for ease of sorting.

Samples without a zip code did not have one provided on the accompanying paperwork.

*** = Invalid Zip Code

Lead in Drinking Water - Frequently Asked Questions

WQA proudly serves as an educator of water treatment professionals, certifier of water treatment product, public information resources and voice of the water quality improvement industry. This document addresses frequently asked questions about lead in drinking water, developed by staff at WQA.

1. ***Where can I find the latest updates on the drinking water crisis in Flint, Michigan?***
   The EPA has established the Flint Safe Drinking Water Task Force to provide the latest news to Flint residents. Below is the link to the taskforce website and to the Flint, Michigan website:
   http://www.epa.gov/flint
   http://mi.gov/flintwater

2. **How can lead get into the water supply?**
   Studies indicate nearly all the lead in users' tap water does not come from the primary water source or from the municipal treatment plant, but is a result of corrosion resulting from materials containing lead coming into contact with water after it leaves the treatment plant.[1] Lead can enter a home's drinking water by leaching from lead service connections, from lead solder used in copper piping, and from brass fixtures.

3. **What are potential health effects from lead?**
   Lead poisoning often shows no symptoms; however, signs such as irritability, weight loss, vomiting, constipation, or stomach pain could occur.[2] Young children and pregnant women are at the greatest risk, even from short-term exposure. Reduced cognitive development and neurobehavioral deficits are associated with blood levels less than 10 micrograms of lead per deciliter of blood (µg/dL) in children.[2] Thus, it is determined there is no safe blood lead level in children.[3] Individuals will adsorb more lead if they have poor nutrition than those with better diets. To learn more, read the information on the Centers for Disease Control's (CDC) website:
   http://www.cdc.gov/nceh/lead/acclpp/blood_lead_levels.htm

4. **Where can I go to get my water tested?**
   WQA strongly recommends water testing be conducted at each point of use following appropriate sampling procedures capturing lead levels after a period of disuse before a specific water treatment product is selected. *Water conditions can change, test water before treatment has been installed and continue testing after installation.*

   The EPA website is a resource to find EPA and state-accredited laboratories that can perform a water analysis:
   http://water.epa.gov/scitech/drinkingwater/labcert/statecertification.cfm

   All the certified laboratories in Michigan are listed on the web page below:
   http://michigan.gov/documents/deq/deq-rrd-Lab-ChemistryLabsListCertifications_429759_7.pdf

5. **How do I find a certified professional?**
   To find a water treatment professional (WQA member) in your area, please visit the link below and search by your location: http://www.wqa.org/Find-Providers

   To find certified water professionals who have completed WQA's professional certification program, please visit this link and search by your state: http://www.wqa.org/Programs-Services/Resources/Find-Providers/Find-Certified-Professionals

4151 Naperville Road
Lisle, Illinois 60532-3696 USA
Phone 630-505-0160
www.wqa.org

630-505-0610
David Loveday, Director Government Affairs
Kathleen Fultz, Regulatory and Government Affairs Coordinator

6. **Where do I find a product certified for lead reduction?**
American National Standards Institute (ANSI) accredited entities offering product certification include: Water Quality Association's Product Certification Program, NSF International, International Association of Plumbing and Mechanical Officials, and Underwriters Laboratory. All of these certifiers have product listings. To find WQA certified products for lead reduction and links to the manufacturer's website, consumers can visit wqa.org. Products certified through WQA's Product Certification Program have been tested and certified to the material safety requirement and contaminant reduction claim(s) as specified by the standard. Products displaying the WQA Gold Seal provide assurance that they have been rigorously tested and meet the requirements of the standard, ensuring they are actually effective for the contaminants which are covered by the marketing claims. Factory audits are performed by WQA on a regular basis to ensure there are no changes to the product which would negatively impact safety or performance. WQA is also audited yearly by ANSI to keep its accreditation. Confirmation of WQA's accreditation can be found on ANSI's website.

7. ***Does a "lead-free" claim mean the product can remove lead from the water?***
No, a product is considered compliant with the "lead-free" standard, NSF/ANSI 372, if its weighted average lead content is no greater than 0.25%. This certification is to standard NSF/ANSI 372 and is not a claim that the product completely removes any trace of lead from the water.

8. **How do I maintain a filter once it is installed?**
Studies have shown the reported levels of lead found in some Flint, MI water results are higher than conditions under which the manufacturer set the replacement recommendations in published manuals.[4] Consumers should contact a water treatment professional as described above, or follow the equipment manufacturer's installation instructions and contact the manufacturer to confirm usage and capacity. To ensure the manufacturer can provide the most accurate recommendations, have test results for lead and iron on hand for review.

9. **What treatment methods can be used at the tap or whole-house?**
Lead can exist in water in a broad array of forms, therefore, more than one type of technology may be needed for adequate removal. **Soluble** (or dissolved) lead may be removed by ion exchange, reverse osmosis, adsorption, or distillation. Insoluble (or **particulate**) lead may be removed by fine filtration and adsorption as well as by reverse osmosis and distillation.

Solid block and precoat adsorption filters, using a mixture of activated carbon and a lead adsorbent, can remove particulate lead by filtration and adsorption, and soluble lead by adsorption. Contact time, type and size of activated carbon and the lead adsorbent material, flow rate per unit area, and the design of submicron filter void sizes to ensure effective filtration of the lead species are critical to the success of this treatment technology. Removal of lead by **reverse osmosis** is effective because the membrane removes the soluble lead and also acts as a barrier to particulate lead. **Strong-acid cation exchange softeners** only remove soluble lead, and will not remove particulate lead. Properly designed and operated **distillation** units are capable of reducing both forms of lead.

System performance characteristics should be verified by tests conducted under established test procedures and water analysis. Thereafter, the resulting water should be monitored periodically to verify continued performance. The application of the water treatment equipment must be controlled diligently to ensure acceptable feed water conditions and equipment capacity are not exceeded. Use certified products recommended by water treatment professionals. Visit WQA.org to locate water professionals in your area. Read more about water treatment in WQA's technical fact sheet on lead:
https://www.wqa.org/Portals/0/Technical/Technical%20Fact%20Sheets/2014_Lead.pdf

David Loveday, Director Government Affairs
Kathleen Fultz, Regulatory and Government Affairs Coordinator

10. How do you determine if the lead in drinking water is particulate, dissolved, or a percentage of both?

It is important to establish the exact water quality parameters in each home when installing water treatment products in Flint. Some homes were found to contain high levels of lead, including particulate lead, far exceeding the conditions under which water treatment devices are tested and certified. For example, the water in LeeAnne Walter's home was found to contain up to 13,200 ppb of lead.[4] Due to the unusually high levels of lead found in Flint, including particulate lead, WQA recommends water treatment professionals in Flint test before and after installation of treatment even when installing a certified device. Field sampling kits for dissolved and total lead can be obtained through a local certified drinking water laboratory, or through the WQA laboratory.

11. What types of exposure to drinking water with lead should I be concerned about?

Lead in drinking water is mostly inorganic leached from lead contained in plumbing. Ingestion is the route of most concern for lead than dermal exposure, although organic lead is of concern for dermal exposure. Examples of organic lead would be tetraethyl lead and tetramethyl lead, not generally found in drinking water, however.

For more information please visit the links below:
http://www.atsdr.cdc.gov/csem/csem.asp?csem=7&po=6
https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=STANDARDS&p_id=10031

12. What can cause water to have a brown color?

A brown color is not attributed to lead in the water. This can be from iron being oxidized when it is exposed to the chlorine added to the water at the treatment plant for disinfection. Taste and odor contaminants, including iron, are mostly considered to contribute undesirable aesthetic effects, such as bad taste, odor, color or cloudiness. These contaminants and those covered under the USEPA National Secondary Drinking Water Regulations (NSDWRs) at the Secondary Maximum Contaminant Level (SMCL) may alter the appearance of the water but do not impose a health risk. The SMCL for iron is 0.3 mg/L.

As a result of corrosive conditions, iron will mostly exist in as oxidized, or ferric, iron (Fe^{3+}), and to some extent can be dissolved iron (Fe^{2+}). The visibly red or brown water when first drawn from the tap is oxidized iron. Consult with a water treatment professional for appropriate filtration methods for oxidized iron.

If water is coming out brown, it should be tested for iron levels in addition to testing for any lead concerns. Test before and after treatment has been installed, especially if filtered water turns red after a while. To learn more read WQA's technical factsheet on taste & odor contaminants:
https://www.wqa.org/LinkClick.aspx?fileticket=UzyTWNS66UY%3d&portalid=0

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

The City of Flint Did Not Meet Reporting Requirements

Our water system is required to submit lead and copper samples for compliance purposes from homes that meet certain criteria. We are required to certify that the samples are collected from the targeted homes, which we did. However, our records are incomplete, and many homes sampled did not meet the sampling criteria. Therefore, we failed to properly sample and report in compliance with the Lead and Copper Rule. Even though this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we are doing to correct this situation.

We routinely sample water at consumers' taps for lead. As you are aware, we have reconnected to the city of Detroit's water supply and will sample a minimum of 60 homes, per the requirements of the Lead and Copper Rule, as soon as possible, but no later than June 30, 2016.

What should I do?

Listed below are some steps you can take to reduce your exposure to lead:

- Continue to use the bottled water or the filter that has been distributed for ~~consumption~~eating and drinking and change the cartridge as needed.
- Call 2-1-1 if you have questions, need transportation assistance, to submit donations, or to volunteer your services.
- ~~Call us at the number below to find out how to get your water tested for lead.~~
- Find out whether your pipes contain lead or lead solder. How?
- Drink or cook with bottled or canned water that is available free at (list locations). If you must drink or cook with your tap water, Rrun your water for 15-30 seconds or until it becomes cold before using it for drinking or cooking. This flushes any standing lead from the pipes.
- Do not cook with or drink water from the hot water tap; lead dissolves more easily into hot water.
- Do not boil your water to remove lead. Excessive boiling of water makes the lead more concentrated – the lead remains when the water evaporates.
- Eating (list certain foods) can help reduce your exposure to lead.
  - ~~Continue to use the filter that has been distributed and change the cartridge as needed.~~

Comment [MDD1]: Is the message not to drink water from the tap unless it is filtered?

Comment [MDD2]: Include reference material as attachment?

Formatted: Indent: Left: 0.25", No bullets or numbering

What does this mean?

Typically, lead enters water supplies by leaching from lead or brass pipes and plumbing components. New lead pipes and plumbing components containing lead are no longer allowed for this reason; however, many older homes may contain lead pipes. Your water is more likely to contain high lead levels if water pipes in or leading to your home are made of lead or contain lead solder.

Infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water over many years could develop kidney problems or high blood pressure.

What happened? What is being done?

We collected the required number of samples; however, our records on service line materials are incomplete and we did not have the proper information to select appropriate sample locations. We are reevaluating the system and will target the correct locations for the next round of samples. We are making every effort to make sure this does not happen again and are regretful that it has contributed to the concerns over our water.

For more information, please contact _____ at _____ or

_____.

CERTIFICATION: WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Signature	Title	Date Distributed

Reminder to water supplier: This notice/certification must be sent to the Michigan Department of Environmental Quality.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CERTIFICATION: WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

NOTE: Sample results of "Not Detected have bee replaced with a numerical value of zero for ease of sorting

Lead values exceeding 0.015 mg/L and Copper results exceeding 1.3 mg/L are highlighted in red.

1 PPB = 0.001 mg/L

Samples without a zip code did not have one provided on the accompanying paperwork.

PIERCE ELEMENTARY SCHOOL

Outlet Sampling and Plumbing Assessment Recommendations

1101 West Vernon Drive, Flint, Michigan 48503

BACKGROUND INFORMATION

On Friday, November 6, 2015, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ) conducted an assessment of Pierce Elementary School's plumbing system to gain a comprehensive understanding of how water moves through the building and what types of plumbing materials are used. The southernmost out-building, in addition to the main school building, were included in the assessment. The assessment identified the following potential sources of lead leaching into drinking water:

- Lead solder joints on copper piping
- Brass valves and brass fittings
- Brass components in fixtures
- Galvanized piping

The assessment identified 34 faucets or fountains that provide water for drinking, cooking, and/or food preparation: 32 faucets/fountains in the main school building and two faucets/fountains in the southernmost out-building. The other two out-buildings had no working water fixtures. A total of five additional faucets or fountains were identified as inoperable and were not assessed or labeled for sampling, as follows:

- Main building, Room 112, classroom faucet (no cold water connection)
- Main building, Gym, drinking water fountain
- Main building, Gym, drinking water fountain
- Main building, Hallway to out-buildings, near Room 306, drinking water fountain
- Middle out-building, drinking water fountain

The DEQ and DLARA Team (Team) developed a sequence for sampling the faucets/fountains in each building based on how the water is expected to travel through each building.

On Saturday, November 7, 2015, the DEQ and the DLARA completed sampling of the 32 faucets/fountains in the main school building, and the two faucets/fountains in the southernmost out-building, each in the order determined by the plumbing assessment from the previous day, following a stagnation period of over 12 hours. At each of the 34 faucets/fountains identified, the Team collected four samples. Two initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific faucet/fountain and its connecting plumbing.

The Team then completed consecutive sampling at three of the 32 faucets/fountains in the main school building, and one of the two faucets/fountains in the southernmost out-building. This consecutive sampling was used to determine the impact of any lead sources located deep in the supply plumbing at each of these buildings. The four sites comprised of one site at the far end of the northern supply line, two sites along the south supply line near the mid-point and at the far end, and one site at the out-building. At each of these four sites, the Team collected 10, 1-liter samples. The 10 samples were collected immediately after turning on the tap, and consecutively, without any flushing time in between.

WATER SERVICE INFORMATION

A four-inch diameter cast iron or ductile iron water service line enters the boiler room. The boiler room is located near the middle of the west side of the main building. The water line enters on the south side of the room. The cold water piping transitions into copper piping inside the boiler room. In one area beneath pipe insulation, staff observed what appeared to be a lead bushing. The cold water supply line exits the boiler room. Exiting the boiler room, one cold water supply line appears to serve the north corridor, and one cold water supply line appears to serve the south corridor.

The middle and southernmost out-building appears to be served from the main building off of the supply line serving the south corridor of the school. Skirting around the bottom of the out-building unit prevented an assessment of the service line to this building. The northernmost out-building is not occupied and was not assessed.

Outlets with Lead Levels Greater than 15 Parts per Billion

The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Based on the sampling conducted at 34 faucets/fountains on November 7, 2015, the following 25 drinking water outlets had lead water level results greater than 15 parts per billion. Each of these 25 outlets is listed below with its sample results, including a description of the potential source(s) of lead, and recommended actions to be taken by the school.

Outlet: **Bubbler Drinking Fountain (01DW001)**

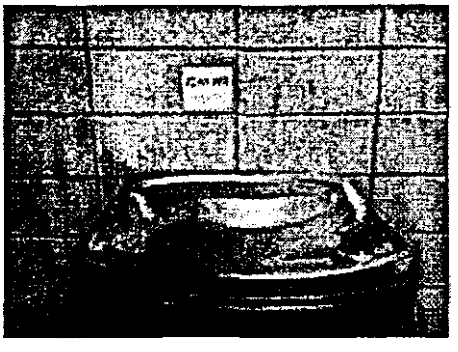
Location: Hallway next to Boiler Room, behind Stage
Results: P1=20 parts per billion, P2=2 parts per billion
F01=2 parts per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the bubbler itself. This bubbler fixture is made of chrome-plated brass. Connecting plumbing should be checked for brass components, including brass valves.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: **Water Cooler Fountain (01WC002)**

Location: Hallway next to Mechanical Room, north corridor
Results: P1=8 parts per billion, P2=13 parts per billion
F01=35 parts per billion, F02=19 parts per billion



These results suggest the lead may be from the water cooler unit and the connecting plumbing. The water cooler is an Elkay model. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Replacement of this water cooler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed for use. If replacement is not currently feasible, SHUT OFF THIS WATER COOLER FOUNTAIN AND **DO NOT USE THIS WATER COOLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF003)

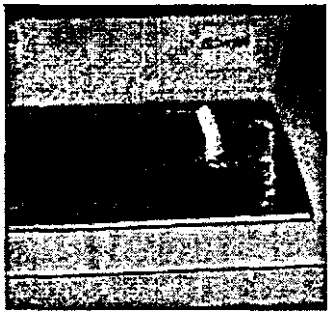
Location: Classroom 109, northeast wall
Results: P1=26 parts per billion, P2=17 parts per billion
F01=9 part per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This model faucet typically has a brass tube in its deck body, and may contain some additional brass components. Connecting plumbing in the cabinet under the sink should be checked for brass components, including brass valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW004)



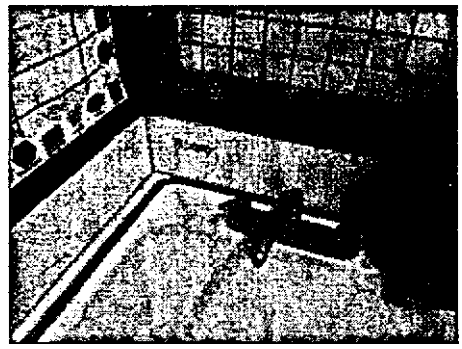
Location: Classroom 109, northwest wall
Results: P1=42 parts per billion, P2=17 parts per billion
F01=3 parts per billion, F02=1 part per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF007)

Location: Classroom 108, northwest wall
Results: P1=97 parts per billion, P2=132 parts per billion
F01=9 parts per billion, F02=2 parts per billion



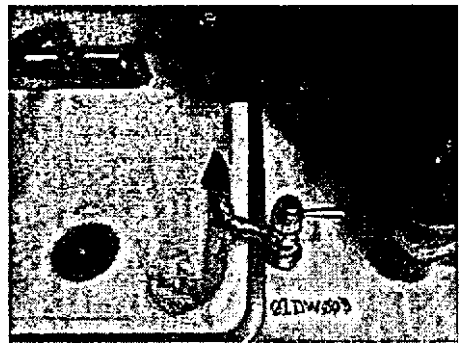
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW008)

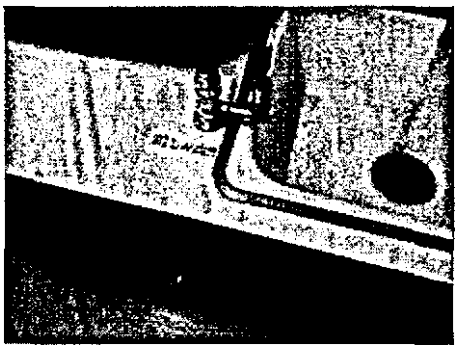
Location: Classroom 108, northwest wall
Results: P1=468 parts per billion, P2=75 parts per billion
F01=6 parts per billion, F02=4 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW009)

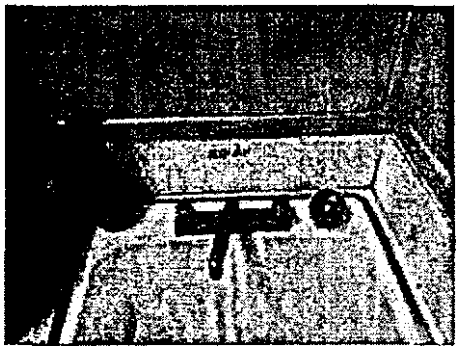


Location: Classroom 111, northeast wall
Results: P1=26 parts per billion, P2=38 parts per billion
F01=7 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF010)



Location: Classroom 111, northeast wall
Results: P1=43 parts per billion, P2=22 parts per billion
F01=3 parts per billion, F02=3 parts per billion

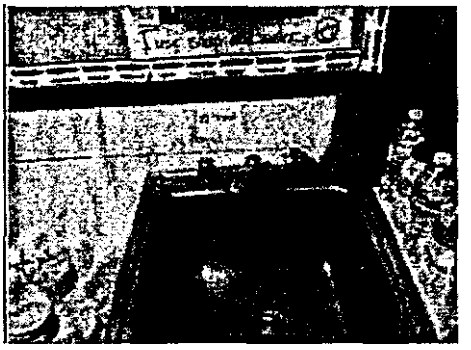
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF011)

Location: Classroom 107, southwest wall
Results: P1=25 parts per billion, P2=11 parts per billion
F01=3 parts per billion, F02=2 parts per billion



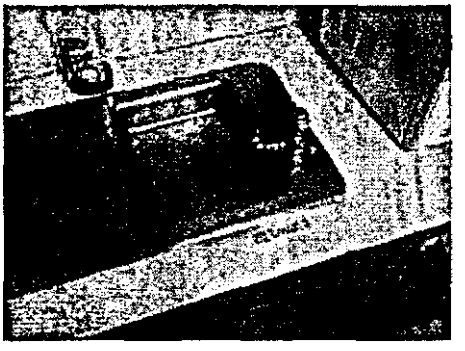
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this sink faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

At the time of assessment, the faucet aerator/screen was found removed. If the faucet is not replaced and the aerator/screen is going to be reinstalled, it should be inspected for particulate accumulations, and scrubbed clean. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW012)

Location: Classroom 112, southwest wall
Results: P1=78 parts per billion, P2=11 parts per billion
F01=4 parts per billion, F02=3 parts per billion

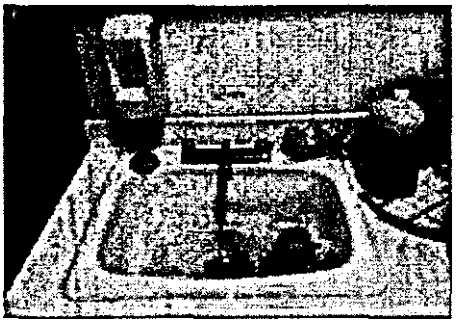


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF018)

Location: Classroom 301, northwest wall
Results: P1=13 parts per billion, P2=16 parts per billion
F01=4 parts per billion, F02=1 part per billion



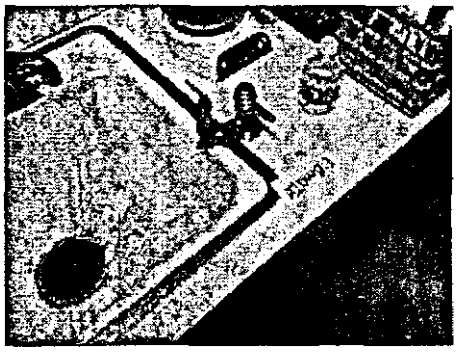
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW019)

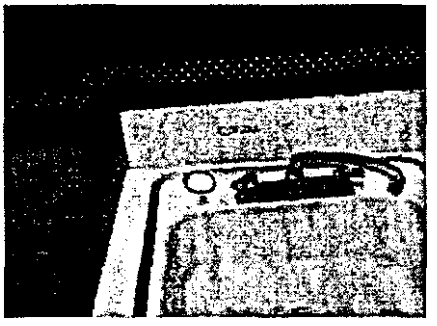
Location: Classroom 302, southwest wall
Results: P1=220 parts per billion, P2=23 parts per billion
F01=3 parts per billion, F02=2 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF020)



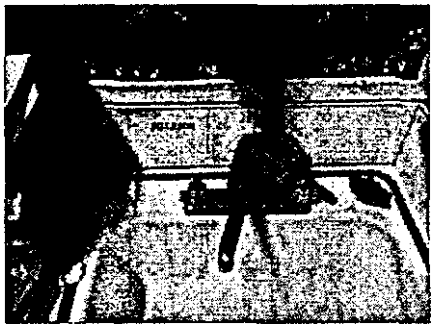
Location: Classroom 302, southwest wall
Results: P1=53 parts per billion, P2=30 parts per billion
F01=1 part per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. The base of this faucet is chrome-plated brass, has brass components within the base, and a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF021)



Location: Classroom 306, southwest wall
Results: P1=15 parts per billion, P2=50 parts per billion
F01=8 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW022)

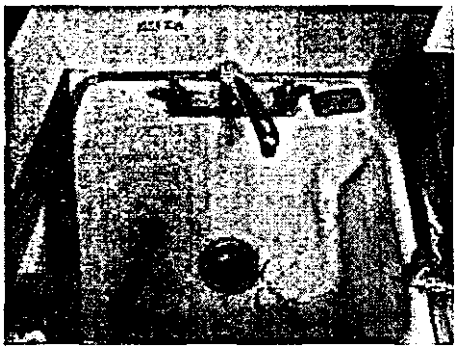
Location: Classroom 306, southwest wall
Results: P1=17 parts per billion, P2=6 parts per billion
F01=4 parts per billion, F02=13 parts per billion

These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location, along with an overall flushing program. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF023)

Location: Classroom 312, southeast wall
Results: P1=22 parts per billion, P2=14 parts per billion
F01=9 parts per billion, F02=6 parts per billion



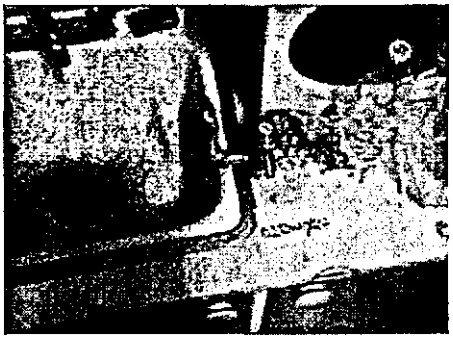
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Chicago Specialty. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW024)

Location: Classroom 312, southeast wall
Results: P1=36 parts per billion, P2=8 parts per billion
F01=6 parts per billion, F02=4 parts per billion

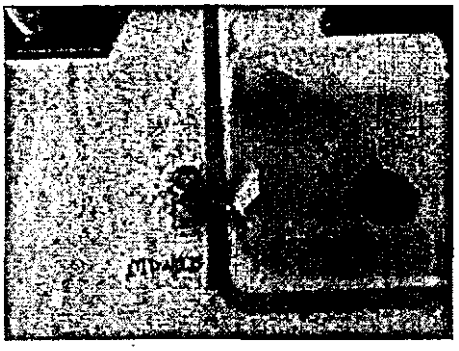


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW025)

Location: Classroom 307, southwest wall
Results: P1=191 parts per billion, P2=69 parts per billion
F01=28 parts per billion, F02=6 parts per billion



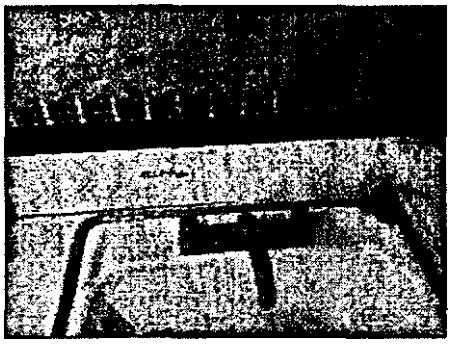
These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlet: Sink Faucet (01CF026)

Location: Classroom 307, southwest wall
Results: P1=61 parts per billion, P2=36 parts per billion
F01=7 parts per billion, F02=4 parts per billion



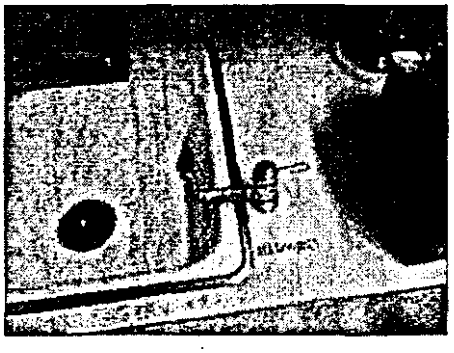
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body and, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW027)

Location: Classroom 311, southeast wall
Results: P1=23 parts per billion, P2=19 parts per billion
F01=61 parts per billion, F02=20 parts per billion

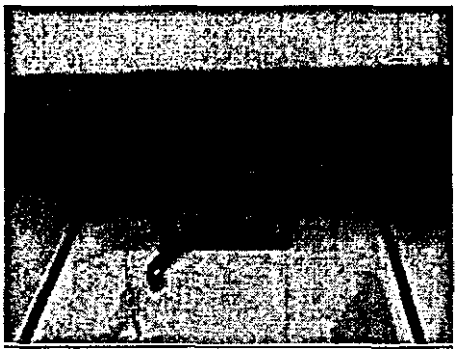


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the third (F01) and fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this bubbler is replaced. If replacement is not currently feasible, SHUT OFF THIS BUBBLER AND **DO NOT USE THIS BUBBLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF028)

Location: Classroom 311, southeast wall
Results: P1=17 parts per billion, P2=19 parts per billion
F01=38 parts per billion, F02=15 parts per billion



These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this faucet is replaced. If a replacement is not currently feasible, **DO NOT USE THIS FAUCET FOR DRINKING OR COOKING.**

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW029)

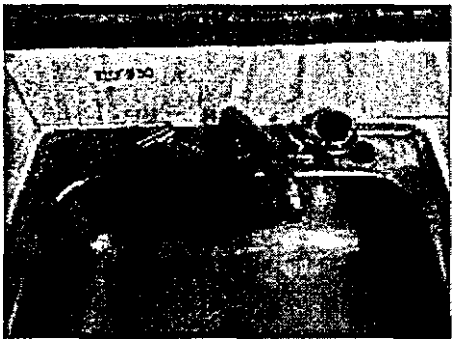
Location: Classroom 308, northwest wall
Results: P1=78 parts per billion, P2=23 parts per billion
F01=5 parts per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. The bubbler also has been modified with added copper couplings below the spout. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes.

Outlet: Sink Faucet (01CF030)

Location: Classroom 308, northwest wall
Results: P1=60 parts per billion, P2=9 parts per billion
F01=11 parts per billion, F02=3 parts per billion



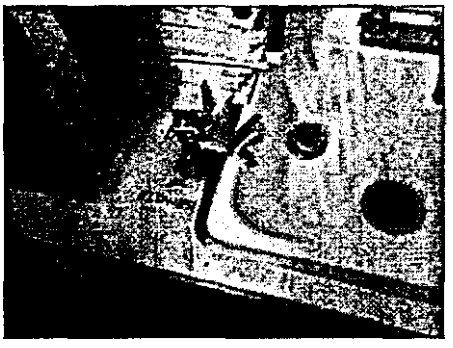
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in it deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW031)

Location: Classroom 310, northeast wall
Results: P1=29 parts per billion, P2=35 parts per billion
F01=73 parts per billion, F02=3 parts per billion

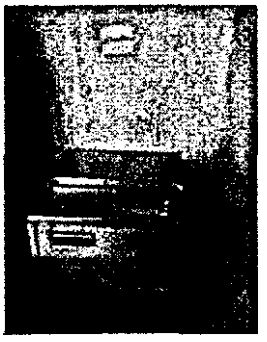


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Water Cooler (02DW034)

Location: South out-building, Temporary Classroom, northeast wall
Results: P1= non-detect, P2=54 parts per billion
F01=36 parts per billion, F02=2 parts per billion



These results suggest the lead may be from the water cooler unit. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Copper results for sample P1 at this location were also at levels above which the DEQ *recommends school facilities take action.* Copper results suggest these same brass components are contributing to this condition.

Replacement of the entire unit is recommended and will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three *minutes following periods of stagnation* is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlets with Lead Levels 15 Parts per Billion or Less

While the remaining nine outlets showed sample results to be at levels requiring no further action, several recommendations have been identified.

The fourth sample (F02) at all nine outlets following approximately three minutes of use and flushing at a reduced flow resulted in reduced lead concentrations. This indicates that flushing these nine taps used for drinking, cooking, and/or food preparation for four minutes following periods of stagnation will further reduce lead exposure.

Five of these nine outlets are comprised of similar materials as the outlets listed above and could potentially experience higher lead levels under extended periods of stagnation. These faucets/fountains include:

- Bubbler Fountains in main corridor next to Men's Restroom, east of Library (01DW017), and Classroom 100 (01DW015)
- Sink Side Bubbler Unit in Classroom 110 (01DW006)
- Chrome-Plated Brass Base Faucets in Classroom 100 (01CF013), and Classroom 310 (01CF032)

Replacement of these fixtures with lead-free materials is also recommended.

The classroom faucet and four drinking water fountains identified as out of service in the Background Information, should be sampled prior to being placed back into service, or replaced with lead-free materials.

The remaining four outlets showed sample results of 15 parts per billion or less, requiring no further action or additional recommendations. These faucets/fountains include:

- Sink Faucets in Classroom 110 (01CF005), Classroom 100 (01CF014), and south out-building, Temporary Classroom (02KC033)
- Kitchen Faucet in the Teacher's Lounge (01KC016)

Consecutive Sampling Results and Building Plumbing Recommendations

The consecutive samples taken on November 7, 2015, at three sites in the main school building, and one in the southernmost out-building, provide additional confirmation that overall, the highest contribution of lead appears to be from the individual faucet/fountains and not from the larger diameter supply plumbing within the main school building or the out-building units. However, results from Classroom 310 also suggest that the southern supply line extending beyond the restrooms may be impacted by minimal water use and stagnation – specifically, the cold water line serving Classrooms 306-312.

A operational flushing procedure may further reduce lead contributions from this supply line caused by stagnant conditions related to its use. Routine flushing of the larger diameter supply plumbing at the end points of the distribution system, (for example at Classroom 100, Classroom 310 and Classroom 311) should be performed on a regular basis. Even if the identified outlets are replaced, the south end of the corridor serving Classrooms 306-312 may still benefit from a flushing procedure to further reduce lead contributions and other effects of stagnant water in this supply line.

Results of the consecutive sample monitoring are listed in the table below.

Consecutive Sample No.	1	2	3	4	5	6	7	8	9	10
LOCATION	LEAD RESULT (PARTS PER BILLION; ND = NOT-DETECTED)									
Classroom 100 Sink Faucet (01CF013)	2	2	2	2	2	2	2	2	3	3
Classroom 301 Sink Faucet (01CF018)	4	2	2	2	1	1	1	1	1	ND
Classroom 310 Sink Faucet (01CF032)	4	5	6	4	3	3	3	3	3	2
Out-building Southernmost Kitchen Faucet (01KC033)	ND	ND	ND	ND	ND	ND	ND	ND	ND	ND

Sgt. Meka - the 205 samples dropped off at the lab today were NOT tested today. It typically take a few days to get samples tested and results reported as the samples have to go through a multi step process.

Thanks,
Kirby

Subject: Results

Kirby,

I know there were 205 kits dropped off at the lab today. Were they tested and the results added to the spreadsheet? I was asked the question, because I reported this morning (based on Deb MacKenzie-Taylor's spreadsheet from 1/30/16 at 8:54pm) that 4,924 results were in with 4,616 at or below 15ppb.

Thanks,
Sgt. Meka

Hi George,

This still needs to happen today. I know we won't have criteria (#s) but there needs to be a consistent message from all departments. If you are not able please assign someone to make this happen.

Thanks! I will call shortly....

Can we (DEQ, DHHS, DLARA & DARD SEOC Reps) have a conference call today with you (or designee, Liz?) today to discuss consistent messaging on test results, badging of sampling teams, etc. regardless of agency? This may be already under Liz's responsibilities? I was questioned by all these agencies when I walked into the SEOC so we need coordination to start now and they are looking to DEQ for direction.

Importance: High

Please see note below from DuCharme, and I suggest this be a topic for the ECC - who is responsible for the DEQ resource staffing so we can ensure we have DEQ personnel partner with EPA in this effort.

ECC- for planning purposes, although the number of teams EPA plans to operate is not currently known, I think we should plan for up to 10, based on an earlier report that they have 30 staff coming in for water sampling, and I presume their teams will have at least 3 staff/team. Mark, the sooner you can elicit more details, on number of teams and # of staff/team, the better. Thanks!

Subject: EPA Sampling

Talked w/Durno (EPA). He will send me results of chlorine tests and I'll forward to Krisztian and Sygo. EPA is building up to several teams for lead and copper rule sampling and he thought DEQ was already part of the teams. Is George coordinating that? Please help ID who is responsible for the DEQ resource staffing so we can ensure we have DEQ personnel partner with EPA in this effort. If no one has been working on that in DEQ then we will need assistance to ID resources to accompany EPA. The number of teams is unknown at this time.

> - Of the 4924 sample records, 106 are missing a street address
>
> To put these sampling points on a map we need either a Lat./Long. for each point, or we need to connect this data table to Flint's Parcel GIS layer which already has a Lat./Long. location. To make that critical connection we need to link both tables together by Street Address. When I made that connection, only 2613 had a matching address from both tables, leaving 2310 sampling points that we cannot put on a map. For these missing sample points, the address field must be cleansed to match the parcel layer.

For GIS to work in our favor we need **consistent street addresses** (that match Flint's Parcel Layer) on any 'data' we collect now and in the future in Flint (or take a GPS device to manually collect a Lat./Long.).

I would suggest that this be an important discussion point with the entire team.

~Dave..

Subject: RE: SEOC SUmmary for 1/30/2016

The water test results GIS file from 1/28/2016, that DSNR-GIS has access to ... has a last recorded entry on 1/21/2016... if there is a newer file, it needs to be posted to the Flint AGO

Subject: Re: SEOC SUmmary for 1/30/2016

Dave, I don't know. I do have the spreadsheet from Sygo that is the water testing results from January 30. But I just read the SEOC summary that said that the Jan 28 data was already mapped. I don't know how much difference there is between the January 30 and January 28 water testing results, but I thought if the 28th is already mapped, we could start with that instead of creating another map for the 30th results. Perhaps the SEOC is daily producing maps of the daily water testing results?

The daily report indicates that the map of water test results through Jan 29 was completed by the SEOC-GIS and sent to ECC-IMT.
DD Sygo has asked that we compare this list of water test results to the potential sentinel sites that have been selected to see if we need to adjust the sentinel sites list. Can the ECC GIS folks put the water test results on a map with the 400 potential sentinel sites, please? That way we can visually compare locations.

Subject: Test results spreadsheet

To all,

Please review the spreadsheet (with graphs) and let me know what you think. The top one is # tests at the established thresholds, and the bottom one is percentages. Note that the order in thresholds from the top chart is different from the bottom. I switched it around so the graph looks better (higher numbers/percentages to the back of the graph so it doesn't cover up the smaller cylinders). It is interesting to note that the percentage at or below 15ppb is consistent at around 93% (88% being the lowest percentage and 94% the highest).

Subject: RE: Information to Post to the Flint Water Website

The website currently has a tab at the top left side that is titled "DEQ Reports to the EPA".

This is where the data is to go.

Trevor please do not change the tab and call me if there are any questions. I think this issue has been resolved, we just have some delayed emails coming in is all (I think)

Thank you
George

Trevor & Mel,
I took a look at what's posted, and we've got the wrong "service line data stats" document up; we had modified that document to ensure we had a disclaimer added which has been reviewed by Trevor Vandyke of DNR's Legal Staff.

Please see the attached version that should replace the one that it up there.

In our conversation with the EPA this afternoon, they'd like to see us posting the response items to the Order in a very specific location. Instead of "in the home" are we able to add a tab labeled "EPA Order" and put this documentation there?

Mel, I'll follow up with a phone call to be sure we're getting the right documents to the right people.

Trevor & Mel,
I took a look at what's posted, and we've got the wrong "service line data stats" document up; we had modified that document to ensure we had a disclaimer added which has been reviewed by Trevor Vandyke of DNR's Legal Staff.

Please see the attached version that should replace the one that it up there.

In our conversation with the EPA this afternoon, they'd like to see us posting the response items to the Order in a very specific location. Instead of "in the home" are we able to add a tab labeled "EPA Order" and put this documentation there?

Mel, I'll follow up with a phone call to be sure we're getting the right documents to the right people.

Trevor,
There are several items that the City (Mike Glasgow) had provided in response to the EPA Order for the 1/31 deadline and it appears that these may have been sitting on the sidelines since Friday and **need to be posted as well under the "EPA Order" tab.** All of the following should be prefaced so that there's clarity with these items are from the City and not the State. Attached you'll find:

Attachment 1-4) Water quality parameter measurements in the distribution system. These files (4) are labeled EWDM, all from January 2016.

- Recommendation that the hyperlinks / buttons for each of these 4 files be called: "City of Flint, Distribution System Weekly Monitoring Report....." with the associated date from the end of the file completing the end of the hyperlink / button name

Attachment 5) The most recent Monthly Operational Report (Dec 2015), which is labeled MOR.

- Recommendation that the hyperlink / button for this file be called: "City of Flint, Monthly Operational Report, Dec. 2015"

Attachment 6) The list of Main Breaks over the last year labeled.

- Recommendation that the hyperlink / button for this file be called: "City, of Flint, Water Main Break Information"

Attachment 7) A list of active water accounts.

- Recommendation that the hyperlink / button for this file be called: "City of Flint, Active Water Account List"

We have information related to disturbances from construction, however this list contains names & addresses which need to be protected. So can we add a generic hyperlink / button labeled "City of Flint, Road & Sidewalk Work" that opens a page that says "location list available upon request". We're going to have a map produced that will show locations generically.

Thank for getting this information up. Feel free to call my cell should you have any questions:

So that we can meet the deadline for the order a tab called "DEQ Reports to the EPA" is being created as we speak

Hi Melanie,

Will you please verify whether or not this information has posted on the website?

This should be up there no later than today. Please verify if it is indeed on there and where to find it.

Thank you very much,

MDEQ-ECC

Subject: Re: Information to Post to the Flint Water Website

Understood,
My apologies. I've spoken with the DEQ ECC IMT and they've explained to me the protocol that all posting related to the DEQ EPA Order information will funnel through them to Trevor.

Therefore, the various City of Flint documents that I had previously sent are being scrubbed of addresses and then the DEQ ECC IMT will provide the updated versions to Trevor.

Sorry again for the back and forth.

Dan,

We need to strip addresses from all reports. Can you please go in and do so? There is one document that will be particularly troublesome and we will need to speak with Jim as to how we go about stripping addresses from a list of addresses.

George

Importance: High

Trevor,
There are several items that the City (Mike Glasgow) had provided in response to the EPA Order for the 1/31 deadline and it appears that these may have been sitting on the sidelines since Friday and **need to be posted as well under the "EPA Order" tab.** All of the following should be prefaced so that there's clarity with these items are from the City and not the State. Attached you'll find:

Attachment 1-4) Water quality parameter measurements in the distribution system. These files (4) are labeled EWDM, all from January 2016.
- Recommendation that the hyperlinks / buttons for each of these 4 files be called: "City of Flint, Distribution System Weekly Monitoring Report....." with the associated date from the end of the file completing the end of the hyperlink / button name

Attachment 5) The most recent Monthly Operational Report (Dec 2015), which is labeled MOR.
- Recommendation that the hyperlink / button for this file be called: "City of Flint, Monthly Operational Report, Dec. 2015"

Attachment 6) The list of Main Breaks over the last year labeled.
- Recommendation that the hyperlink / button for this file be called: "City, of Flint, Water Main Break Information"

Attachment 7) A list of active water accounts.
- Recommendation that the hyperlink / button for this file be called: "City of Flint, Active Water Account List"

We have information related to disturbances from construction, however this list contains names & addresses which need to be protected. So can we add a generic hyperlink / button labeled "City of Flint, Road & Sidewalk Work" that opens a page that says "location list available upon request". We're going to have a map produced that will show locations generically.

Thank for getting this information up. Feel free to call my cell should you have any questions: 517.290.5603

Trevor & Mel,
I took a look at what's posted, and we've got the wrong "service line data stats" document up; we had modified that document to ensure we had a disclaimer added which has been reviewed by Trevor Vandyke of DNR's Legal Staff.

Please see the attached version that should replace the one that it up there.

In our conversation with the EPA this afternoon, they'd like to see us posting the response items to the Order in a very specific location. Instead of "in the home" are we able to add a tab labeled "EPA Order" and put this documentation there?

Mel, I'll follow up with a phone call to be sure we're getting the right documents to the right people.

> **Subject: Permanent and affordable solution to clean drinking water in Flint**
>
> Good afternoon Director Allan,
>
> This video will show you a PERMANENT solution to clean water. If you are interested, I will send you a link with the lab reports from ARDG website.
>
> Here is the demo:
> http://ardgroup.net/Demo_Wastewater.html
>
> This demonstration showed how to turn sewer water into drinking water in minutes. That same process could be used for Flint's lead contaminated water. We know this because ARDG is actively involved in treating hydraulic fracturing water which is heavy in dissolved solids.

The ideal solution will have Flint turning sewer water into drinking water as shown in the demonstration, but if Flint's clean water and sewer water infrastructure do not overlap, we could focus on cleaning the current drinking water supply.

As you know, there are problems everywhere with meeting Clean Water Act standards, and this solution is an affordable answer to the problem.

Next step: *if interested we would like to bring an ARDG engineer to Michigan to answer questions and* gain the information necessary to make a specific proposal to relieve your current crisis.

I am a former county official and understand the unique issues faced with public financing and government projects. I have time to discuss this Wednesday, and could carve time out Tuesday.

Subject: Spreadsheets

Susan and Deb,

We will need two versions of the spreadsheet. One the way it currently is and a second version that has the address number and street stripped away, the zip code can stay.

The spreadsheet with the address stripped needs to go in the "DEQ Reports to the EPA" tab. The spreadsheet with the address information goes in the "In the Home" tab

Please make sure you specify this when you send the spreadsheets in for upload to the website

Please call me with any questions

George

Hello everyone, if at all possible, please send these documents over in the format that you would like them uploaded. I would prefer not to take the chance of opening so many documents and messing them up before posting.
My suggestion would be that all documents be a PDF so that you may control how the document is viewed, and so that it is easily accessible by the most people, but that is just a suggestion.

Thanks!

In our conversation with the EPA this afternoon, they'd like to see us posting the response items to the Order in a very specific location. Instead of "in the home" are we able to add a tab labeled "EPA Order" and put this documentation there?

Mel, I'll follow up with a phone call to be sure we're getting the right documents to the right people.

Subject: Re: SEOC SUmmary for 1/30/2016

Dave, I don't know. I do have the spreadsheet from Sygo that is the water testing results from January 30. But I just read the SEOC summary that said that the Jan 28 data was already mapped. I don't know how much difference there is between the January 30 and January 28 water testing results, but I thought if the 28th is already mapped, we could start with that instead of creating another map for the 30th results. Perhaps the SEOC is daily producing maps of the daily water testing results?

Subject: RE: SEOC SUmmary for 1/30/2016

The daily report indicates that the map of water test results through Jan 29 was completed by the SEOC-GIS and sent to ECC-IMT.
DD Sygo has asked that we compare this list of water test results to the potential sentinel sites that have been selected to see if we need to adjust the sentinel sites list. Can the ECC GIS folks put the water test results on a map with the 400 potential sentinel sites, please? That way we can visually compare locations.

Agreed. We are connected to FEMA GIS and will work first thing Monday to solidify some things with the UCG. Now that we have a SEOC POC, DHHS POC and I believe DEQ POC for the UCG I think we will make some progress.

Mark- let's see what the SEOC GIS comes up with as far as the UCG GIS. I know DEQ/DNR GIS and the SEOC GIS have been connected.

appears there are more and more disconnects with the federal partners but that may just be my perception. We have to keep them connected to the SEOC and SEMCs or we will become disjointed and less effective/efficient.

> >
> > Today, EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot

through Monday, February 1, 2016. The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort. I don't know the locations or addresses, but may be able to obtain same if needed (please advise). Results were not discussed. DEQ, Robin Oeming, accompanied one of the EPA teams during the past week, which was primarily tasked with residual chlorine sampling. DEQ did not have personnel with EPA today and none scheduled for tomorrow. Oeming is scheduled to accompany one of EPA sampling teams on Monday, February 1, 2016.

Please route to DEQ ECC for information and to inquire direction whether a DEQ representative should be deployed with each EPA sampling team going forward.

Thank you.

Director Creagh,

I'm not familiar with the data. The direction provided from Capt. Kelenske to the SEOC GIS team should be able to answer these questions in a more efficient manner, particularly if the DNR GIS team can feed into that connection. Do you want me to reach out to EPA direct to request data attributes?

Today, EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016. The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort. I don't know the locations or addresses, but may be able to obtain same if needed (please advise). Results were not discussed. DEQ, Robin Oeming, accompanied one of the EPA teams during the past week, which was primarily tasked with residual chlorine sampling. DEQ did not have personnel with EPA today and none scheduled for tomorrow. Oeming is scheduled to accompany one of EPA sampling teams on Monday, February 1, 2016.

Please route to DEQ ECC for information and to inquire direction whether a DEQ representative should be deployed with each EPA sampling team going forward.

Thank you.

Gov. Rick Snyder announces Flint Water Task Force to review state, federal and municipal actions, offer recommendations

Experts in public health, water management, environmental protection to focus on steps to protect residents

Wednesday, Oct. 21, 2015

LANSING, Mich. – Gov. Rick Snyder today announced the creation of an independent advisory task force charged with reviewing actions regarding water use and testing in Flint and offer recommendations for future guidelines to protect the health and safety of all state residents.

Task force members include experts in public health and medicine, water management, and environmental protection from both sides of the aisle, and will be co-chaired by Ken Sikkema of Public Sector Consultants and Chris Kolb, of the Michigan Environmental Council. Also serving will be Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein, of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center in Flint.

"Transitioning back to the Detroit Water and Sewerage Department-Great Lakes Water Authority is a good first step to protecting public health in Flint, but it's not the last step," Snyder said. "Bringing in outside experts to evaluate our actions and help monitor and advise on potential changes to law, procedures and practices will be key to continuing work on the comprehensive action plan and ensuring safe drinking water for all the residents in Flint and all of Michigan."

Snyder said the administration will fully cooperate with task force members, saying he wants an unbiased report focusing on steps taken in the past and recommendations that could improve practices to ensure all residents have access to safe, clean water.

Ken Sikkema is a senior policy fellow at Public Sector Consultants, where he specializes in public finance, environment, and energy policy. Prior to joining the firm, Sikkema served in both the Michigan House and Senate, culminating with four years as Senate majority leader. He has also served as both an adjunct and visiting professor at Grand Valley State University.

Chris Kolb is president of the Michigan Environmental Council, a statewide coalition of 70 environmental, public health and faith-based nonprofit groups. Before joining the MEC, Kolb represented Ann Arbor in the state House for six years and served six years on the Ann Arbor City Council. He has been president of the MEC for six years.

Matthew Davis, M.D., M.A.P.P., is professor of pediatrics and internal medicine at the University of Michigan Health System and professor of public policy at the Gerald R. Ford School at the University of Michigan, having joined the faculty in 2000. Davis also is a professor of health management and policy at the School of Public Health. He previously served as the chief medical executive of the Michigan Department of Community Health/Department of Health and Human Services.

Eric Rothstein is a national water issues consultant and principal at the Galardi Rothstein Group. He served as an independent advisor on the creation of the Great Lakes Water Authority. Rothstein also has served as Jefferson County, Alabama's rate consultant and municipal adviser for litigation related to the county's bankruptcy and issuance of $1.7 billion in sewer warrants and led strategic financial planning for the City of Atlanta's Department of Watershed Management. He has more than 30 years of experience in water, wastewater and stormwater utility finance and rate-making assessments.

Lawrence Reynolds, M.D., is a pediatrician in Flint who serves as president of the Mott Children's Health Center. He received his medical degree from Howard University College of Medicine and has been in practice for 36 years. He has served as president of the Genesee County Medical Society and the Michigan Chapter of the American Academy of Pediatrics. He has been honored for his humanitarian and advocacy efforts on behalf of children from the Community Foundation of Greater Flint.

Snyder has said reconnecting with the authority is a critical step to resolving water quality issues and addressing related health concerns. It will not immediately resolve the city's problem with lead service lines or aging infrastructure. It will take time for pipes in Flint to become coated with the phosphate corrosion control.

To best protect public health, state and local authorities will continue to carry out steps outlined on Oct. 2 in a comprehensive action plan, including continued testing, the use of faucet filters and providing residents with accurate information about steps to eliminate lead exposure. The Michigan Departments of Environmental Quality and Health and Human Services are continuing to provide free water filters, free lead testing through the state laboratory for Flint water customers, and hiring additional staff to conduct health exposure monitoring for lead in drinking water.

Thanks for sending.

One question re: "Ordered Public Information Officer (PIO) for DEQ Incident Management Team to liaison with Flint Emergency Operations Center PIO, as well as documentation leader."

I don't remember seeing this come through the SEOC. If it didn't, should it have? If it did, I missed it and can't find it.

Mitch

Purpose of the meeting was to understand what they are asking of DEQ, expectations, time commitment, and role(s). In short, they are asking for DEQ to participate in UCG meetings/calls at 0830 each day (0900 this Sunday). They also want DEQ to participate as a Liaison. On M, W, and F, the UCG will include discussion of objectives and they also requested DEQ participation in command and general staff meetings and tactics to assist in the production of an incident action plan (IAP), but only from the perspective of listening to make sure their tactics don't interfere with any tactics the DEQ may implement rather than incorporating DEQ tactics. They expect to wrap up with tactics by noon on M, W, and F.

Hi Sue,

Per the attached, I'd like a Toxicologist that we can identify to MDHHS to participate in subsequent telephone calls/meetings with EPA, CDC, GCHD to discuss response to high lead water test results at individual homes or other locations. You may want to consult with George Krisztian to fill this request. I've asked DHHS to try to get us an invite to future calls/meetings on this matter. Thanks!

Mark Ducharme – FYI and potential discussion with EPA.

Subject: Samples Update

As I promised I am closely monitoring the sample back log situation.

We received in a total of 574 Lead and Copper Samples today
Our commitment was to report out 400 samples per day
We reported out 615 Samples today.

The end result is that we reduced our back log by 41 samples today. That's not a huge dent but it is the correct direction.

The total backlog currently in the lab is 1709 Samples or approximately 3 days at our current rate of production.

Our turnaround time is still less than 7 days

I will stay tonight until I have compiled an updated spreadsheet for the Web.

That's correct Mitch. Each Agency is tracking the efforts with their own codes – our payroll system is not configured to share coding between Departments.

Subject: DCDS Coding for Staff from Other Agencies

Hi Carol

I just spoke with LARA here in the SEOC, regarding the staff they're supplying to the lab and the coding they should use in DCDS. DLARA, MDARD, and future resources that fill in to help for this incident, can't charge DEQ Index, PCA, project and phase numbers. They'll use their own and their time will get accounted for otherwise.

Anastasia, if you disagree, let us all know ASAP. Thanks everyone.

Chris-

We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm**3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it – yet again – with a lab in Michigan, using Flint water sources – in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

Subject: Full List of Residential Results
Importance: High

Please find attached the full list of residential results. Please note that this version includes the sample number and the address. I will follow this format going forward. If I fail to do that then please let me know.

Please note that the results are for all samples reported out through today January 26, 2016. In addition this spread sheet contains two tabs. One has the data sorted by concentration and the other is sorted by address.

Posting this data in a timely manner is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that both tabs are posted so that people can look at the version that they are interested in.

> I spoke with long-time colleague Gary Kolhepp of the MDEQ Water Resources Division earlier today, and he suggested that I contact you. I'd like to offer Great Lakes Environmental Center, Inc.'s (GLEC's) services in assisting the MDEQ with efforts to monitor the situation in Flint's drinking water. GLEC is a small employee-owned business in Traverse City specializing in applied environmental sciences. There are a number of reasons why contracting with GLEC makes good sense for MDEQ and the residents of the City of Flint:
>
> - GLEC has worked under contract with MDEQ for more than 20 years to help protect the waters of the State of Michigan.The Flint work would be within the scope of GLEC's existing contract with the MDEQ (Contract #071B6200380).
> - Over the course of the past 16 years and three EPA Office of Water contracts supporting the Office of Groundwater and Drinking Water's (OGWDW's) Unregulated Contaminant Monitoring Rule (UCMR) program, GLEC has demonstrated our expertise in coordinating, managing and conducting large, complex drinking water sampling programs. We have extensive experience: interacting with stakeholders to explain the goals of sampling programs; providing sampling kits and instructions for the collection of drinking water samples; tracking sample collection, shipment and analysis using databases; collecting samples when complex methods are required; and approving and auditing analytical laboratories.
> - GLEC has the capability to immediately mobilize sampling crews and/or sampling kits, with senior program management oversight, for the collection of drinking water samples in the Flint area. Additionally, because Flint is a mere 3-hour drive from our Traverse City office, GLEC staff members can be on location quickly without unnecessary substantial travel costs.

- ? GLEC has personnel with the credentials and experience necessary to assist EPA with the design of statistically robust sampling plans in the Flint distribution system.
- ? As a long-term trusted water quality consultant to the MDEQ, EPA Region 5, and EPA Headquarters, we believe GLEC can help both MDEQ and EPA regain the trust of the citizens of Flint by performing unbiased and professional work.

This is an issue of great concern to us and we would find it very gratifying to have the opportunity to assist with ongoing efforts to better understand the extent of the current problem and to develop alternatives for the future in order to provide safe drinking water to the citizens of Flint.

We look forward to hearing your thoughts on our suggestion. If you would like additional information or to discuss the matter, please contact me on my cell phone at

Hi Mark,

I spent all day Saturday revamping the report. I think this gets us to where we need to be and it dramatically reduces the amount of work that the city has to do to get the reports out.

Mike, I will be calling you today to discuss this report.

Please see the attached.

Subject: Bldg and room access

We activated our EEC today. I will be submitting a resource request for bldg and room access in ConHall. Are names and email all you will need? Also is there possibility for access to the Allegan ramp and random reserve parking for 7 IMT staff supporting the ECC from out of town for 14 days?

Who in the City of Flint needed the copies of the request forms for samples that are on the DOC trucks?
We would like to contact them directly to see what form (PDF or copies) they should be in.
thanks

Subject: Flint Samples

Kirby,

We never confirmed copying the lab request sheets (yellow instructions attached to sample bottles). The city of Flint did not copy all of the yellow instruction/lab request sheets that were affixed to the sample bottles that Dept. of Corrections delivered today (Thursday). It is important that the city receives copies of these documents. Please confirm the ability of the lab to copy the forms and return to the city of Flint. Copies can either be scanned (pdf) or paper. If paper, we can deliver to the city instead of mail delivery. Thank you.

Hi Melissa

See the attached we got from VWR today, in which they claim we are owed 52 cases from our original VWR order of 150 cases, with an expected ship date of 2/11. We received an order in Flint today, I think it was 56 cases.
We can't wait until 2/11 or 2/12 to receive the remaining 52 cases from the original order at the rate we've been going through the bottles.

Are the 6 cases mentioned in your note below from a new order you just placed?

Thanks!

Subject: RE: Test Kit Bottles

There were six (6) cases shipped overnight to Flint, on a separate order. We are working with VWR to receive the invoice for details.

There are currently 102-108 cases scheduled for delivery between 2/9/16 and 2/11/16. I'm working on verifying the exact date of delivery and whether the six overnighted cases came from this original 150 case order.

All new lot numbers will have one case delivered to the DEQ lab for testing.

Through VWR, we only pay shipping charges for EXPEDITED shipping. Normal shipping (those of the 42 cases already delivered and of the upcoming 102-108) is free.

Tara and I will work on placing an order for an additional 20,000 bottles and forward the details.

If you have any questions, please do not hesitate to contact me.

Looks like we are ok with quantity. As soon as I can verify we have enough instruction sheets and labels, I'll probably bring in resources (tomorrow or Wednesday) to make sure we have enough test kits and don't run out. Current quantity of prepped kits should last at least a couple of days. Institution sampling will start to go through bottles fairly quick starting the weekend after next and we'll have to monitor to make sure we maintain enough assembled kits to meet demand.

OK. See attached spreadsheet. I believe the shipment received are the two top in the highlighted area. The shaded area are the numbers Nina advised were shipping. So there is an error somewhere with 6 extra cases if Bonnie is reporting accurately. Anyway, we have the remaining order of 58 cases still to come in. Hopefully Shasta will get back to us with shipping estimates and accurate quantities.... Does it appear we are holding up with demand now with ample cushion?

> **Subject: RE: Meeting with Genesee county clerk**
>
> All,
>
> I met with Gary Hagler today in Flint to review a potential data opportunity that did not pan out. The source we met with had information but none of it that dated back to the 1950's and was in a format that we could readily use with today's technology. Recognizing that the effort may be to labor intensive Gary is following up on other leads.
>
> While I was there I did see the EOC and meet with members of the plumbers union that were going out to individual houses and installing water filters. Today, they were also going to start collecting information on what type of pipe is being used to bring water into the house.
>
> Although I was unable to help Gary with his request I did have these takeaways from what little I saw while in the field:
>
> The plumbers union was using an IPad app provided by MSP to record data that was collected on paper forms in the field. While trying to demonstrate the app they were unable to locate the first address they tried. Once an address was found they used pick fields to set the values for several questions. Currently the form did not have a place to set which type of water pipe is coming into the home so I suggested that they type into the comments the following string signature until the app can be updated to collect that information:
>
> pipe=C*
>
> *C for copper, G for galvanized, L for lead, U for unknown
> This will make it possible to perform an in string search for "pipe=" and then take the next character to determine what pipe information there is.
>
> I am uncertain of the address source being used within the app although if I had to guess I would say it was a parcel layer. I would also suggest that if that is the case then the addresses assigned to those parcels should be passed through an address standardizer and validation such as SAP (which is a shared service from CSS and that team is willing to run the Flint data). Running those addresses through SAP

should improve the quality by standardizing the address, updating street name and postal code changes and flagging any addresses that are non-deliverable.

The plumbers also indicated that apprentices were coming every day now to volunteer time as part of their career training and that they also expect many of their sister unions to volunteer time as well. Which will mean an increase in the amount of houses being processed and data having to be entered. My concern here is that there is so much manual reentry of collected paper data that the process will bog down. I see three scenarios in which this problem could be alleviated:

- Provide more devices to renter the data (Likely the easiest solution to implement, keeps the point of entry to a select few that know how to work the devices and minimizes device costs)
- Provide even more devices (or make the app something that can be downloaded on a personal device) to take in the field to collect the data (More equipment costs and more people to train, no idea of what security issues there maybe if personal devices are used)
- Implement a better paper process to collect the information like the way multiple choice tests are handled. Students use a pencil to fill in the circle of the possible choices they could answer and then the form is scanned. There are already IPad apps that can do this sort of thing. (The user base is familiar with a paper process, their already using one, and blotting out choice boxes on a structured form is more efficient than hand writing the values. The challenge here would be to implement the scanning on the IPad, perhaps a university or college has an option)

Please note that these are my few observations from a very narrow perspective. I am not aware of what all is and has been going on between the various agencies and EOCs but I thought I would provide these here in hopes that it helps. Please let me know if there is something further I can assist with.

Mr. Harris,
I will be at the Genesee Count Clerks Office at 8:00 am. The information on the address and location of the Clerk's Office in your email below is correct. I look forward to working with you and your staff on data collection effort. My contact information is correct in your email as well.

Thanks,
Gary

Cell ph

From: Krisztian, George (DEQ)
Sent: Sunday, January 24, 2016 10:12 AM
To: MSP-EOC-MDEQ
Subject: Resource Request
Importance: High

I need someone with Crystal Report expertise to spend a couple of hours with me at the lab so that I can make a modification to the report that is going out to Flint residents.

Basically what I need to know is how to set up a string within the report that will take a field value and multiply it by 1000 so that results can be converted from ppm to ppb. The logic will need to take into account the fact that the field in question is a text field and not a numerical field. Logic will also need to be built into the string to accommodate for values such as "Not Detected"

This must be done at the Lab and I need to work with this individual. There is a lot of custom interfacing that is going on and it is not as straight forward as giving someone a Crystal Reports file and asking them to incorporate the requested logic.

Thank you
George

George

Please let DEQ at SEOC know if you've done anything with this or want us to handle. Given the request that Amway wants to sample, and "be responsible for lead testing and installation" at schools/day care, am not sure how to direct that in light of EPA order.

Hi Tara,

I just left you a voice mail. You should continue to go through your appropriate process. I just need to be informed so that I can put it in MiCIMS for tracking. Be sure to set it up specifically for the Flint Water Response and use project codes etc. to track it easily. Penny advised she will look into it to be certain but believes the costs will be reimbursable with Section 18 funds. She stated locals are reimbursed for contract employees when retained specifically for an incident and what you are doing is essentially the same.

Thanks! ~Jen

A temporary staff member is needed for the laboratory to process incoming water test samples. How should this be handled? I have an internal process for temporaries, but information below from Kirby states it has to go through SEOC. Please advise as soon as possible, as it will take time to find and background check a candidate.

Thank you.

I've written a needs assessment to forward on to the State's Emergency Operation Center and will go over it with Carol and Julia tomorrow. This temp position below could fit one of the four individuals being requested. Again, I've been told that requests for assistance outside of DEQ must go up to the SEOC. This is the description I have for the individual in the assessment. Note overtime may be required.

1 individual to work full time Monday through Friday 40hrs per week with possible overtime assisting sample receiving, sample transport and data coding. Individual may be receiving and setting up samples, moving samples to testing/storage locations in the lab and data coding sample demographic information into computer.

Thank for getting this going Mary Jo!!

Cc: Shane, Kirby (DEQ)
Subject: GOA Temp for the lab ITRAC C20160120-170519

Hi Julia

Pls review the itrac verbage and tweak if needed. This is an emergency request that speaks for itself, so don't spend a lot of time on it.

Hours M-F 8-5 okay?
Start date of 1-28 okay? . (we'll rush it if you're ready for them to start next week)
End date through 6-17 (this takes us through the max 832 hrs. We can later extend contract or request another temp when this is exhausted.)
Temp Cost for this is 832 hrs x 11.34 = 9,434.88 (temp is pd $9 per hour, but are billed at 11.34)

When itrac is ok and questions are answered, I'll send on to OHR for approval. Once a candidate is selected, a background check will follow. If we want a start date next week I should have your approval tomorrow. Let me know if questions. Thanks, Mary Jo

> I am working with Doug at ZeroWater to address the concerns and provide accurate information to the citizens regarding the capabilities of the meter. The citizens misinterpreted the elevated levels on the meter, presuming it meant there was elevated levels of lead in the metered water. These citizens have been informed the difference of the TDS meter and a laboratory analysis for lead and copper. I will be requesting Doug to also call the citizens to reiterate this. The citizens lack trust in any water they are provided and have been using the supplied TDS meters to test any bottled or canned water they have received from the city.

Kathy one of my team members asked is it possible for you to send us one of the testers that are being used in the home. Also, can you tell us who gave your citizens these testers and who is the manufacturer? We have contacts with University of Wisconsin Milwaukee labs and state certified testing. We would like them to re-test our water in cans that is from the same batch sent to your citizens and to test the accuracy of the tester being used.

Thank you very much.

MSP-EOC-MDEQ

From: DeGrazia, Joseph (DEQ)
Sent: Monday, January 25, 2016 10:02 AM
To: MSP-EOC-MDEQ
Subject: Re: Oeming

I spoke with Brent Wright, City of Flint Waste Water Treatment Plant. He stated that a pump station that was operating when the city was connected to the Flint River has been shut down for upgrades after the switch back to the City of Detroit water. Once upgrades are complete, it will act as a booster when needed. However he was unaware of any financial request from the city to the state.

Subject: RE: Oeming

Thanks. I spoke with Lippert and he says he is with him on the Chlorine issue. MDCH provided me this statement.... The last question/answer says the city is seeking funding from the state. Do you know anything about this and who in the state they are seeking funding?

On January 21, the City of Flint informed the USEPA that a chlorine pump station was out of operation at the drinking water treatment plant. The situation raised concern about whether necessary levels of chlorine disinfectant were in the portion of the City's drinking water distribution system near the treatment plant. Chlorine in the drinking water system is important to control bacteria. EPA's on scene coordinator (OSC) in Flint partnered with a local citizen to collect additional distribution system samples today and all initial EPA sampling results have detected appropriate levels of chlorine disinfectant. To continue to ensure that sufficient chlorine is present in the system, additional EPA experts will be arriving in Flint tomorrow to assist the City in monitoring the water quality and to ensure the public is receiving up to date information. As recommended earlier, citizens of Flint should continue to use filters for drinking water or drink bottled water.

What is a chlorine pump station? A chlorine pump station is used to add chlorine disinfectant into the City's drinking water system.
Where is the broken chlorine pump station located? The broken pump station is located at the City's drinking water treatment plant.

Do other chlorine pump stations exist? And are they operational? Yes, and they are currently operational. The city also can add chlorine disinfectant at the city's reservoirs.
What does it mean if there are low levels of chlorine disinfectant? Chlorine disinfectant prevents the growth of pathogens (bacteria) in the distribution system. EPA's surface water treatment rule protects the public by requiring detectable levels of disinfectant throughout the drinking water distribution system.

Do I, as a resident of Flint, need to do anything based on this new information? At present, citizens of Flint do not need to make any changes in the use of filters for drinking water. EPA will continue to monitor to ensure that sufficient disinfectant is present throughout the distribution system.

Are these sampling results available publicly? EPA will be posting these results to our website

What level of chlorine disinfectant is sufficient? The surface water treatment rule says that disinfectant must be detectable throughout the distribution system.
How long will it take to repair the chlorine booster pump? The city is requesting financial support from the state to repair the treatment pump as soon as possible.

Hi Tara,

I just left you a voice mail. You should continue to go through your appropriate process. I just need to be informed so that I can put it in MiCIMS for tracking. Be sure to set it up specifically for the Flint Water Response and use project codes etc. to track it easily. Penny advised she will look into it to be certain but believes the costs will be reimbursable with Section 18 funds. She stated locals are reimbursed for contract employees when retained specifically for an incident and what you are doing is essentially the same.

Thanks! ~Jen

I've written a needs assessment to forward on to the State's Emergency Operation Center and will go over it with Carol and Julia tomorrow. This temp position below could fit one of the four individuals being requested. Again, I've been told that requests for assistance outside of DEQ must go up to the SEOC. This is the description I have for the individual in the assessment. Note overtime may be required.

1 individual to work full time Monday through Friday 40hrs per week with possible overtime assisting sample receiving, sample transport and data coding. Individual may be receiving and setting up samples, moving samples to testing/storage locations in the lab and data coding sample demographic information into computer.

Thank for getting this going Mary Jo!!
Kirby

Cc: Shane, Kirby (DEQ)
Subject: GOA Temp for the lab ITRAC C20160120-170519

Hi Julia

Pls review the itrac verbage and tweak if needed. This is an emergency request that speaks for itself, so don't spend a lot of time on it.

Hours M-F 8-5 okay?
Start date of 1-28 okay? (we'll rush it if you're ready for them to start next week)
End date through 6-17 (this takes us through the max 832 hrs. We can later extend contract or request another temp when this is exhausted.)
Temp Cost for this is 832 hrs x 11.34 = 9,434.88 (temp is pd $9 per hour, but are billed at 11.34)

When itrac is ok and questions are answered, I'll send on to OHR for approval. Once a candidate is selected, a background check will follow. If we want a start date next week I should have your approval tomorrow. Let me know if questions. Thanks, Mary Jo

Subject: FW: Letter to convey lab results

Steve,
This is to confirm that DEQ will be addressing the process issue we just discussed. The current process you described is the DEQ lab submits the household results to the city and then the city notifies the owner. However, we have been told that the DEQ also sends a letter to the household. One letter indicates results in ppm the other letter indicates results in ppb. This process issue is being addressed Monday by DEQ and Lynda Dykema from the MDHHS Division of Environmental Health is also working with you on the issue. The second thing I need to confirm is that households will be able to pull up their results by their individual address on-line. I believe that is what you just indicated.

If I got this correct, please email the confirmation to me, so that we can report on it to the Director of MDHHS.

Thank you very much.

One letter would be ideal but I'm not certain of DEQ's position on this. The language we developed was at the request of GCHD and the local EOC. George Krisztian would have some answers but my questions were really directed at the city office that sends out their letter. I'm uncertain if they have staff to manage mail merges.

GCHD and the local EOC asked that we develop a letter to convey water test results to Flint residents. Currently they get one mailing from the DEQ in ppm and another from the city in ppb, which is very confusing. The attached Word file provides suggested language to address this issue and to provide context and public health recommendations based on the lead concentration in the water sample. Note that there are 2 versions: one for lead ≤ 15 ppb (roughly 92% of the data so far) and another for higher concentrations.

Also attached is a graphic to help residents understand the DEQ results form, assuming that will still also be mailed. I think Michelle used InDesign to make the graphic, but she has her computer with her this weekend should edits be needed.

GCHD and the EOC would like this approved ASAP as they are anticipating a surge of samples

from the recent kit distributions. Thanks

Subject:

J. DeGrazia acting as Deputy Incident Commander in deployment to Genesee County Emergency Operations Center (GCEOC) as a state resource to supplement local efforts. J. Scheels deployed at Red Cross to lead quality control efforts and ensure test kits are appropriately labeled and instructions are affixed to each test kit bottle.

M. DuCharme confirmed to deploy on January, 25, 2016, to the GCEOC. R. Oeming is confirmed to deploy with the EPA sampling team on January 25, 2016. Additional resource deployments remain under review and will be communicated as soon as possible.

Continue coordinating bottled water and water filter deliveries and staging locations with Logistics. Coordinate supplies for Water Testing Kits (currently ARC has depleted bottle supplies). Logistics continue working to identify and evaluate recycle collection locations. Coordinate with Logistics for Lead Heat Map using current analytical data.

Continue coordinating with EPA on chlorine sampling activities. DEQ staff to be incorporated into sampling team. Coordinated with ARC to supply 100 Water Testing Kits to the EPA.

Coordinating with Genesee County Health Department (GCHD) on EPA water sampling activities at location where residual chlorine was confirmed. Sample currently being analyzed and result will be reported tomorrow (01/25/16).

Situation reports continue to be posted in MICIMS daily out of the SEOC so the state posts a common operating picture. The GCEOC posts a daily local sit rep in MICIMS. Those can be found in MICIMS Statewide Shared Activities under Henrik Hollaende.

Contact me via email or 586-291-0476 if you have any questions. Thank you.

JOSEPH DEGRAZIA

POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
> * Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of

this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 - long shot but would be huge if we land this.

> · Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
> · DEQ test kits are only being provided to those who ask for them.
> · I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
> · MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
> · A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
> · MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
> · Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
> · Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
> · Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
> · Information reported to the JIC:

> Update 1/20/16 - 16th Day (15th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Increase efficiency of warehouse operations
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs)
> · Prepare for second phase of door to door operations
> · Submitted appeal to FEMA Region V

> · Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
>
> Attached Documents:
>
> * SitRep 16
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received.
>
> Key items for tomorrow to note are:
> · Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
> · A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
> · DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.
>
> Items to Note
> · Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
> · MSP and local Sheriff's Department continue to provide over watch for WRTs.
> · Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
> · News release sent from Governor's office about the appeal to the President of the disaster declaration.
> · SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com><http://www.helpforflint.com>
> · SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
> · Meeting held with Dr. Luri from HHS.
> · Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
> · End of day - concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
> · Additional 5 person NG team for warehouse support approved.
> · Information reported to the JIC:
>
> o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)
>
>
> 1. 29,317 homes visited by the FWRTs to date.
>
> 2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).

>
> Items to Note
> · Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
> · Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
> · DTMB is working to secure space in Flint for FEMA staff.
> · Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
> · 5 Additional NG personnel being requested to assist with Warehouse inventories.
> · 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
> · Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
> · LG is going to be in Flint working at one of the PODs on Wednesday.

>
> Local EOC
> Operations:
>
> * Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
> * Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
> * Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
> * Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).
>
> Chris
>
>
>
> INTERNAL USE ONLY - LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/18/16 - 14th Day (13th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs) and PODs
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
> · Complete appeal for Presidential Major Disaster Declaration denial.
>
> Attached Documents:
>
> * SitRep 13
> * Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.
>
> Status on Governor's request letter to the President:
>
> * Appeal in process.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o NG will be bringing in personnel to prep for surge.
>
> Items to Note
> · Beginning tomorrow the operational periods will be 7 days long.
> · The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
> · An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
> · Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · DTMB is working to secure space in Flint for FEMA staff.

> · Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
> · ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
> · Media availability conducted today at 3pm at the VRC.
> · Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

>
> Items to Note
> · Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> o 4,963 homes visited today.
> · DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
> 01/16/16
>
> * Approximately 5:00PM, Michigan.gov<http://michigan.gov><http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov><http://michigan.gov> site became inaccessible caused by of a denial of service attack.
>
> * IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov><http://michigan.gov> websites were again available to the public.
>
> * Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov><http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov><http://michigan.gov> becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
>
> * Shortly after the michigan.gov<http://michigan.gov><http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.
>
> 01/17/16
>
> * Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
>
> * DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.
>

> We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://cityofflint.com><http://www.cityofflint.com>) or Flint Township Police (flinttownshippolice.org<http://flinttownshippolice.org><http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.
>

> INTERNAL USE ONLY - LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/16/16 - 12th Day (11th Full Day) After Governor's Declaration of an Emergency

>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration
>
> Attached Documents:
>
> * SitRep 11
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
> * The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.
>
> Key items for tomorrow to note:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · I will be back on duty Sunday.
> · We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
> · A logistics briefing will be provided to see how many more teams we can put in the field.
>
> Items to Note
> · LT Gov visited the local EOC today; discussed local EOC operations.
> · Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
> · DEQ sampling kits are now being received at the PODs.
> · DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
> · The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
> · NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
> o 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
> · Information reported to the JIC:
>
> o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

> Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution
>
> INTERNAL USE ONLY - LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/15/16 - 11th Day (10th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Pilot the logistics plan and adjust as needed
> · Continue with door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency
>

> Attached Documents:
>
> * SitRep 10
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
> * When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
> · I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.
>
> Items to Note
> · LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
> · Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
> · Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
> · Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
>
> o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.
>
> 2. Distributed:
> a. Number of cases of water 18,576
> b. Filters 45,916
> c. Filter cartridges 165,382
> d. Test kits 3,217
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 44,688 (additional 12,884 donated)
> b. Filters 78,520
> c. Filter cartridges 163,081
> d. Test kits 18,761
>

> 5. *Teams going out tomorrow:*
> a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
> b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
>
> Local EOC
>
> Home Deliveries:
>
> * Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.
>
> Operations:
>
> * We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
> * Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
> * Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
> * Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

>
> INTERNAL USE ONLY - LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/14/16 - 10th Day (9th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
> · Continue with door to door teams and finalize planning for future team use
> · Submit request for a Presidential Declaration of a Major Disaster and Emergency
> · Continue to work on long term recovery items (DHHS, DEQ, MDARD)
>
> Attached Documents:
>
> * SitRep 9
>
> Status on Governor's request letter to the President:
>

> * All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.
>
> Key items for tomorrow to note are:
> · The door to door teams will continue in the morning.
> · We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
> · ARC will increase the number of their Water Response Teams.
> · Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.
>
> Items to Note
> · DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
> · LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
> · Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
> · Email sent to state employees to request volunteers for weekend.
> · Media monitoring showed no incorrect information today.
> · Michigan Association of Broadcasters is sending PSA to radio stations.
> · Coordinating with Red Cross on volunteers for weekend.
> · Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
> · National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
> · Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
> · DHHS
> o The Community Health Emergency Coordination Center (CHECC) is working on the following:
> § A nutrition plan
> § Education materials, messaging, and working with local agencies
> § Developing a community assessment for disaster behavioral health services.
> · Lined up the delivery of filters to two large apartment complexes and a student housing complex.
> · We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
> · Water Response Team Numbers (this is not the total of homes with filters - I will provide that number tomorrow but it appears we have filters in over half the residences):

> Update 1/13/16 - 9th Day (8th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and close lease on warehouse space
> · Continue with door to door teams and finalize planning for second wave increase (+15 teams - total for 1/14/16 will be 20)
> · Continue to work on Governor's Declaration of an Emergency
>
> Attached Documents:
>
> * SitRep 8
>
> Status on Governor's request letter to the President:
>
> * All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
> * *Current timeline:*
> * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
> * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
> * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
> * *Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16* but hopefully sooner. FEMA is aware and ready to receive.
>
> Requests and potential response from FEMA/President
>
> * The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
> * The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
> * This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)

> * Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
> * Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
> * If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan
>
>
> Key items for tomorrow to note are:
> · The door to door teams will continue at 9 a.m. - 5 p.m. Thursday morning and continue through the weekend.
> · We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
> · MNG will have a press event at the armory with incoming soldiers and MG Vadnais.
>
> Items to Note
> · Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
> · Managed and corrected misinformation on NG role.
> · Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
> · Working with Comcast so they can put teams in the field for distribution.
> · Penske is going to give us 15-20 trucks over the weekend.
> · Contact made with Two Men and a Truck for resources.
> · Meeting set with Google where they will brief me and key staff potential tasks.
> · Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
> · Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
> · We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
> · 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

> · We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
> o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
> · Logistics Support
> o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
> § Mission - A filter in every home ASAP.
> § 4 Distribution Methods
> · PODs (5)
> · Water Response Teams (20 effective tomorrow and this will increase)
> · Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
> · Local EOC support for other local requests (Faith based for distribution, etc.)
> § Three warehouse locations at this time
> § How to better leverage ARC resources
>
> · Supplies - Daily Numbers
>
> o Replacement Cartridges - 30,700 delivered.
>
> o Water (cases) - 19,152 cases delivered
>
>
> · Budget projection completed and will be submitted to SBO for review.
>
> · Notes from Water Response Team Command (MSP)
> o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
> o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
> o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.
>
> All personnel continue to be fully committed to fixing this as quickly as possible.
>
> Chris
>
>
>
> Update 1/12/16 - 8th Day (7th Full Day) After Governor's Declaration of an Emergency
>

> I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Fine-tune logistics
> · Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
> · Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)
>
> Attached Documents:
>
> * SitRep 7
> * Executive Order Activating the National Guard
>
> Key items for tomorrow to note are:
> · The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
> o I have briefed the ARC Disaster Officer on this plan.
> · The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
> · The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
> · We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.
>
> Items to Note
> · PSA video sent out to Flint citizens on resources available.
>
> · Water
> o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
> o Ordered:
> § 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
> · 1/3 is going to GCCARD and the rest is going to the new warehouse
> § 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
>
> · Filters
> o Today's numbers
> § Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
> · 2,000 - Brita filter faucet mounts
> § Filter Replacements
> · 2,400 - Brita filter replacements (single pack)
> · 8,000 - Brita filter replacements (two pack)
> o Ordered on 1/12/16 to arrive Wednesday
> § Faucet Mounts - To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 - PUR Vertical faucet mount
> · 2,500 - PUR Horizontal mount
> § Replacement Filters - To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 - PUR replacement filters (3 pack)
> · 10,000 - PUR replacement filters (single pack)
> § PUR Combination Pack - to be delivered to GCCARD on 1/13/16 (Wednesday)

> · 10,700 - PUR combo packs
>
> · To arrive Thursday
> o Zero Water Pitcher (8 Cup) - Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 1,300 - Zero Water pitchers
> o Faucet Mounts - Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 11,000 - PUR vertical faucet mount
> § 1,500 - PUR Horizontal faucet mount
> § 5,000 - Brita faucet mount
> § 10,000 - Brita adv faucet mount white
> § 12,000 - Brita adv faucet mount chrome
> o Replacement Filters - Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 117,600 - PUR replacement filter
>
> · Test Kits
> o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
> o 500 have been assembled and are ready for distribution
> o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
> o 10,142 unassembled kits to arrive at GCCARD early next week
>
> · Second warehouse - Located in Flint
> o *100, 000 square feet of secure warehouse obtained.*
> o Accepting commodities beginning Wednesday, January 13
>
> · Logistics Support
> o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
>
> · Door to Door Numbers
> o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
> o We are working on version 2.0 so this can be used at the PODs
> o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
> o *Notes from the field commander:*
> § "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
> o In the end, there were 394 total home visits with the following breakdowns:
> · 217 Door Hangers
> · 152 Vacant Homes
> · 117 Water Distributions
> · 112 Filters
> · 3 Pitchers
> · 48 Water Test Kits
> · 211
> o CALL VOLUME:
> § 185 calls for water-related issues had been received as of 4:45 pm.

>
> · Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).
>
> Chris
>
>
> Update 1/11/16
>
> The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.
>
> Attached Documents:
>
> * SitRep 6
>
> Key items for tomorrow to note are:
> · The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
> o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
> o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.
>
> Items to Note
> · It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
> · We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
> · Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
> · We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
> · ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
> · Began mapping lead service lines (anticipate having draft of lead service lines Friday).
> · Coordinated with local IT managers overseeing filter tracking system to streamline data collection.
>
> Local Emergency Operations Center
> * Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
> * Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
> * Working to establish a warehouse for local resource storage.
> * Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
> * Discussed potential long term water sources between local EOC and SEOC.
> * Established planning cycle/meeting scheduled for 1/12/16.
> * Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.
>
> Chris
>

>
>
>
> Update 1/10/16
>
> Attached Documents:
>
> * SitRep 5
> * Door card (English version but Spanish version will be ready for Tuesday)
>
> I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).
>
> I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:
>
>
> 1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
>
>
> 1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
>
> · We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
> · A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
> · An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
> o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
> · Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
> · Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
> o Debris Removal = self-explanatory and we do not have this
> o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
> o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.
>

> Back to the update...
>
> Key items for tomorrow to note are:
> · Training is occurring for the door to door teams scheduled for Tuesday morning.
> · Deploying an additional MSP District Coordinator to the local EOC for command and control support.
> · Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
> · Media event with the Governor in Flint.
> · New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
> 1. Ensure all households within impacted community have required resources.
> 2. Ensure accurate tracking and accounting of all commodities.
> 3. Improve and maintain public information strategy.
> 4. Develop a long term public health and services plan.
> 5. Ensure adequate staffing to support operational requirements.
> 6. Identify possible assistance programs.
> 7. Develop an approved GIS strategy.
> 8. Maintain coordination between partner agencies and organizations.
> 9. Enhance situational awareness and common operating picture of all activities.
> 10. Develop a comprehensive Recovery Plan.
>
> Items to Note
> · All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
> · Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
> · The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
> · The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
> o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
> o The door card is attached that will be left if no one is home.
> · Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
> o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
> · GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
> o 12,386 filters
> o 1,985 replacement filters
> o 354 Pitchers
> o 2500 Lead Testing Kits
> · Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
> o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
> o We have ordered an additional (expedited delivery with ETAs tomorrow)
> § 40,000 Brita Filters
> § 40,000 Brita Replacement Filters
> § 1000 Zero 8-Cup Pitchers
> § 1000 Zero 8-Cup Pitchers

> § 2000 PUR Replacement Filters
> § 93 Pallets of water (about 6700 cases)
> · GIS continues to produce multiple maps for use.
> · JIC Items
> o Requested PSA on the radio. Media has been approved and working with MAB.
> o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
> o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
> § Tuesday - embed state PIO with one of the canvassing teams to liaison with media.
> § JIC moving tomorrow to Flint.
>
> Local Emergency Operations Center
>
> I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.
>
> Fire Station Inventory Levels:
> Station 1:
>
> * Only time without supplies - 15 minutes without water while the truck was unloaded.
> Station 3:
>
> * Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.
> Station 5:
>
> * Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
> * Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.
> Station 6:
>
> * Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
> * 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
> * We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.
> Station 8:
>
> * Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.

> * Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
> * Reports received that the last couple of hours were slow.
> * Residents were advised of the other sites and the opportunity to obtain supplies.
>
> Restocking Plan
>
> * United Way set up meeting with Food Bank to discuss.
> * Had EOC meeting on this topic to discuss options.
> Churches:
>
> * All 9 churches received waters, filters, and informational bulletins.
> * Lt Roach received positive feedback from 3 of the pastors.
> * No complaints were received.
> Signage:
>
> * Provided information to SEOC on signage requirements at the fire stations.
> Storage:
>
> * Researched storage spaces; established temporary site at GCCARD.
> Personnel:
>
> * Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
> * Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
> * Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.
>
> Chris
>
>
> Update 1/9/16
>
> SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.
>
> Key items for tomorrow to note are:
>
> · 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
> · 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
> · Media event will take place on the above tomorrow.
>
> Items to Note
>

> · 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
> · We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
> · A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
> · We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
> · Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a - 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
> o A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
> · I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
> · The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
> · A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
> · Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
> o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
> § Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
> o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
> o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
> o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
> · A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.
>
> MSP/EMHSD GIS Section Updates

>
> Accomplished Today (January 9):
> * Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
> * Produced Filter Distribution Map.
> * Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
> * Worked on map of franchise customers outside of Flint City.
> * Produced maps for MDARD on food establishments and Local Health Departments.
> * Produced map of Church Filter Distribution map for DTMB.
>
> Local Emergency Operations Center
>
> · The state has deployed personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
> · Additional Sherriff staff ( ) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
> · With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
> o Logistical activities to support church operations.
> o Logistical activities to support fire stations operations.
> o Coordinate Donations Management activities and draft donations management plan
> o Coordinate Volunteer Management activities
> o Identify local storage/staging facilities
> o Overall inventory tracking
> o Tracking of Points of Distribution (PODs)
> Chris
>
>
> INTERNAL USE ONLY - LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/8/16
>
> SitRep 3 attached.
>
> There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).
>
> Items to Note
>
>
> · Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
>

>
> · We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.
>
>
>
> · We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
>
>
>
> · I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
>
>
> · DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
>
> · 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
>
> · Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
>
>
> · STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
>
>
> · The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
>
>
> · It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
>
>
> · A Volunteer Management Coordinator is in the Genesee County EOC as of today.
>

>
> · A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
>
>
> · DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
>
>
> · An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
>
>
> · GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
>
>
>
> · GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.
>
>
> Chris
>
>
>
> UPDATE 1/7/16
>
> A summary of some of today's SEOC activities is provided below. Attached is the following:
>
>
> · Today's SitRep which contains more information than below.
>
> · The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
>
> · JIC Task Tracking - for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.
>
> Items to note:
>
>
> · I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
>
> · I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
>
> · GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

>
> · Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
>
> · Filters can be obtained at the following locations:
>
> · Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
>
> · Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
>
> · Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
>
> · Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
>
> * Conducted briefing with local EOC and county executive.
> * Conducted briefing with state agencies (daily updates).
> * Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
> * JIC continued to develop messaging.
> * Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
> * Deployed two EMHSD/SEOC liaisons to assist the local EOC.
> * Published the Incident Action Plan and continued assignment of objectives/tasks.
> * FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
> * I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
> * We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
> * Local agencies and NGOs continue to provide water and filters to citizens.
> * The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater><http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.
>
> EMHSD GIS:
> Accomplished Today:
>
> · Reproduced Socio-Economic Status Map
>
> · Reproduced Predicted Affected Populations Map

> UPDATE 1/6/16
>
> A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.
>
> Advise if you want anyone else copied or off this distribution.
>
> Daily Update
>
>
> * Set goals for SEOC and identified response/recovery emphasis
> * Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
> * PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
> * Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
> * I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
> * MDHHS - Elevated Blood Lead Levels
> * Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
> * MDEQ - Water Testing Protocols
> * Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
> * Developed Incident objectives, strategy and tactics (see attached)
> * Identified SEOC and state agency staff positions
> * Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
>
> * Reviewed planned actions, prepared final draft Incident Action Plan

> * Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
> * I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
>
> * The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
>
> 1. Activate the State Recovery Task Force (SRTF).
>
> 2. *Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and* appropriate medical experts.
>
> 3. Obtain and maintain situational awareness and common operating picture of all activities.
>
> 4. Establish SEOC operational period and hours of operations.
>
> 5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
>
> 6. Develop a comprehensive GIS strategy.
>
> 7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
>
> 8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
>
> 9. Provide technical assistance to the local Damage Assessment process.
>
> 10. Establish a Joint Information Center (JIC) and develop a public information strategy.
>
> 11. Monitor MI CIMS for resource requests and address as appropriate.
>
> 12. Establish and disseminate cost center information for the incident.
>
> · Additional tasks include:
>
> * Determine what federal agencies are already involved and their status
> * Identify potential water supplies
> * Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
> * Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
> * Determine what mechanisms are in place for nutrition supplementation
>
> EMHSD GIS Accomplishments:
>
> * Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
> * Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.

> * Began consolidating local data from local GIS practitioners into a consolidated database, to include:
> * Water Pipeline Locations
> * Filter Distribution Locations
> * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
> * Affected School Locations
> * Predictive analysis of blood lead levels for affected area
> * Updated Parcels
> * Demographics
> * Block Groups
> * Produced a map for the filter distribution locations
> * Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data
>

Could you please provide me with the point of contact for MSP to coordinate with on mapping the Flint water service lines based on data they received from the city of Flint. I think we will need up to five people to input the GIS data to get it done quickly (this week) it may only take a few days

Chief,

The Service Line Material by Parcel map is developed by data which was obtained from the City maintenance department (Al Roberts). The data is from the 80s. The reason the map you have been provided is only a portion of the city is because the EMHSD Technical Support staff here lack the resources to complete this timely. A FEMA staff person here, Scott Bailey, is now working on the project. James Tchorzynski, EMHSD Technical Support Unit Supervisor, advises if DNR GIS staff could work on the project they could complete it within a couple of days. He says he could bring the data on flash drives to ConHall tomorrow and work with the individuals if the resource could be provided. I will also have him provide me the data on a flash drive to review the data.

MSP-EOC-MDEQ

From: Brown, Melanie (DEQ)
Sent: Sunday, January 24, 2016 6:14 PM
To: MSP-EOC-MDEQ; JICManager; Creagh, Keith (DEQ); Krisztian, George (DEQ)
Subject: *Description of testing data to be included in tonites press release*

While the results are encouraging, and they are trending in the right direction, there are still areas of concern. We are in the process of setting up a formal sampling protocol which will be representative of the entire distribution system and we will revisit these sites routinely so we can establish a baseline and do trend analysis.

The units in the reports are expressed in milligrams per liter (mg/L) also known as parts per million (ppm). In order to convert to parts per billion, multiply the result by 1,000.

For example, a result of 0.004 (mg/L) would equal 4 parts per billion (ppb).

We recognize that all of the samples within the program may not necessarily be sampling points recognized as Tier 1 sampling site under eth lead and copper rule The reason we are collecting these is because we are trying to get a feel for the overall system and to identify potential areas of concern.

Good morning Mel,

Is the below testing information something we should do news release about, either a stand-alone or in our nightly one?

Please advise.
Thanks,

Shanon

Subject: Sample Information from DEQ

Below is some good information from DEQ SEOC desk:

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:
1186 total Residential Samples have been reported
1099 Samples are at or below the Action Level of 15 ppb (92.7%)
966 Samples are at or below 5 ppb (81.5%)
87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:
514 total Residential Samples have been reported
477 Samples are at or below the Action Level of 15 ppb (92.8%)
432 Samples are at or below 5 ppb (84.0%)
37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

* SitRep 18

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams personnel).
- We will have 40 ARC, type 5 teams ersonnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/23/2016

37,943

6,323 National Guard
7,361 ARC

1. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Total to Date

1. Number of cases of water

148,866

1. Filters

86,843

1. Filter cartridges

194,622

1. Test kits

25,586

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes (The is the low end target #)

1. Resources purchased:
   * Cases of water 133,662 (additional 24,634 donated)
   * Filters 115,700
   * Filter Cartridges 266,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 15 National Guard State (type 3 teams---Goal tomorrow 300 homes per team
   * 40 ARC type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. Number of homes visited each day:
a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. Total number of homes visited:
a. 37,943, does include duplicate counts from the second canvasing
3. Total number of National Guard on the ground:
a. 276
4. Total Number of Volunteers each day:
a. 310 volunteers for 1/23/2016
5. Number of homes with filters:
a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. Number of Water filters distributed (each day and to date):
a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. Cases of Bottle water distributed (each day and to date):
a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. Number of testing kits distributed (each day and to date):
a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. Number of people tested for elevated blood levels (kids, adults, total):
a. Unknown at this time until we get the data
10. Number of people with elevated blood level (kids, adults, total):
a. Unknown at this time until we get the data
11. Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):
a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep # 17
* Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local ( ) type 3 teams
- 40 ARC type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.

o 26,673 water subscribers in Flint (not including franchise).

§ Water Subscribers with a Filter = 15,399 (57.7%)

§ Water Subscribers without a Filter = 11,274 (42.2%)

· With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

o 11,471 Non-Water Subscribers in Flint.

§ Non Water Subscribers with a Filter = 2,196 (19%)

§ Non Water Subscribers without a Filter = 9,275 (81%)

o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

· SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.

· Information reported to the JIC:

o As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date

1/22/2016

37,697

5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity

Total to Date

1. Number of cases of water

121,404

1. Filters

82,687

1. Filter cartridges

191,704

1. Test kits

23,415

3. Resources purchased:
a. Cases of water 130,782 (additional 21,682 donated)
b. Filters 115,700
c. Filter Cartridges 266,200
d. Test kits 61,161

4. Teams going out tomorrow:
a. 15 National Guard State) type 3 teams -- Goal tomorrow 300 homes per team
b. 40 ARC) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC
Operations:
- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.

o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.

- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep 16
* Draft Water Operations Plan for moving to next phases (Discussion document)
* Resident Water Sample Results Map (Not for public distribution)
* January 13-19 comparison map

Status on Governor's request letter to the President

* Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
* Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 18 National Guard/state/local agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams , with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was

initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.

- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

o As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
Phase 1

Phase 2

30,770

5,409

1. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Phase 1

Phase 2

1. Resources purchased:
   * Cases of water 124,398 (additional 20,098 donated)
   * Filters 115,700
   * Filter cartridges 243,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 18 National Guard/State/Local (type 3 teams -- Goal tomorrow 300 homes per team
   * 15 ARC) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

* SitRep 16

Status on Governor's request letter to the President:

* Emergency declaration received.

Key items for tomorrow to note are:
- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.

o We will have National Guard (MSP supported), type 3 teams (personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (personnel), with a goal of 100 homes per team.

- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.

· A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
· DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note
· Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
· MSP and local Sheriff's Department continue to provide over watch for WRTs.
· Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
· News release sent from Governor's office about the appeal to the President of the disaster declaration.
· SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>
· SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
· Meeting held with Dr. Luri from HHS.
· Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
· End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
· Additional 5 person NG team for warehouse support approved.
· Information reported to the JIC:

o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
a. Number of cases of water 90,337
b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 18 National Guard ( ) type 3 teams---Goal tomorrow 300 homes per team

b. 10 ARC type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

* SitRep 14

Status on Governor's request letter to the President:

* Emergency declaration received.
* Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

o We will have 9 National Guard, type 3 teams (l), with a goal of 300 homes per team.

o We will have 10 ARC, type 5 teams with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

o As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
a. Number of cases of water 77,794
b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 95,760 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 9 National Guard) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC ( ) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

* Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
* Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
* Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
* Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

* SitRep 13
* Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

* Appeal in process.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.

o We will have 5-6 state/local agency, type 3 teams (l), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams , with a goal of 100 homes per team.
o NG will be bringing in personnel to prep for surge.

Items to Note
- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via

Arab American and Chaldean Council.

- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (o- type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

* SitRep 12

Status on Governor's request letter to the President:

* Emergency declaration received.
* Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
* Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

o We will have 12 state agency, type 3 teams '), with a goal of 300 homes per team.
o We will have 12 ARC, type 5 teams), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.

o 4,963 homes visited today.

- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov<http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov> site became inaccessible caused by of a denial of service attack.

- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov> websites were again available to the public.

- Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov> becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

- Shortly after the michigan.gov<http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.

- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://www.cityofflint.com>) or Flint Township Police (flinttownshippolice.org<http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 27,195
b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 12 State type 3 teams---Goal tomorrow 300 homes per team
b. 12 ARC pe 5 teams----Goal tomorrow 100 homes per team
Local EOC

Operations:

* Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
* Coordinated supplies for distribution to students at the U of M Flint campus.
* Still concerned about people going to every fire station and collecting water/filters.
* Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
* Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

* SitRep 11

Status on Governor's request letter to the President:

* Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
* The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 10 state agency, type 3 teams l), with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.

o NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.

- Information reported to the JIC:

o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
a. Number of cases of water 20,876
b. Filters 47,935
c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 10 State (type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

* Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
* Lt. Roach worked with faith based organizations today reference water and filter

distribution. Additional churches were supplied with water, filters and test kits.
* Still concerned about people going to every fire station and collecting water/filters.
* Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

* SitRep 10

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
* When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 10 state agency, type 3 teams (, with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams (, with a goal of 100 homes per team.
  - o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

· LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.

· Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.

· Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.

· Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. *45,000 hookups (This is our high end target #)*
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
a. 10 State) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

* Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

* We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed

to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.

* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
* Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
* Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

* SitRep 9

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel

may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS

o The Community Health Emergency Coordination Center (CHECC) is working on the following:

§ A nutrition plan
§ Education materials, messaging, and working with local agencies
§ Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

* SitRep 8

Status on Governor's request letter to the President:

* All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
* Current timeline:
  * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

* The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
* The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
* This request is in coordination with the request for Non-Stafford Act federal assistance

already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
* Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
* Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
* If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:
- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note
- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

· We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
· Logistics Support
o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
§ Mission – A filter in every home ASAP.
§ 4 Distribution Methods
· PODs (5)
· Water Response Teams (20 effective tomorrow and this will increase)
· Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
· Local EOC support for other local requests (Faith based for distribution, etc.)
§ Three warehouse locations at this time
§ How to better leverage ARC resources

· Supplies – Daily Numbers

o Replacement Cartridges - 30,700 delivered.

o Water (cases) - 19,152 cases delivered

· Budget projection completed and will be submitted to SBO for review.

· Notes from Water Response Team Command (MSP)
o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.

o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
· Receive, store and increase quantities of supplies
· Fine-tune logistics
· Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
· Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

* SitRep 7
* Executive Order Activating the National Guard

Key items for tomorrow to note are:
· The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
o I have briefed the ARC Disaster Officer on this plan.
· The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
· The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
· We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note
· PSA video sent out to Flint citizens on resources available.

· Water
o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)

o Ordered:
§ 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
· 1/3 is going to GCCARD and the rest is going to the new warehouse
§ 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

· Filters
o Today's numbers
§ Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
· 2,000 – Brita filter faucet mounts
§ Filter Replacements
· 2,400 – Brita filter replacements (single pack)
· 8,000 – Brita filter replacements (two pack)
o Ordered on 1/12/16 to arrive Wednesday
§ Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR Vertical faucet mount
· 2,500 – PUR Horizontal mount
§ Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR replacement filters (3 pack)
· 10,000 – PUR replacement filters (single pack)
§ PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
· 10,700 – PUR combo packs

· To arrive Thursday
o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 1,300 – Zero Water pitchers
o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 11,000 – PUR vertical faucet mount
§ 1,500 – PUR Horizontal faucet mount
§ 5,000 – Brita faucet mount
§ 10,000 – Brita adv faucet mount white
§ 12,000 – Brita adv faucet mount chrome
o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 117,600 – PUR replacement filter

· Test Kits
o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
o 500 have been assembled and are ready for distribution
o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
o 10,142 unassembled kits to arrive at GCCARD early next week

· Second warehouse – Located in Flint
o 100, 000 square feet of secure warehouse obtained.
o Accepting commodities beginning Wednesday, January 13

· Logistics Support
o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

· Door to Door Numbers

o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
o We are working on version 2.0 so this can be used at the PODs
o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
o Notes from the field commander:
§ "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
o In the end, there were 394 total home visits with the following breakdowns:
· 217 Door Hangers
· 152 Vacant Homes
· 117 Water Distributions
· 112 Filters
· 3 Pitchers
· 48 Water Test Kits
· 211
o CALL VOLUME:
§ 185 calls for water-related issues had been received as of 4:45 pm.

· Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

* SitRep 6

Key items for tomorrow to note are:
· The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

· It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
· We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
· Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
· We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
· ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
· Began mapping lead service lines (anticipate having draft of lead service lines Friday).
· Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

* SitRep 5
* Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
- An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
  - o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
- Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
  - o Debris Removal = self-explanatory and we do not have this
  - o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
  - o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.

3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

· All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

· Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.

· The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.

· The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.

o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.

o The door card is attached that will be left if no one is home.

· Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

· GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).

o 12,386 filters
o 1,985 replacement filters
o 354 Pitchers
o 2500 Lead Testing Kits

· Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.

o We have ordered an additional (expedited delivery with ETAs tomorrow)

§ 40,000 Brita Filters
§ 40,000 Brita Replacement Filters
§ 1000 Zero 8-Cup Pitchers
§ 1000 Zero 8-Cup Pitchers
§ 2000 PUR Replacement Filters
§ 93 Pallets of water (about 6700 cases)

· GIS continues to produce multiple maps for use.

· JIC Items

o Requested PSA on the radio. Media has been approved and working with MAB.
o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
§ Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
§ JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:
Station 1:

* Only time without supplies - 15 minutes without water while the truck was unloaded.
Station 3:

* Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.
Station 5:

* Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
* Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.
Station 6:

* Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
* 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
* We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.
Station 8:

* Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.

* Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
* Reports received that the last couple of hours were slow.
* Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

* United Way set up meeting with Food Bank to discuss.
* Had EOC meeting on this topic to discuss options.

Churches:

* All 9 churches received waters, filters, and informational bulletins.
* Lt Roach received positive feedback from 3 of the pastors.
* No complaints were received.

Signage:

* Provided information to SEOC on signage requirements at the fire stations.

Storage:

* Researched storage spaces; established temporary site at GCCARD.

Personnel:

* Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
* Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
* Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.

· Media event will take place on the above tomorrow.

Items to Note

· 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
· We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
· A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
· We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
· Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
o A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
· I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
· The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
· A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
· Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

§ Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
· A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):
• Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
• Produced Filter Distribution Map.
• Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
• Worked on map of franchise customers outside of Flint City.
• Produced maps for MDARD on food establishments and Local Health Departments.
• Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

· The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
· Additional Sherriff staff) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
· With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
o Logistical activities to support church operations.
o Logistical activities to support fire stations operations.
o Coordinate Donations Management activities and draft donations management plan
o Coordinate Volunteer Management activities
o Identify local storage/staging facilities
o Overall inventory tracking
o Tracking of Points of Distribution (PODs)
Chris

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

· Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

· We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

· We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

· I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

· DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

· 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test

kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

· GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

· Today's SitRep which contains more information than below.

· The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.

· JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

· I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.

· I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

· GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

· Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

· Filters can be obtained at the following locations:

· Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

· Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI

48504

· Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507

· Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

* Conducted briefing with local EOC and county executive.
* Conducted briefing with state agencies (daily updates).
* Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
* JIC continued to develop messaging.
* Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
* Deployed two EMHSD/SEOC liaisons to assist the local EOC.
* Published the Incident Action Plan and continued assignment of objectives/tasks.
* FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
* I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
* We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
* Local agencies and NGOs continue to provide water and filters to citizens.
* The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

· Reproduced Socio-Economic Status Map

· Reproduced Predicted Affected Populations Map

· Cleansed old data and reports for water filter distributions

· Created draft map of water filter distributions (Refinement needed before releasing final product)

· Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

· Formatted databases to host content

· Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs

· Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

* Set goals for SEOC and identified response/recovery emphasis
* Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
* PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
* Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
* I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
* MDHHS – Elevated Blood Lead Levels
    * Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
* MDEQ – Water Testing Protocols
    * Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
* Developed Incident objectives, strategy and tactics (see attached)
* Identified SEOC and state agency staff positions
* Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

* Reviewed planned actions, prepared final draft Incident Action Plan
* Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
* I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.

* The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.

1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.

6. Develop a comprehensive GIS strategy.

7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.

9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.

12. Establish and disseminate cost center information for the incident.

Additional tasks include:

* Determine what federal agencies are already involved and their status
* Identify potential water supplies
* Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
* Determine how filter distribution is handled, and if it can be handled more efficiently and

effectively
* Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

* Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
* Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
* Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  * Water Pipeline Locations
  * Filter Distribution Locations
  * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  * Affected School Locations
  * Predictive analysis of blood lead levels for affected area
  * Updated Parcels
  * Demographics
  * Block Groups
* Produced a map for the filter distribution locations
* Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification

system with additional information in an email.

o This included information on the SEOC activation and a 0900 briefing for SEMCs.

o Some subject matter experts will provide us an update to establish a common operating picture.

· We have been in contact with FEMA Region V watch desk … they will be on the call tomorrow and continue to monitor the situation.

· I have been in contact with the FEMA Region V Administrator to keep him updated.

· Operational period for the SEOC will be M-F, 0800 to 1700 at this time.

· Situation Reports (SitReps) will be provided in the evenings.

· An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

I'm not sure is she is referring to the free residential testing that is being done in Flint or if she was one of the sites used for compliance monitoring. In either case she is welcome to get a sample bottle from one of the PODs and submit another test.

It appears that her water was originally tested prior to the switch to DWSD so I would certainly encourage her to have a follow-up test done. I myself would be curious to know what both of her results were.

Thank you!
George

Hi George.

The request below is likely best handled by you, related to someone whose water was sampled by us in late 2014 with concentrations > action level. wants to know the plan for re-testing post-switch back to Detroit water. If there's a plan it would help if we're familiar too. If you need assistance with plan, let us know.

Subject: Test Results

Hello,

Is there a unique ID for the test kits that we can use to check against for our records?

We are finding a lot of bad addresses and are going to fix them, but we will need to be able to cross reference with your tables when you send them to ensure we don't have to enter those records again.

Also, there is about 10 with location values that are blank. If there are more attributes to go by that we could do some detective work with we may be able to plot those points as well.

Kirby and Julie,

We need to discuss how we can identify MDARD samples in the database.

Let's set up a time to talk.

Subject: RE: Food facilities testing

George – I confirmed with Tom Tederington (Regional Food Supervisor) that our staff is writing MDARD on the top of the form, and they're marking on the outside of the box at the drop off location. MDARD has collected and submitted 18 water samples from food businesses last week Thursday & Friday; more scheduled for this coming week.

Subject: RE: Food facilities testing

Is MDARD being written in a field or just anywhere on the paperwork? I will need to be able to somehow identify these samples in the database.

Thanks to all!

Subject: Food facilities testing
Importance: High

I need to know how the MDARD samples are being identified for the food facilities testing so that they can be included in the Governor's daily report.

Who the report is going to will probably get me the information I need. Hopefully there is a centralized person. If not, anything that is common to all of the MDARD samples but different from the residential samples will work.

Thank you!

Subject: Residual Chlorine Issue

This is just an FYI with respect to the residual chlorine complaint.

Faucet mount and pitcher filter units typically contain GAC (Granular Activated Carbon/Charcoal). If GAC is contained in a filter unit and a sample is taken through the filter it is likely that the filter will remove all residual chlorine. These filters are not specific to lead removal only. They will often remove a whole host of things in the water.

Branch lines from the CL to the curb are 80% lead. The unknown factor is what lies from the branch line at the curb to the basement of the house. They have identified 646 lead lines so far. Unfortunately, they are no longer working on the project, FEMA took GIS over and the POC is Scott Bailey. He will continue to map the project on a long term basis as of January 22nd, 2016. I will attempt to touch base with him today. Also, only about 55% of Flint is currently mapped. GIS started at the north side and worked south on the west side of the river, so much of the city information is still missing.

Subject: RE: Request from Governor's Office for Daily Sample Metrics

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:
1186 total Residential Samples have been reported
1099 Samples are at or below the Action Level of 15 ppb (92.7%)
966 Samples are at or below 5 ppb (81.5%)
87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:
514 total Residential Samples have been reported
477 Samples are at or below the Action Level of 15 ppb (92.8%)
432 Samples are at or below 5 ppb (84.0%)
37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

I have submitted a request to the EOC to obtain information from MDARD that will allow me to identify food establishment samples. Once I get that information I can see if I can provide that as well.

Thank you
George

To: MSP-EOC-MDEQ
Subject: Re: Sampling Forms

Continuing to resolve the transportation issue for Team Rubicon. Trying to locate/verify vehicles and drivers available for Team.

Two items for discussion.
1. EPA is requesting 100 water sample kits for this afternoon. They were asked to supply them for tomorrow's public meeting. Can this be accommodated/approved.

2. IC would like to keep water kits at the pods only and limit door-to-door delivers to vulnerable populations. Considering the reduce MSP and National Guard presence starting next week this could be a helpful measure with the change in resources.

Thanks!

Hi Mark

Per our telephone discussion just now, I'm forwarding the information about one specific complaint about rashes that our Community Health folks plan on working with ATSTD/CDC on. We're requesting that EPA collect all appropriate water samples to enable a full analysis of the water at this address:
for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and we need to find out what, if any, other contaminants are in the water.

In addition, we discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.

Looking forward to our ongoing collaboration on this matter. Thanks!

Mitch

I contacted He did have his water tested, has filters on the faucets, and has plenty of bottled water. Both he and his girlfriend have been having rashes for the past 2 mns and they have not changed detergent or body wash. saw his physician who agrees the water is causing his rash. I will have a MDHHS toxicologist contact or more investigations into the water and rash development.

To: Sakowski, Kim (DEQ)
Subject: idea for the trenches

Hello Kim:

Was thinking more about the challenges facing State and DEQ re water. I can't be the only one with a desire to "pay it forward" and help.

Could some bright person there figure out a way that the state consulting community can chip in? What with water being vital and all....

I would be glad to help advocate for or facilitate a system such as this, and we know JP would love it.

Mike

MSP-EOC-MDEQ

From: Brown, Melanie (DEQ)
Sent: Saturday, January 23, 2016 6:09 PM
To: Wolf, Jennifer (DNR); MSP-EOC-MDEQ
Cc: Anderson, Madhu (DEQ)
Subject: Issue with 211 regarding filters properly fitting

Follow Up Flag: Follow up
Flag Status: Flagged

Jen – Madhu makes note that DEQ office is getting calls from Flint residents who are having problems fitting the filters onto their faucets – 211 is not able to help. Pelase provide guidance on what info we are to provide to residents regarding this situation?

Heres from her email:

Flint residents that have been referred to 211 are getting more frustrated trying to navigate 211, and their calls are not getting through. Can we help this situation by finding out where 211 is sending these callers and getting that info directly to our callers?

- Apparently many calls are about the misfit of the filters on faucets – residents need more instructions

Thanks
Mel.

Importance: High

Hi Kirby, Mitch here at the SEOC

Just took a call from the DEQ staff at the American Red Cross (ARC) & they're in need of labels for what I interpret to be VWR bottles based on the 144/caser. The lot number they're ready to label is:

011816-5 There's another number on the box: LPW-032950

Is this batch lot-testing complete and have the labels been printed?

Cc: Scheels, Joshua (DEQ)
Subject: Re: Labels for Kits

Hi Mitch,

Here is the information requested:

Total Bottles
Today 7,623
Yesterday 7,350

Inventory Remaining
Lot ID 0151 26 boxes (72 bottles/box)
Lot ID 0210 41 boxes (41 bottles/box)

Chains of Custody needed: @ 10,000

No one is aware of 25,000 forms being delivered to the GCEOC. Still working on that on this end.

Subject: Re: EPA Sampling

Hey Mitch,

The EPA is fielding one team. I spoke with Mark Durno and the EPA is open to incorporating someone from the state into their team. The EPA start contractor would collect the sample and the EPA OSC (either Brian Kelly and/or Jeff Lippert) would be the contact to the property owner. Our representative would act as a technical resource and in an outreach role.

The overall lead is Mark Durno The sampling team lead is Brian Kelly If you have any questions please let me know.

Thanks,

JOSEPH DEGRAZIA

Hi Mitch,

I didn't receive a response from Lt. Burton. If we can have some resources (drinking water staff?) available on Monday or early in the week to go with the EPA team that might be a good show of cooperation/relationship between State and Federal agencies.

I contacted Mr. Folts. He did have his water tested, has filters on the faucets, and has plenty of bottled water. Both he and his girlfriend have been having rashes for the past 2 mns and they have not changed detergent or body wash. Mr. Folts saw his physician who agrees the water is causing his rash. I will have a MDHHS toxicologist contact Mr. Folts for more investigations into the water and rash development.

Regards,
Jen

Some additional information:

Logistics contacted the facility at 700 Court St yesterday. The facility advised they received the supplies they need but would need water next week. We will supply them. We are currently trying to to identify if any facilities are in need. Unfortunately, rumors are rampant with this and as a result we are now spending a lot of time dispelling them. We will keep on this and definitely understand the necessity. Please let me know if you hear anything else.

My understanding is that senior centers are on the water distribution list and (some) assisted living senior centers are being handled by the UAW and other groups. If there are specific centers that aren't getting water they need to contact 211. Hot Shot teams will be assisting in delivery activities throughout the weekend.

Thanks,
Joe

Subject: RE: Attached Doc for review

I have some questions about this letter:

1. Is there a legal requirement that this document be mailed by a certain date?
2. Is there a legal requirement that the letter contain certain information?
3. Why is DEQ writing the letter for Flint? Is DEQ going to order Flint to send the letter in a particular form?
4. Is the information about running cold water consistent with our safety recommendations? I thought it had to be filtered to be safe for consumption.
5. How is a person supposed to find out if their pipes are lead? Isn't that something we are working on in our emergency response?

Comments:

Somebody from DEQ/GOV communications needs to review this before it goes out to Flint. And when we reach out to Flint, it should be coordinated through Harvey Hollins in our office.

Paul,

I'm glad you caught that. I meant to flag that as well. To be clear, I believe this letter would be sent out by the City of Flint as a requirement of the Lead and Copper Rule. It would not be a DEQ document. Nonetheless, I agree that Flint shouldn't send out something that says their failure to sample correctly, in the current context, isn't an emergency. They should just not make the statement.

Peter

This letter should NOT go out in its current form. For starters, it would be very confusing for DEQ to send out a document saying "this is not an emergency."

Just sent the response on this. Call the main number at 517-335-9800 when en route. We will let the security guard know he is coming and guard will page us to the loading dock when driver arrives. If you don't have an idea on totals tonight, can you get an estimate when you call to let us know the driver is on the way? We can begin the login process of printing labels before they arrive, and this speeds up the process.

Thanks!
Kirby

Subject: Sourcewaterwatch.com wants to gift software to help Flint

Good afternoon,

I received a voicemail from Michael McDonald who is a Flint native, graduated from MSU and now lives in Dallas, Texas. The company he works for Sourcewaterwatch.com (formerly FracTest.com) wants to gift their software as a service (SAAS) to us to use in Flint. *It does real time monitoring, can integrate to databases and trigger alerts.* They currently do work with Texas and municipalities as well as other states, he said it is a tried and true, nothing new. Michael can be reached at . The President of the company Scott Nelson and Michael would like to come to Michigan to meet with someone to discuss.

Please let me know how to respond to Michael because I said I would let him know by Monday COB what I had come up with.

Thank you.

Subject:	RE: Question on Priority for MDARD Samples

I agree that the food establishment samples should take priority over the residential samples provided that there is some balance. We have made a commitment to turn the residential samples in three weeks but that includes the time needed for the Flint WTP to take our report, and then make the modifications etc. that they do and then send those out to the residents.

I have copied Mike Glasgow on this e-mail so that he is in the loop and so that we can ensure that he has the resources he needs to get those reports turned around. Mike, please let the EOC know if you have resource needs for getting the reports out. I think we identified this need earlier but I want to ensure that nothing falls through the cracks.

Based on the information below I suggest that the MDARD samples from each shipment be put to the front of the line of all the samples within that individual shipment. They should not however, be placed in front of samples from previous shipments. Let's try this initially and see how it works. We can make modifications as we go along if necessary.

Thank you everyone!
George

Subject: Question on Priority for MDARD Samples
Importance: High

Hi George

Kirby asked a good question about whether the lab should put a higher priority on analyzing samples from the food establishments submitted by MDARD than the residential water samples. Subsequent discussion with DARD here at the EOC also raised questions about turn-around time for results.

DARD and I just spoke with the Captain and asked his thoughts. He suggested running up to you/Director.

My recommendation is to make the food establishment (restaurants, grocery stores, c-stores & food processors) samples a higher priority, particularly to minimize further economic impact. I also recommend we seek 5 day

turnaround time. My understanding from DARD is that the DARD samples are taken to the water treatment plant and shipped with the rest of our samples but put in a separate box labeled MDARD.

Do you concur with the strategy to put a priority on these samples and seek a 5 day turnaround?

Cc: Brennan, Patrick (DEQ); MSP-EOC-MDCORTNS
Subject: Update on Jackson Prison Water Matter

Per Corrections, the pipeline break was at the Jackson Reception and Guidance Center, and a pipeline broke and DOC fixed it and after pressure was restored colored water was observed causing the on-site DOC sanitarian to internally issue boiled water advisory. The water is supplied by the City of Jackson, and the City is able to provide the necessary testing, so no DEQ lab resource is being requested at this time.

Hi Carol, Jay spoke with Wayne Shetwell this morning. Beginning, Monday January 25th he has offered the availability of one Belle Tire 24' truck and driver to pick up and deliver water donations or for other transportation needs across the greater Flint area. This is available Monday through Friday 8am - 8pm.

Thank you. Janet

Subject: WRD Assistance Flint
Importance: High

I just spoke with Jen Wolf who said they just had something come up in Flint and need someone to assist Liz Browne with some work they are doing to documenting lead plumbing in schools. They need someone ASAP for the rest of today and tomorrow and would like it to be someone who is in Lansing if possible in order to pick up some blueprints to take with them. It wouldn't have to be anyone from LSC necessarily and could really be anyone, but they would have to be able to document activities with a digital camera. With approval, my thought was Laura could send out a note to potential WRD staff in Lansing to solicit someone to assist. Below is an excerpt from Jen's e-mail on the topic.

"To follow up: Assist team of DLARA (plumbing inspectors) and DEQ (Liz Browne) to conduct plumbing inspection and sampling at the Flint School of the Deaf: 1235 West Court Street, Flint, MI 48503
(810) 257-1467

- One person w/ digital cam & notepad... note taker/documentation
- Pick up blue prints from DLARA Ottawa Bldg Lansing and take with
- Report to Liz Browne at the school today (ASAP)
- To work through late tonight and all day tomorrow"

Please let me know your thoughts ASAP.

I just spoke with Liz and Joe from LARA. They are going to the School of the Deaf now and I am coordinating with the LARA rep here to get them the resources they need.

Thanks!

Subject: RE: School of the Deaf

The number that I have is for Liz is

I called and left a message with Liz asking if there was any way this could be done this weekend. Since arrangements have already been made with other facilities for the weekend and our resources have been deployed to conduct the plumbing evaluations it is unlikely that we can do that facility this weekend.

If my understanding is correct, they were already next in line and would be done next weekend. There is a stagnation period of a minimum of 6 hours that the water must go unused so that we can obtain a good sample. Due to this requirement schools can typically only be done on the weekend.

George,

The American Water Company has offered expertise and resources in resolving the Flint emergency. As Matt states, American Water is a privately owned entity that owns and/or operates over 300 water systems, including some municipal systems as large and larger than Flint.

From my personal interactions with this company and their staff at conferences and workshops, they do have significant expertise and probably have resources that are relatively mobile. If you and the response team for Flint think they could provide any assistance, Matt is offering their services.

Richard

Subject: Assistance from American Water

Richard -

I wanted to reach out on behalf of American Water and offer our expertise and resources as MDEQ works with Flint. As you know, with over 300 drinking water systems, American Water has vast experience with treating waters of various source qualities and has also performed research specifically on lead in drinking water. Please let me know if we can be of assistance.

Thanks
Matt

Hi Jen,

There is support from our management for our Large Spills Committee/Incident Response Team staff to provide support/assistance for Flint. Please let me know what assistance you might need from us and where, what roles, time commitment, and in what capacity we might be able to help. I would still need to run specifics by our management, but they have given an initial support of our involvement.

Thanks,

Hi Ryan!

Mark DuCharme has been heavily involved up in Flint, as well as some other folks (all RRD if I recall correctly). As to the SEOC, Jen Wolf and Mitch Adelman have been reporting – not sure about anyone else. See Mark's note (attached) on how you can access the MiCIMS reporting. If you and others that are trained are willing to respond, letting Jen Wolf know that would be a good first step.

I have been tied up on the school sampling end of things. Liz.

Hi Liz,

Since I haven't really heard anything specific as of yet with regard to DEQ's involvement in the EOC, just wondering if you had any updates/information as to what level DEQ staff have been involved up to this point? Since this is likely going to be a long term activation, I'm just wondering if WRD staff would be of value or potentially tapped?

Any info would be appreciated.

Thanks,

Based on progress this morning the wear house should have another completed 1318 kits. Matt at ETC consultant picked up 144 kits. Our day total for this morning was 1462 kits. I'm heading back to Bay City once RC staff get back with the 720 bottles.

RC staff discussed possibly staggering the kit assembly schedule to possibly better accommodate the shipping and lab testing. Something to think about. Might be more productive to go to 3 days a week? Or t arrange the assembly activity once the bottles and all supplies are in place.

We have volunteers driving in from all over the State and nothing worse then sending them home. The RC is frustrated for good reason. Just passing this info on for further discussion.

We have volunteers driving in from all over the State and nothing worse then sending them home. The RC is frustrated for good reason. Just passing this info on for further discussion.

Subject: pick ups

Just thought you might like to know the Water Plant received over 57 samples today. That's how many I have in my office and prepared. I can take them to Lansing tomorrow along with 8 samples provided by MDARD (they are testing local restaurants).

I can pick up more from other locations but I'd like to know how many to expect so I can determine if there is enough room in the vehicle.

Please advise.

Sincerely,

Kirby,

We never confirmed copying the lab request sheets (yellow instructions attached to sample bottles). The city of Flint did not copy all of the yellow instruction/lab request sheets that were affixed to the sample bottles that Dept. of Corrections delivered today (Thursday). It is important that the city receives copies of these documents. Please confirm the ability of the lab to copy the forms and return to the city of Flint. Copies can either be scanned (pdf) or paper. If paper, we can deliver to the city instead of mail delivery. Thank you.

Subject: Lab Resources
Importance: High

Kirby,

I would like to ensure that we do not fall behind with respect to samples due to resource needs. As we discussed we will likely need at least 4 people to assist at the DEQ Lab to make sure we make good on our commitment to process 400 samples a day 7 days a week.

In looking at the Lab backlog and the number of samples that need data coding I can see that things are ramping up. I would like you to contact Ronald Ray at LARA and Craig Van Buren at MDARD and ask for 2 people from each lab. I would like for these resources to be deployed today if possible and no later than tomorrow. I see a very significant rise in samples coming in the very near term and we need to respond proactively. I would like to see the necessary training occur before we are in crisis mode.

Thank you!

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Please see the email from yesterday afternoon, response from Jeanette Doll. FEMA is listed as taking over "collection bottles for water testing." This was also discussed in my phone discussion with her this morning.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

FYI~ Relevant to my earlier request of water bottle test kit distribution plan and messaging. **Need to address this today!**

I worked with the city yesterday and arranged for MDOC to pick up samples from collection sites (PODs, City Hall & Water Treatment Plant) and deliver to the DEQ lab. They will do this as needed beginning at least once daily beginning today. The State Director advised we should refrain from utilizing DEQ staff conduct this task and will rely on other agencies to assist.

Subject: RE: Testing of Filtered water

Importance: High

There is a very specific protocol that is used to certify point of use filtration devices. This standard is NSF Standard 53. To my knowledge the filters that are being passed out clearly state that they have been successfully tested to the requirements of Standard 53 for the advertised life of the filter which is typically 100 gallons for the faucet mount filters.

We had a very similar issue with respect to bottled water yesterday and the language I provided to address this issue was as follows:

Recently there have been some concerns raised about the possibility of lead being in the bottled water that is being given to the residents of Flint. This concern was raised due to measurements that some residents obtained with a TDS meter that was provided with their zero water brand water filters. The term TDS stands for "Total Dissolved Solids" and is a measurement of all of the minerals and other common chemicals that are present in the water. The TDS meter is not sensitive enough to measure the lead in the water and the purpose for including it with the filter is to help the user determine when it is time to replace the filter.

Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water that is being distributed should be tested for lead. Therefore, the DEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. The results show that all 21 brands of bottled water had results of "Not Detected". With respect to lead that means that all 21 brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water that is being distributed is safe and for that, we are thankful for the suggestion.

I have to go to a meeting right now, Jen let's talk after my meeting so that we can discuss a path going forward.

Subject: Testing of Filtered water

The State Director asked if the various filters the state passing out have been tested? There is the ZeroWater, Brita & PUR faucet mounted filters. I presume we would want to be sure we are using a known elevated lead level source.

This is in response to media stating the filters are not reducing the lead levels to a safe level.....

Subject: MDEQ Lab State of Emergency Needs Assessment

The MDEQ Laboratory would like to officially request assistance at the State Laboratory with the State of Emergency Operations processing and testing water samples from the City of Flint. The laboratory requests the following four additional staff for assistance beyond the laboratory's current staff.

1 individual to work full time Monday through Friday 40hrs per week with weekend overtime up to 6 months assisting data coding, sample receiving and sample transport. Individual may be data coding sample demographic information into computer, receiving and setting up samples, and moving samples to testing/storage locations in the lab.

1 individual to work full time Monday through Friday 40hrs per week with weekend overtime up to 6 months assisting sample processing. Individual may be chemically preserving samples, performing pH and Turbidity analysis, pouring samples into sample testing tubes for analysis and moving samples to storage locations in the lab.

2 individuals to work full time Monday through Friday 40hrs per week with weekend overtime up to 6 months assisting sample processing. Individual may be analyzing water samples using ICPMS instrumentation and validating sample analysis.

At this point we do not want to get 1000s of samples arriving at the lab at once. A potential bottle neck is the preservation that must be done with in 14days of collection. We have enough preservative to treat 10,000 samples with more on order, but I'm verifying that this product or alternate will not have a problem getting to us.

FYI- I did speak with Nina last night just before leaving and asked that she followed up with an email so Mitch could inform everyone. I see that did not occur until late last night so we are all getting the info this morning.

For George, at what point do we want to agree that we have a representative sample amount? Should we consider still offering testing for anyone who wants it but relieve the push of these to the extent we have been? We would need to develop appropriate messaging. At this point with the orders coming in through next week we will have distributed in excess of 70,000 water test kits.

Hello everyone,

I have left messages with some of you and I was able to talk with Jennifer Wolf at the Emergency Management center. We have had problem with the full shipment being overnight shipped to MI. We apologize for the confusion for the shipment not going out next day air. The overnight shipping costs for this shipment would have totaled into the thousands, closing in on $10,000 for the total amount of cases shipped on Tuesday. Our supplier did not think that this was approved. However, we have worked to find a solution so this lot can be tested by Kirby tomorrow.

What have done to remedy the situation this afternoon is ship one case (of the same lot) overnight to Kirby Shane at the MDEQ lab. Five cases will be shipped overnight to the Flint location so they have them on hand. Kirby will get two cases of this lot, one tomorrow and one Friday due to this error.

I apologize for the shipping confusion and I hope that our solution to ship 6 cases tonight will be acceptable to everyone else. Thank you Jennifer for letting me know this works for you.

Jennifer and I have discussed the shipment for the remaining cases and we do not need to send any other cases overnight, they should be fine with stock as the Tuesday shipment will arrive soon after the 5 cases tomorrow.

Please let me know if anyone has questions. Thank you.

Best,

Nina

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

The company wanted to send in a case for sampling from their warehouse just to be certain. The DHHS person here originally spoke with the company (cannedwater4kids). This is the canned water citizens were concerned about due to the elevated TDS.

This is not a priority test, just a courtesy to cannedwater4kids.

Thank you very much Jen.

I will send you UPS tracking info when we ship water to you.

We have many resources to help you in Milwaukee. Milwaukee Water Council & University of Wisconsin Milwaukee

Just let us know.

> I am working with Doug at ZeroWater ( ) to address the concerns and provide accurate information to the citizens regarding the capabilities of the meter. The citizens misinterpreted the elevated levels on the meter, presuming it meant there was elevated levels of lead in the metered water. These citizens have been informed the difference of the TDS meter and a laboratory analysis for lead and copper. I will be requesting Doug to also call the citizens to reiterate this. The citizens lack trust in any water they are provided and have been using the supplied TDS meters to test any bottled or canned water they have received from the city.

Importance: High

Kathy one of my team members asked is it possible for you to send us one of the testers that are being used in the home. Also, can you tell us who gave your citizens these testers and who is the manufacturer? We have contacts with University of Wisconsin Milwaukee labs and state certified testing. We would like them to re-test our water in cans that is from the same batch sent to your citizens and to test the accuracy of the tester being used.

Thank you very much.

Greg

Subject: Follow Up to Phone Conversation

Good Evening Mr. Stromberg,

Thank you for taking the time to speak to me on the phone tonight. I have contacted our representative of the Department of Environmental Quality and she said that you can ship a case of the canned water to our DEQ Laboratory at 3350 N. Martin Luther King Boulevard, Lansing, MI 48906. They will provide additional testing.

We appreciate your support and assistance with this issue.

Respectfully,

Kathy Wahl, BS, MSN, RN
